

Update on Implementation of the Work Plan for 2022-2023

Secretariat

Michal Drabik

Secretary

Group of Experts on CMM & JT

20 March 2023

Work Plan 2022-2023

ENERGY

In-person events (8)

Workshop titled *CMM - regulations, monitoring, capture and use*, within the framework of the School of Underground Mining

- 11 - 13 April 2022
- Cracow, Poland

Two panel discussions on Just Transition, within the framework of the Clean Energy, Climate and the Built Environment Workshop

- 21 September 2022
- Pittsburgh, PA United States of America

Panel discussion on *Repurposing coal infrastructure and diversifying local economies to enable a just transition in coal regions*, within the framework of the Global Clean Energy Action Forum

- 23 September 2022
- Pittsburgh, PA, United States of America and online

Workshop: *Best Practices in Policies for CMM Mitigation*, within the framework of the Global Methane, Climate and Clean Air Forum 2022

- 27 September 2022
- Washington, DC, United States of America

CMM session, within the framework of the Natural Mining Hazards 2022

- 08 - 10 November 2022
- Jaworze, Poland

Workshop on *Mine Closure in Albania and Serbia*

- 09 December 2022
- Tirana, Albania

Workshop on *Dynamics of coal demand in Tajikistan until 2050 and viability of replacing coal with alternative domestic energy sources*

- 15 December 2022
- Dushanbe, Tajikistan

Workshop on *Coal Mine Methane and expected impact of the proposed EU methane regulation on the Polish coal mining sector*, within the framework of the School of Underground Mining

- 28 February 2023
- Cracow, Poland

Work Plan 2022-2023

ENERGY

Online events (4)

- Fifth Methane Mondays meeting - ***The application of United Nations Framework Classification for Resources (UNFC) to Coal Bed Methane (CBM)***, 16 May 2022
- Sixth Methane Mondays Meeting - ***Mitigation of Methane Emissions from the Extractive Industries in Transition: Concrete Actions, Goals, and the Costs of the Process***, 22 September 2022
- Seventh Methane Mondays Meeting - ***Coal industry in transition: state of affairs of coal mine closure in the selected UNECE member States - challenges, lessons learned, ongoing projects, perspectives for the future***, 9 November 2022
- Eight Meeting - ***Addressing methane from coking coal***, 23 January 2023

Fact Finding missions (2)

In Albania and Serbia

- 5-9 December 2022

In Tajikistan

- 12-16 December 2022

Work Plan 2022-2023

ENERGY

Studies (4)

- Study of the local geological and mining conditions and development of technical, principle-based guidelines for designing and implementing a programme for efficient, safe and environmentally conscious mine closure in Albania and Serbia
- In-depth analysis of the dynamics of coal demand in the country until 2050.
- Assessment of the pre-war and current state of the Ukrainian energy sector, possible ways of its development in the future; Socio-economic consequences of the transition of the Ukrainian energy sector, possible strategies for achieving carbon neutrality
- The use of high-resolution satellite imagery to identify methane emissions from underground mines: A CMM case study of a mine within the Karaganda Coal Basin
