

A European Union  
Programme

# DEVELOPING GLOBAL SYSTEMS FOR TRACKING, TRACEABILITY & PRODUCT DATA IN TEXTILE VALUE CHAINS

A European Union  
Programme

# Context: New regulation drives need for traceability & transparency

## European Commission Strategy

**Sustainable and Circular Textiles by 2030**  
(EU Green Deal, Circular Economy Action Plan)

eco-design requirements, Digital Product Passport, tackle greenwashing, microplastics release, Extended Producer Responsibility, Incentivisation of circular business models

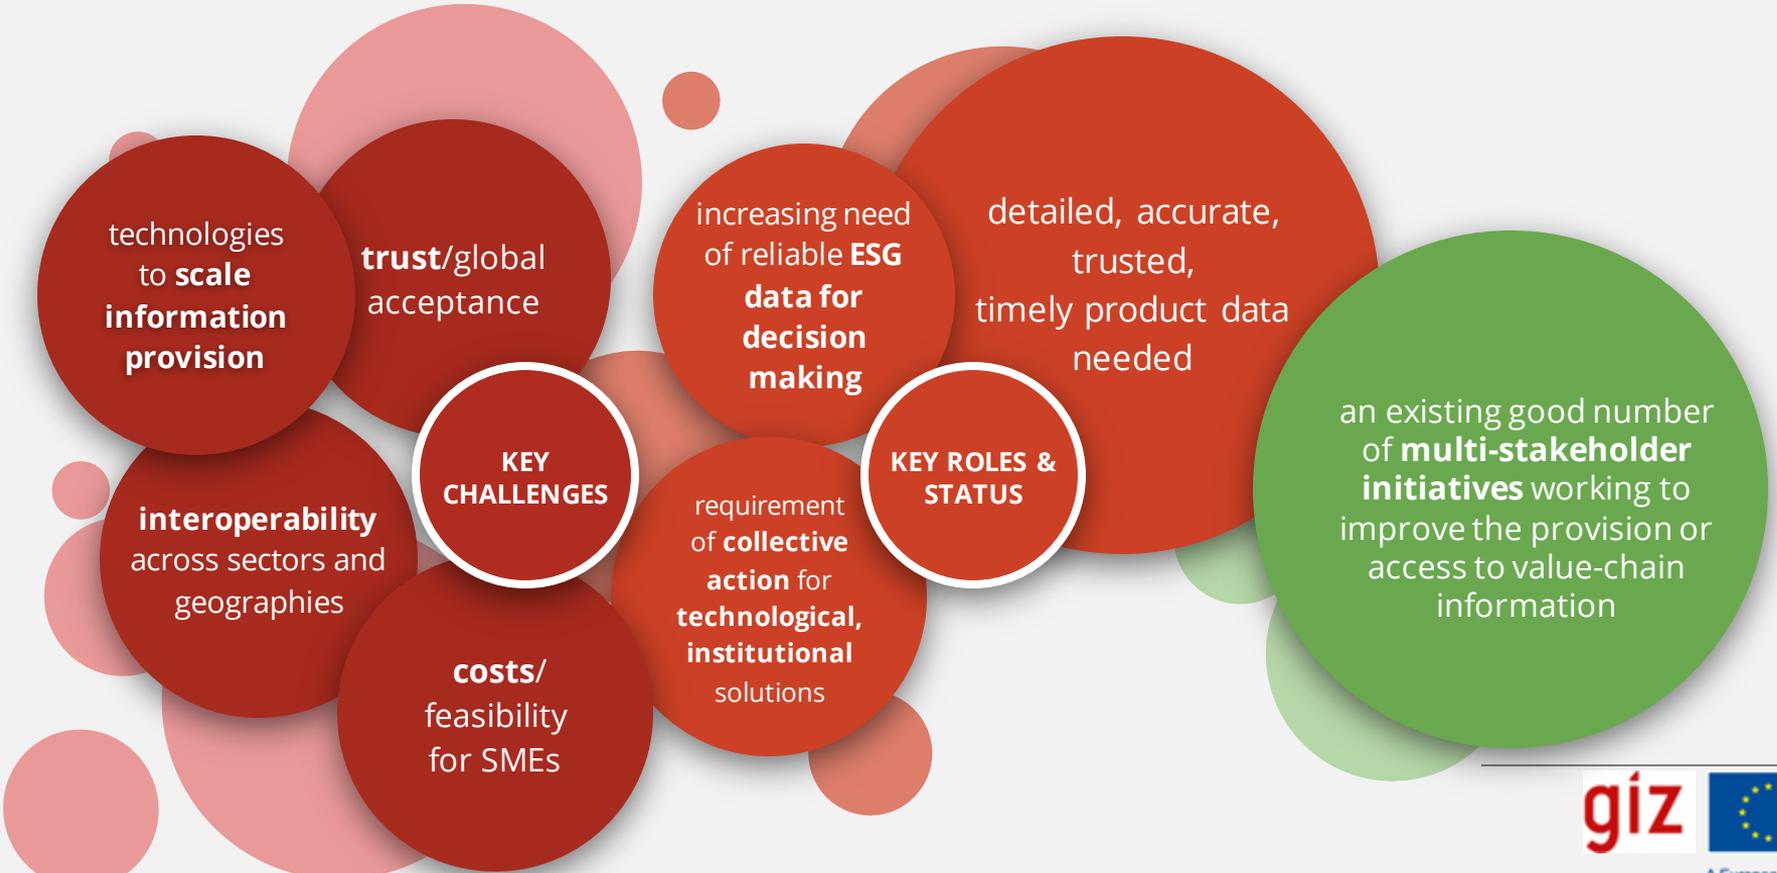

## EU regulatory solutions and initiatives

- 1) regulatory approaches to **demand information**  
CSRD, CSDD, Sustainable Products Initiative, EU Waste Framework directive, substantiating green claims, PEF, Empowering consumers for the green transition directive, Textiles Ecosystem Transition Pathway,...
- 2) initiatives to support the **development of solutions for access to information**  
EU Digital Product Passport; UNECE Sustainability Pledge project, UNEP InTex project

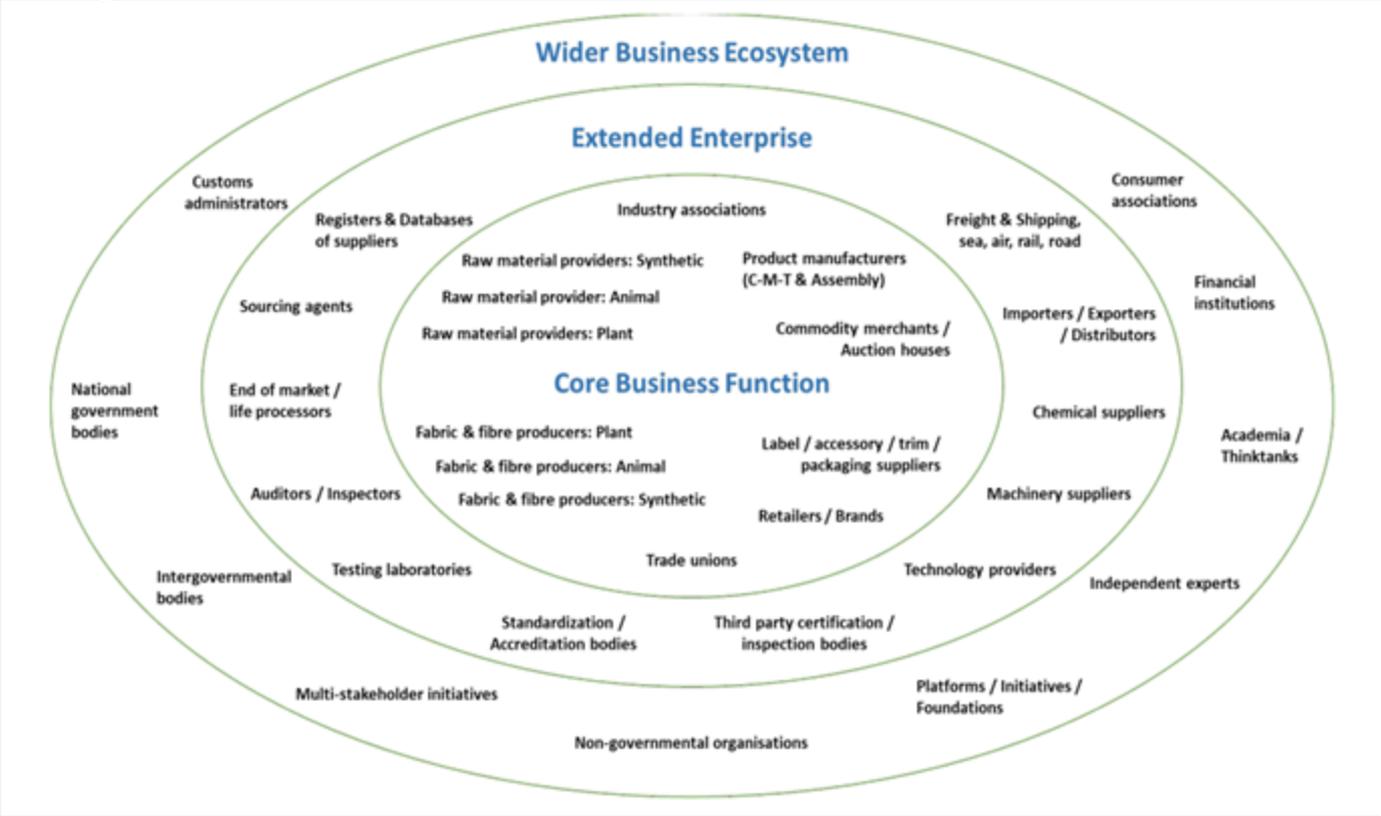

**Increasing** due diligence/ reporting/ etc. **requirements** along the whole business value chain & **increasing demand** to gain access to and **provide** this information

# Context: Understanding stakeholder needs

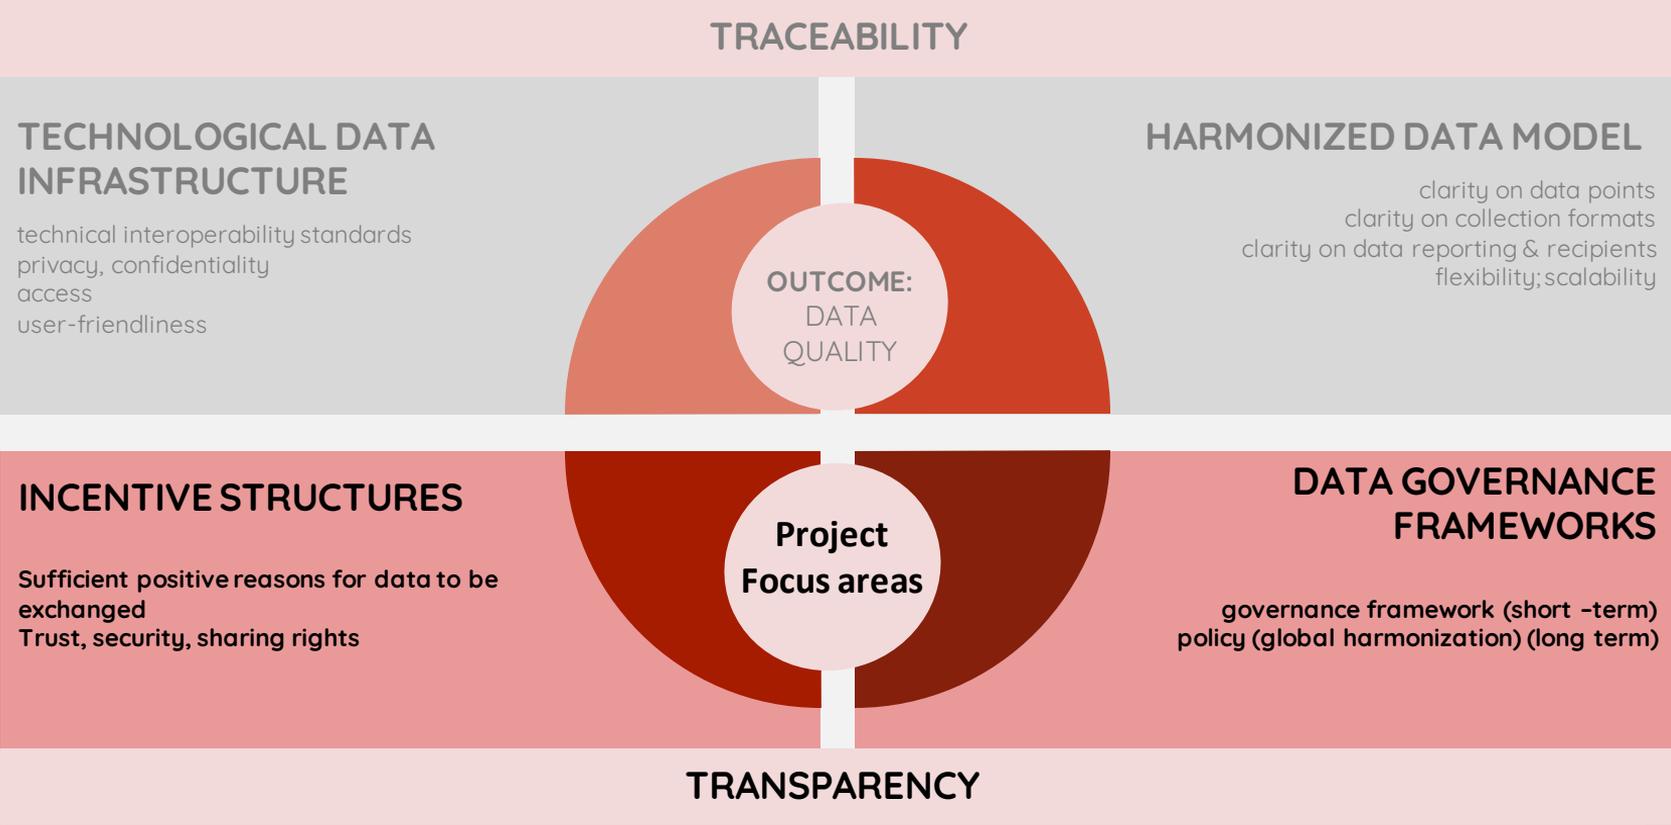

# Wide range of stakeholders

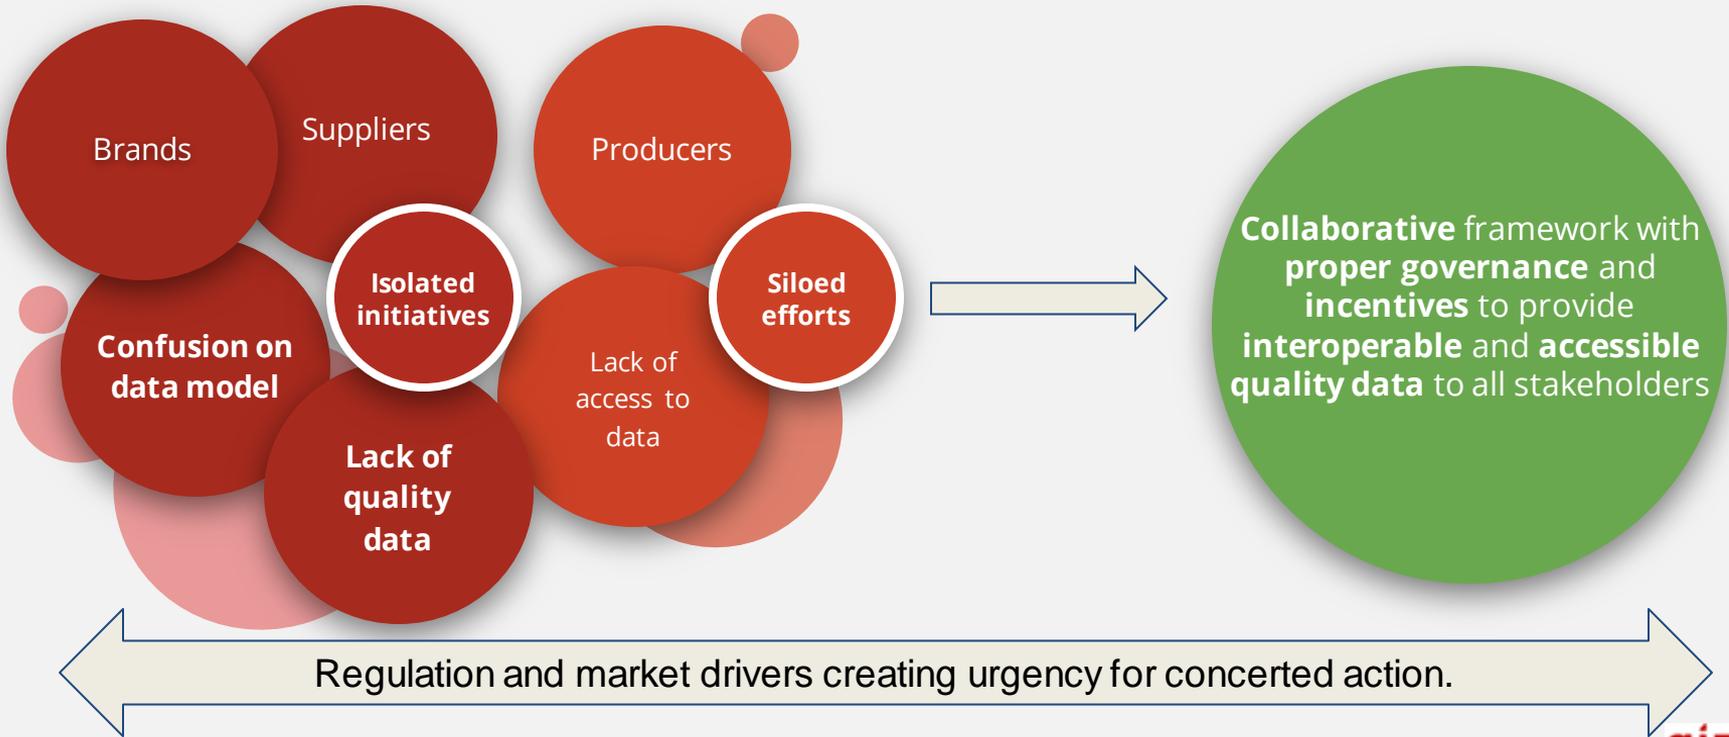

Reference: [UNECE, 2021: Enhancing the Transparency and Traceability of Sustainable Value Chains in the Garment and Footwear Sector, p.3](#)

# Five Areas of Action needed

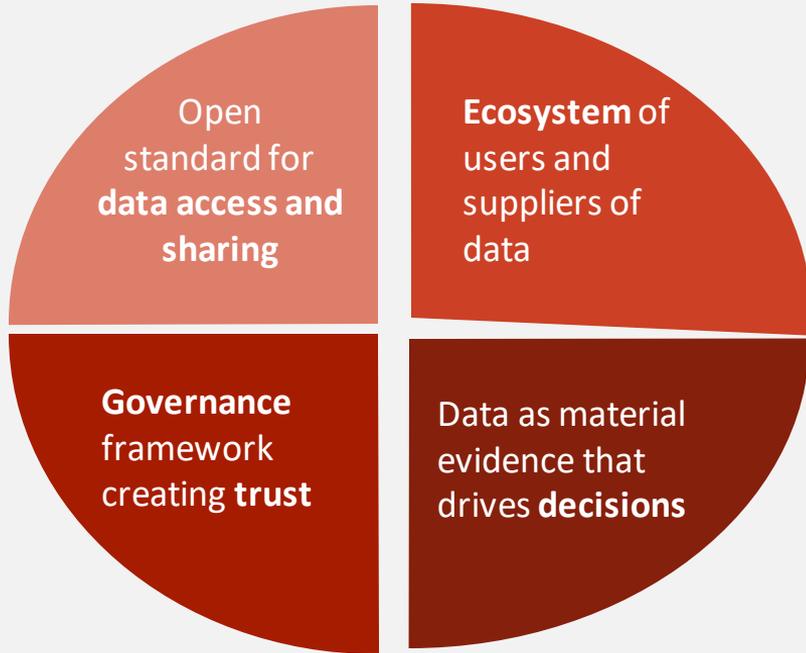

## Largest gaps in governance and incentives.

# Institutions for governance and incentive structures require collaboration.

# Example 'institution': Open Banking

Open Banking UK: <https://dgen.net/0/>

PoC reported by IceBreaker One: <https://icebreakerone.org/report-nfdf/>

## IN FIGURES:

Mandated by UK regulator, Competition Markets authority (**CMA**)

Designed launched in UK in **2016**

**Regulated** and **implemented** across the whole of the UK market by 2019 (in under 5 years)

**2M** consumers in UK

Open Banking practices are now in development across over **+20 countries**

Open Banking market is projected to grow to over **\$40B** by **2026**.

Other sector: **Open Energy** (under dev.)
