Standing on the shoulders...

FutuRaM builds on the knowledge and results of previous projects, initiatives and tools

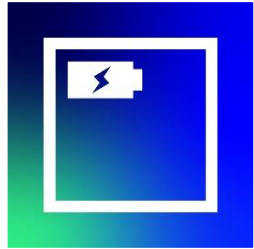

FutuRaM – Main Goals

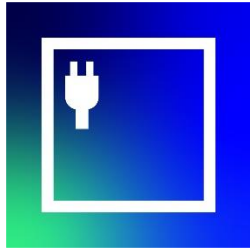

- Develop knowledge on the availability and recoverability of secondary raw materials within the EU, special focus on critical raw materials. From now to 2050.
- Enable fact-based decision making for their exploitation in the EU+4 and third countries through UNFC applied to SRM projects
- Disseminate this information via a systematic and transparent Secondary Raw Materials Knowledge Base

FutuRaM beyond status-quo procedure

Harmonization across six different sources & commodities

Recoverability of resources using UNFC

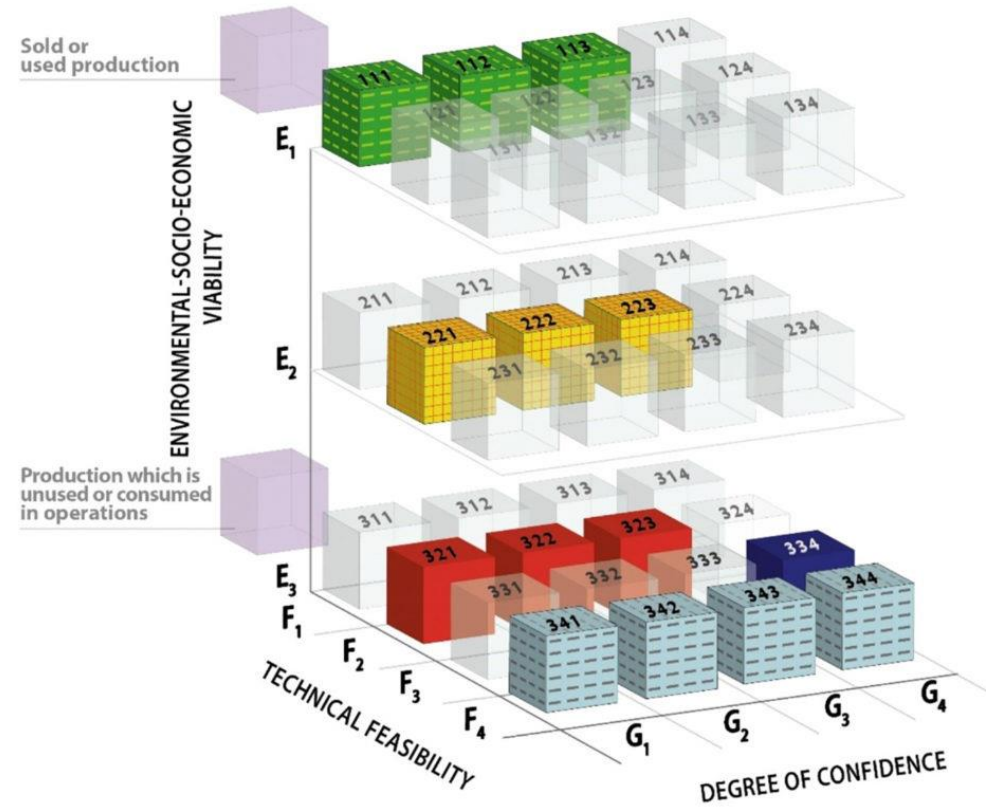

Economic viability

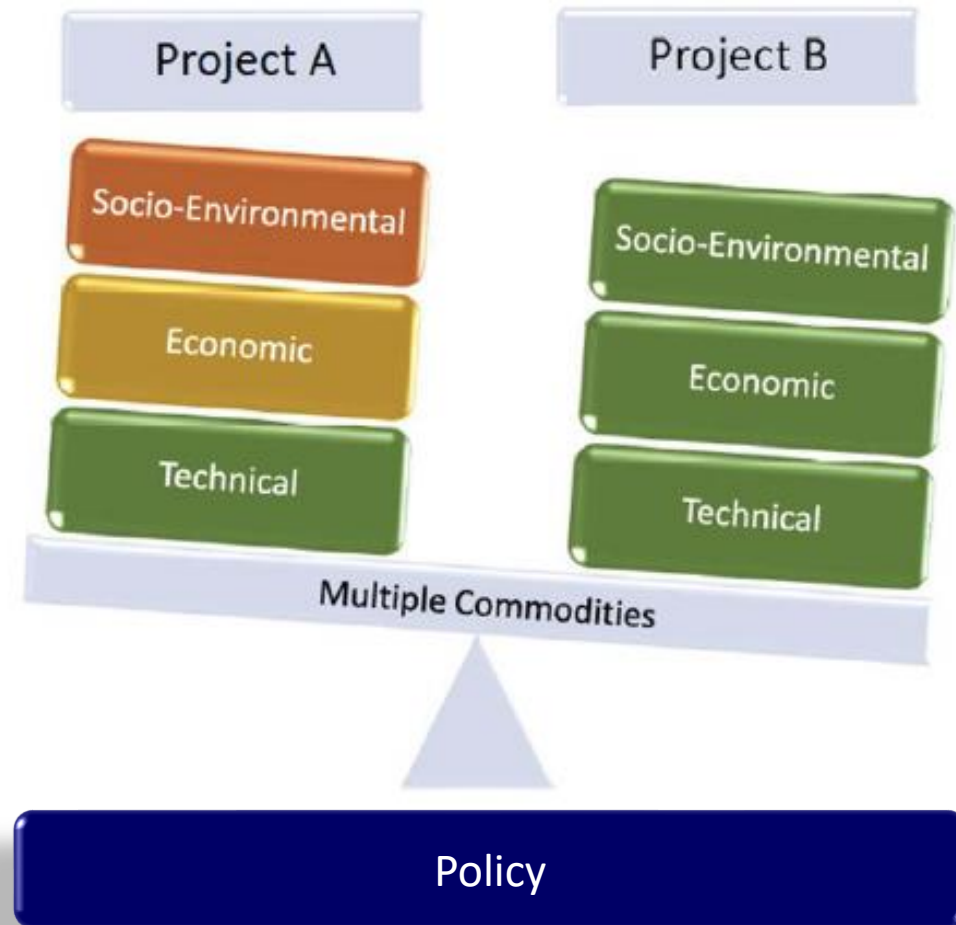

Environmental impact

Social impact

Legal aspects

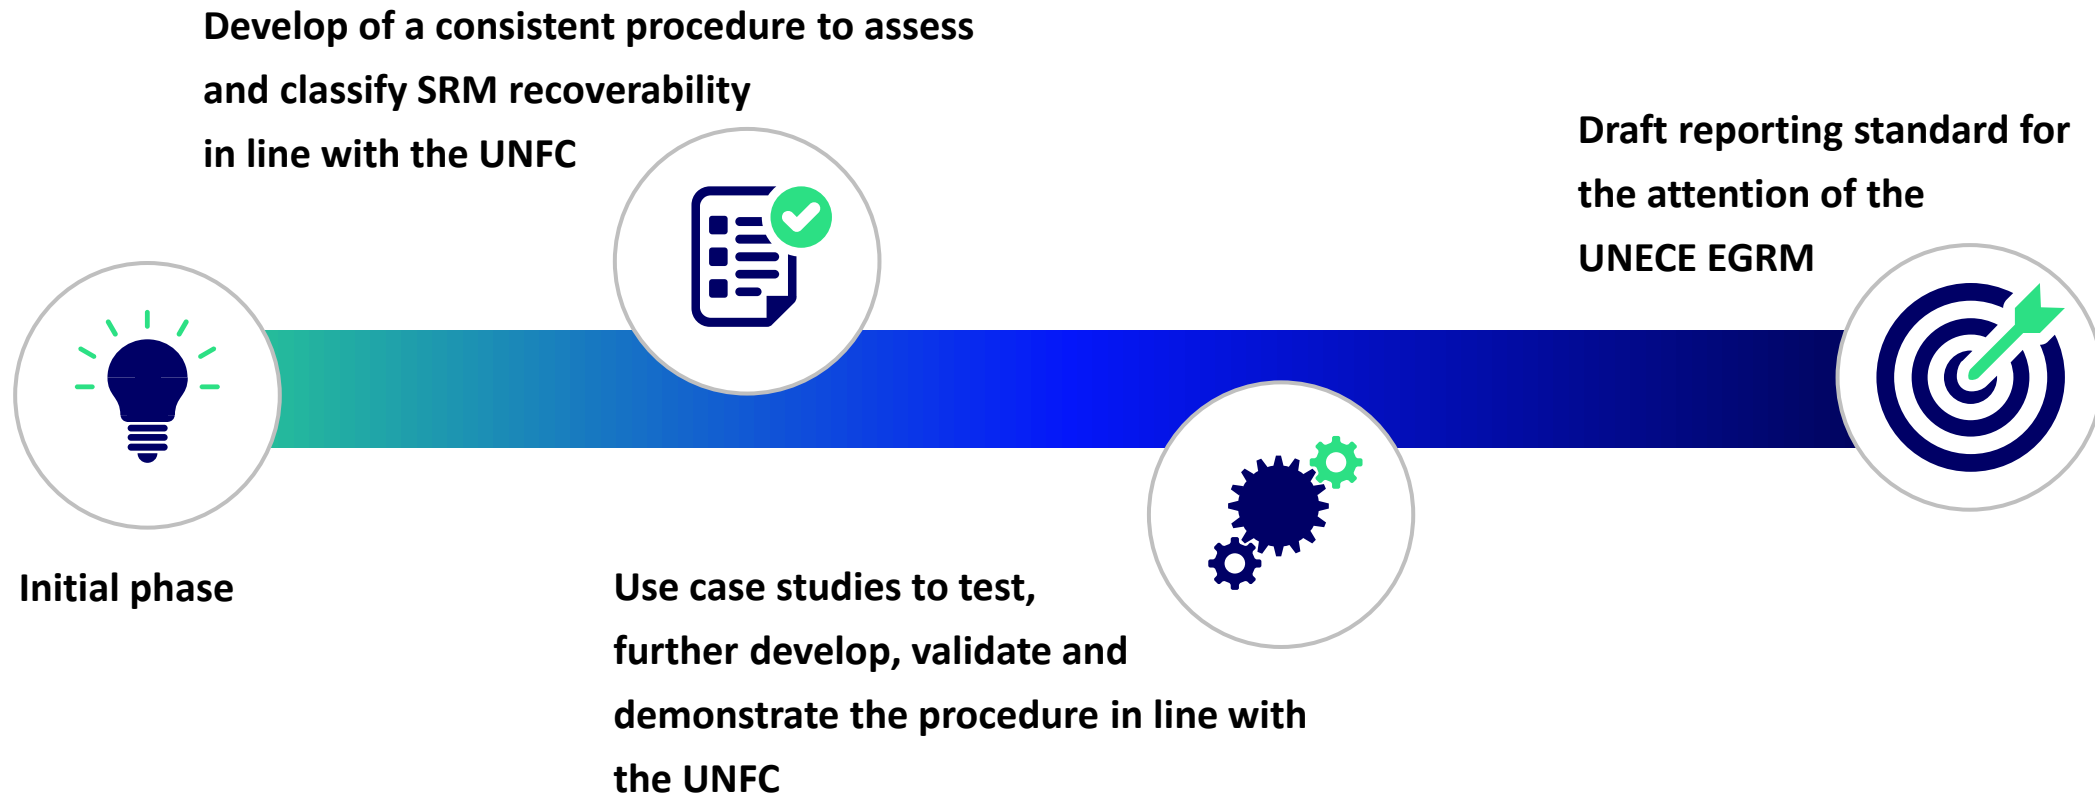

Recoverability of resources using UNFC

consistency
transparency
comparability

Roadmap for FutuRaM - UNFC

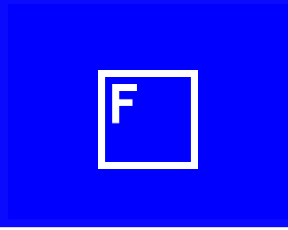

www.futuram.eu

FutuRaM & UNFC: Expected results

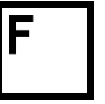

UNFC is a comprehensive tool to communicate the recoverability of raw materials from primary and secondary sources

- Communication basis for the different stakeholders
- Knowledge base for fact-based decision-making

- 19 new UNFC applications
- Guidance document for project evaluation
- Draft reporting template
- Recommendations for UNECE EGRM and EC
