RESOURCE MANAGEMENT WEEK 2023

ASSURING SUSTAINABILITY IN RESOURCE MANAGEMENT

ICE-SRM Latin America

UNECE ICE-SRM

ICE-SRM

International Centres of Excellence on Sustainable Resource Management (ICE-SRM) are a collaborative network of organisations focused on supporting sustainable management of the resources needed for development in line with the 2030 Agenda for Sustainable Development and the Paris Climate Agreement. The Centres are conceived to provide – in full compliance with the adopted UNECE standards and guidelines – policy support, technical advice and consultation, education, training, dissemination, and other critical activities for stakeholders involved in sustainable development of national resource endowments.

Mission

Each Centre will promote within its activity footprint the global deployment of the United Nations Framework Classification for Resources (UNFC) and the United Nations Resource Management System (UNRMS) to describe the resources needed for attainment of the 2030 Agenda for Sustainable Development and support their management.

Criteria for ICE-SRM Designation

International Centres of Excellence on Sustainable Resource Management (ICE-SRM) are a collaborative network of organisations focused on supporting sustainable management of the resources needed for development in line with the 2030 Agenda for Sustainable Development and the Paris Climate Agreement. The Centres are conceived to provide – in full compilance with the adopted UNECE standards and guidelines – policy support, technical advice and consultation, education, training, dissemination, and other critical activities for stakeholders involved in sustainable development of national resource endowments.

Mission

Each Centre will promote within its activity footprint the global deployment of the United Nations Framework Classification for Resources (UNFC) and the United Nations Resource Management System (UNRMS) to describe the resources needed for attainment of the 2030 Agenda for Sustainable Development and support their management.

Criteria for ICE-SRM Designation

- Committed to attaining the objectives of the UN to deploy UNFC and UNRMS, including research, technical advice, consultation and training thereon, education, advocacy, testing, dissemination, and definition of competence and certification.
- Committed to active engagement across the network of International Centres of Excellence, ensuring consistency in application, by sharing of experience, and reporting on progress
- Established as a going concern and a legal entity with strong relationships in the regional, national and local resource development community.
- 4. Must have regional, national and local political support and visibility.
- Committed to the objectives of UNFC and UNRMS, as well as to the overall objectives of the implementation of the 2030 Agenda and the Paris Agreement. In this respect, committed to an agenda relevant to regional, national and local needs based on an agreed menu of activities and projects.

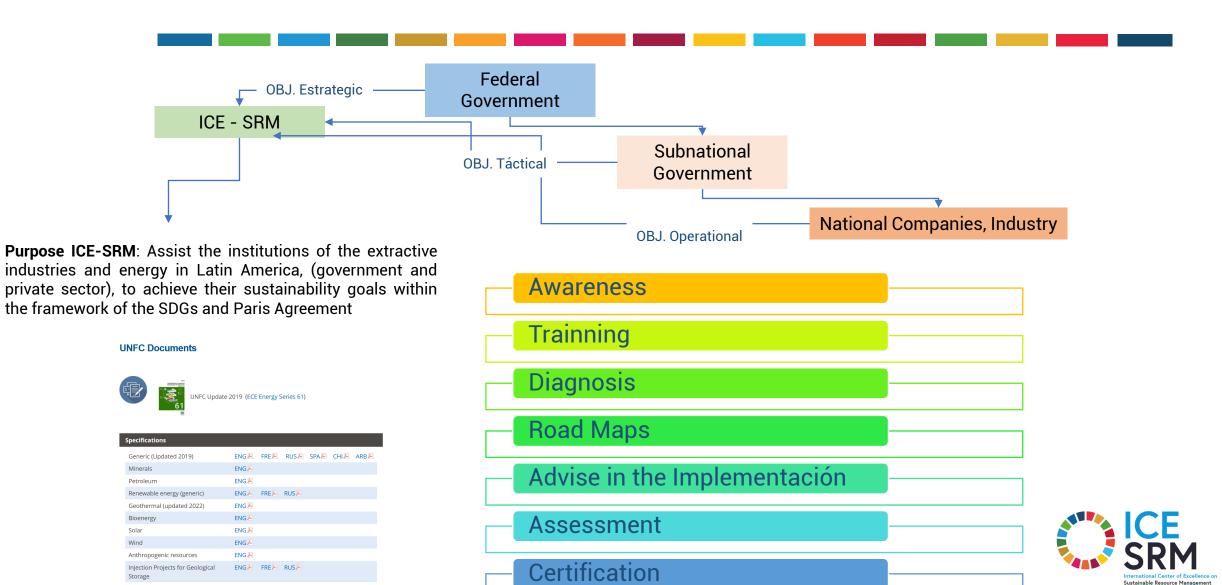

The Centres are conceived to provide — in full compliance with the adopted UNECE standards and guidelines — policy support, technical advice and consultation, education, training, dissemination, and other critical activities for stakeholders involved in sustainable development of the natural resources and energy

Tenth session

Geneva, 29 April-3 May 2019 Item 9 (d) of the provisional agenda

Development, maintenance and implementation of the United Nations

Framework Classification for Resources and the United Nations Resource Management System: Petroleum

Pilot project for the classification of Mexico's petroleum resources and reserves based on the United Nations Framework Classification for Resources (UNFC)

Prepared by the Petroleum Working Group of the Expert Group on Resource Management

Summary

This document outlines the implementation of the pilot project for the classification of petroleum resources and reserves of Mexico according to the United Nations Framework Classification for Resources (UNFC).

The overall intent of this paper is to show the planning and execution of the pilot project, the results, and conclusions obtained from it, as well as the evaluation of UNFC as an adding value tool to the classification and management of oil and gas resources in Mexico. The methodology outlined in this document may be used in other countries, adapted and adopted as necessary to the local conditions, for relatively quick classification according to UNFC.

PROPOSICIÓN CON PUNTO DE ACUERDO, PARA EXHORTAR A LA CNII A ADECUAR SUS LINEAMIENTOS Y DISPOSICIONES GENERALES A FIN DE ATENDER LA AGENDA 2030 PARA EL DESARROLLO SOSTENIBLE, SUSCRITA POR LAS DIPUTADAS RAQUEL BONLLA HERRERA Y JUDITH CELINA TANORI CÓRDOVA, DEL GRUPO PARLAMENTARIO DE MORENA

Las suscritas, diputadas federales Raquel Bonilla Herrera y Judith Celina Tanori Córdova, integrantes del Grupo Parlamentario de Morena de la LXV Legislatura, con fundamento en el artículo 6, numeral 1, fracción I, de nel artículo 79, numeral 2, fracción II, de Reglamento de la Cámara de Diputados, someten a consideración de esta asamblea la presente proposición con punto de acuerdo por el que se exhorta a la Comisión Nacional de Hidrocarburos a adecuar sus lineamientos y disposiciones generales a fin de atender la Agenda 2030 para el Desarrollo Sostenible, al tendro de la siguiente

Exposición de Motivos

¿Qué es la Agenda 2030 para el Desarrollo Sostenible?

La página electrónica de la Comisión Económica para América Latina y el Caribe (Cepal), ¹ al respecto señala lo siguiente: La Asamblea General de la Organización de la Naciones Unidas adopta en septiembre de 2015 la Agenda 2030 para el

La Comisión Nacional de Hidrocarburos y la Agenda 2030 en materia de Desarrollo Sostenible.

Al respecto, la Comisión Nacional de Hidrocarburos en su portal³ indica que: "La Comisión Nacional de Hidrocarburos ha iniciado un proyecto piloto para aplicar la Clasificación Marco de las Naciones Unidas para los Recursos (UNFC)".

Asimismo dicha publicación de fecha 18 de julio de 2018, destaca lo siguiente:

Con el objetivo de evaluar y gestionar de una manera integral los aspectos sociales y ambientales relacionados con los proyectos de exploración y producción asociados los recursos y reservas de los recursos convencionales y no convencionales, México por medio de la Comisión Nacional de Hidrocarburos ha iniciado un proyecto piloto para aplicar la Clasificación Marco de las Naciones Unidas para los Recursos (UNFC) a un grupo de áreas seleccionadas como un preámbulo de una adopción más amplia a nivel nacional.

El foro y taller de lanzamiento de este proyecto se llevó a cabo del 18 al 21 de junio en la Ciudad de México con la participación de más de 120 expertos nacionales e internacionales que representan a diversas instituciones gubernamentales, de la sociedad civil y de compañías operadoras nacionales e internacionales.

México aspira a desarrollar sus recursos petroleros de manera más sostenible buscando ser un modelo a seguir en la aplicación de normas y estándares internacionales en el sector petrolero lo cual contribuye a los objetivos de desarrollo sostenible de Naciones Unidas en su agenda para el 2030.
