

# Ukraine as a new Party of Convention on the Transboundary Effects of Industrial Accidents and current challenges

**Speaker: Mr. Stanislav KULYKIVSKYI –**  
**Head of Sector for international technical cooperation**  
**The State Emergency Service of Ukraine**

**2022, Geneva, Switzerland**

# THE LAW OF UKRAINE

## **On Ukraine's accession to the Convention on Transboundary Effects of Industrial Accidents**

The Verkhovna Rada of Ukraine decrees:

To accede to the Convention on Transboundary Effects of Industrial Accidents, made on March 17, 1992 in Helsinki, with amendments dated December 19, 2015, which enters into force for Ukraine on the ninetieth day after the date of deposit of the accession document.

**The President of Ukraine**

**V. ZELENSKYI**

**May 3, 2022**

**No. 2232-IX**

# RELATED LEGAL ACTS

## THE LAW OF UKRAINE

**On making changes to some legislative acts of  
Ukraine regarding hazardous activities**

**July 15, 2021**

**No. 1686-IX**

**DECREE OF CABINET OF MINISTERS  
OF UKRAINE**

**Some issues of identification of hazardous  
activities**

**September 13, 2022**

**No. 1030**

# DRAFTS OF LEGAL ACTS

The State Emergency Service of Ukraine is responsible for the implementation of the Convention and is currently working on:

**creation of an information and communication system - the State electronic register of hazardous activities**

**preparation of the relevant draft resolution of the Cabinet of Ministers of Ukraine regarding the operation and maintenance of the register**

# DRAFTS OF LEGAL ACTS

## Draft orders of the Ministry of Internal Affairs of Ukraine:

1. On approval of the procedure for developing a safety report of hazardous activities
2. On approval of the procedure for developing a major-accident prevention policy on hazardous activities

# ACTIVITIES OF SESU IN WAR TIME

Eliminating of the consequences of shelling high-risk objects.

Provision of emergency power supply for critical infrastructure facilities

Video

# HUMANITARIAN AID

A significant role in strengthening the capabilities of the State Emergency Service has played provision of humanitarian aid from EU member states, UK and other countries.

Activation of the EU Civil Protection Mechanism made it possible to coordinate the flow of humanitarian aid through logistics centers created in Poland, Romania and Slovakia.

At this time, it has already been received through logistics centers more than 780 fire-rescue and special vehicles and other badly needed humanitarian aid.

# PRIORITY NEEDS OF UKRAINE

1. Support of Ukraine's ability to provide hazardous installations with electricity
2. Obtaining special emergency and rescue equipment
3. Providing expert support in aligning the national legislation with the requirements of the Convention and in the field technogenic safety
4. Continuation of cross-border cooperation in the basins of transboundary rivers, e.g. Danube Delta together with Moldova and Romania
5. Obtaining assistance for the restoration of critical infrastructure facilities and organization of study trips
6. Solving the still very urgent environmental protection problems of the city of Kalush in the Dniester basin

**Thank you for your kind attention!**
