

OICA inputs on UN-R154 and GTR 15

GRPE 87 – January 2023

Inputs on UN R154

Base documents (updates sent by Nick-san on December 22nd):

- GRPE-87-17e_new supplement to the 02 series of amendments to UN Regulation No.154
- GRPE-87-18e_new supplement to the 03 series of amendments to UN Regulation No.154

Current status regarding reviewing JPN proposal on CoP section:

First check done by some members with following result

- Changes seem to be only restructuring and error correction
- First check hasn't identified any unintended content changes

Additional time for scrutiny required:

- Quite a lot of changes in the CoP section
- OICA members still in scrutiny phase

Inputs on UN R154

Base documents (updates sent by Nick-san on December 22nd):

- GRPE-87-17e_new supplement to the 02 series of amendments to UN Regulation No.154
- GRPE-87-18e_new supplement to the 03 series of amendments to UN Regulation No.154

Current status regarding reviewing JPN proposal on PHEV calculations:

OICA still in internal discussions

Inputs on GTR No.15 Annex 13

Current status regarding GTR No.15 Annex 13:

- OICA addressed need for update already in January 2022 ([GRPE-85-22e](#))
 - OICA would like to remind of the need for such an amendment:
 - Amendment required before Annex 13 transposed into local Regulation.
 - Concerns and comments from January 2022 still valid.
- Question of timeline for such an amendment still open (to be discussed)
