

MATRIX ON CAPACITY DEVELOPMENT

MATRIX ON CAPACITY DEVELOPMENT

Creation

The Task Team on Statistical Capacity Development for SDGs (TTCAP) was created in June 2018, with the main scope to:

- prepare initial guidance for national statistical capacity development plans for the SDGs and beyond
- summarize national priority areas for statistical capacity building for the SDGs and beyond within the UNECE CES region
- identify extant resources, tools, and guidance to enable NSOs to address their statistical capacity building needs

The main result of the work of the Task Team is the Capacity Development Matrix (CD Matrix).

MATRIX ON CAPACITY DEVELOPMENT

Structure

The Matrix consists of a horizontal and a vertical division.

The horizontal division consists of the main pillars:

- Strategic
- Organizational
- IT tools

Piloting the Matrix

- Countries that have done the pilot of the existing version of the Matrix: **Armenia, Poland and Albania**
 - ✓ examine the structure
 - ✓ check the statistical areas
 - ✓ exploring the extension also to the NSS and
 - ✓ Coordination of the fulfillment process of the Matrix – top down or down top approach

Finalization of the Matrix

- Make the final version of the Matrix:
 - ✓ Incorporate all comments from the pilots
 - ✓ Identify possible additional details and incorporate them within the Matrix
 - ✓ Update the CD Matrix
 - ✓ Update the Guidelines and other documents
