Draft Economic Commission for Europe
Road Safety Action Plan 2023 – 2030
Item 4

Actions of the inland transport sector to join the global fight against climate change
Approach and Main Principles

- Stems from elements and principles contained in the Global Plan for the Decade of Action for Road Safety 2021-2030
- Aims to provide support to countries for the implementation of the Global Plan
- Supports implementation of the ITC Recommendations and the United Nations road safety legal instruments
- Provides a basis for an integrated safe system approach
- Designed as a living document that will be updated by regular input provided by ITC Working Parties
- Implementation will be reported to ITC at its annual sessions.
Approach and Main Principles (cont.)

- **ITC** as the United Nations inter- and intra-regional centre for inland transport and custodian of United Nations conventions and agreements for inland transport, which include the United Nations conventions for enhancing road safety recommended by GA Resolution 74/299 and the Global Plan, *will via its respective Working Parties enhance its international regulatory support* by further developing existing conventions and/or new legal instruments, as appropriate.

- Activities by respective Working Parties will cover a **screening of existing** legal instruments, **identifying of loopholes or missing elements** and **establishing necessary amendments** or new legal instruments for a better support in achieving the introduction of national road safety system.

- **ITC Capacity Development Action Plan**, ECE road safety tools, existing and new **training materials**, **standards and competency criteria**, and **training courses** developed under the auspices of the respective Working Parties will provide the **basis for assisting countries** in the implementation of the ITC Recommendations.
Approach and Main Principles (cont.)

With the development of indicators for the different areas, ITC will provide a monitoring tool allowing countries to benchmark their progress in implementing the ITC Recommendations and the ITC Strategy until 2030 with its special priority for road safety as well as their impact on the national road safety situation. Conversely, this ECE Road Safety Action Plan 2023 – 2030 will provide an opportunity for ITC to build a missing link between the international and national levels, and help countries, in particular new contracting parties, to further implement the legal instruments.
Approach and Main Principles (cont.)

The five different areas of actions identified

(a) road safety management (or the bridging pillar),
(b) safe user,
(c) safe vehicle,
(d) safe roads and
effective post-crash response)

provide an input to the programme of work of the different working parties / groups of experts of ECE with the ultimate goal to achieve a comprehensive and efficient national road safety system building on the international regulatory framework, good practice and experience.

Sections provide for a structured approach; ITC Working Parties are encouraged to follow. They contain suggestions aiming to initiate substantive discussion at the different groups.
C. Safe Vehicles

Existing instruments:

(a) United Nations conventions/agreements
   - 1968 Convention on Road Traffic – provisions regarding vehicle admission to traffic via system of registration
   - 1988 Agreement concerning the Adoption of Harmonized Technical United Nations Regulations for Wheeled Vehicles, Equipment and Parts which can be fitted and/or be used on Wheeled Vehicles and the Conditions for Reciprocal Recognition of Approvals Granted on the Basis of these United Nations Regulations (Revision 3)
   - 1997 Agreement concerning the Adoption of Uniform Conditions for Periodical Technical Inspections of Wheeled Vehicles and the Reciprocal Recognition of such Inspections
   - 1998 Agreement concerning the Establishing of Global Technical Regulations for Wheeled Vehicles, Equipment and Parts which can be fitted and/or be used on Wheeled Vehicles
   - 1997 Agreement concerning the International Carriage of Dangerous Goods by Road

(b) Resolutions
   - R.E.1 Consolidated Resolution on the Construction of Vehicles
   - R.E.1 Consolidated Resolution on the Common Specification of Light Source Categories
   - R.E.6 Consolidated Resolution on Test-equipment, Skills and Training of Inspectors, Supervision and
   - R.E.1 Consolidated Resolution on Road Traffic

(c) Recommendations
   - Global New Car Assessment Programme

Screening result

Road Safety Action Plan 2023 – 2030

(c) Necessary amendments

Explanation by the secretariat:
Corresponding elements in Agreements, (Regulations), Conventions and Resolutions to be amended to provide consistency

Working parties provide input here:

New legal instruments

Explanation by the secretariat:
On minimum requirements for safe and clean used and new vehicles for low- and middle-income countries

Working parties provide input here:
Draft Economic Commission for Europe
Road Safety Action Plan 2023 – 2030

Capacity development

Working parties provide input here:

(a) Training materials
Working parties provide input here:

(b) Competency criteria
Working parties provide input here:

(c) Training courses
Suggestions by the secretariat:
e-course on 1958 Agreement
Working parties provide input here:

Monitoring

Working parties provide input here:

(a) Indicators:

Suggestions by the secretariat:

1997 Agreement on PTI
Number: percentage of vehicles inspected per category and year
Percentage of inspected vehicles with dangerous, major or minor defects at PTI
and at Road Side Inspections (RSI) per year

1998 and 1998 Agreements

1998 Agreement on PTI
Number of low/middle income countries applying transposing UN Regulation
No. 22 UN GTR No. xx.
Number of low/middle income countries applying transposing UN Regulation
No. 145 (ISOFIX anchorages)
Number of low/middle income countries applying transposing UN Regulation
No. 44 and 120 UN GTR No. xx.

Working parties provide input here:
Actions of the inland transport sector to join the global fight against climate change

Thank you!
