

New momentum to make safe water and sanitation a reality for all: How to scale up globally practical tools and know-how gained under the Protocol on Water and Health?

 **WEDNESDAY, 22 MARCH**

 **14.00-15.15**

 **ROOM 9, UN HEADQUARTERS**

The event will showcase the practical tools developed under the Protocol on Water and Health that are available to governments, local authorities and communities to make progress towards reaching SDG6 and ensure that safe, climate-resilient and equitable water, sanitation and hygiene (WASH) services become a reality for all.

The event will specifically focus on:

-  Implementing water safety plans as an effective tool for risk-based management of water supplies
-  Applying a self-assessment methodology for equitable access to water and sanitation
-  Advancing WASH in health-care facilities
-  Setting cross-sectoral national targets on water, sanitation and hygiene in line with the 2030 Agenda
