Legislative issues in the statistical system of Latvia

Ieva Začeste, the Central Statistical Bureau of Latvia (the CSB)
18/11/2022

Central Statistical
Bureau of Latvia

1.topic

Amendments to Statistics Law

2. topic

Other legislative initiatives by the CSB of
Latvia

Central Statistical
Bureau of Latvia

Why and how we initiated amendments to the Law?

Monitoring the application of the law

Evaluating and ranking the amendments

Settling on the most urgent and with a more significant impact on our future activities

Central Statistical
Bureau of Latvia

Results of the sifting process

- Pre-access to privately owned data
- Data processing for different side projects – confidentiality issue
- Access to respondents' contact information
- Supplement data dissemination exceptions – georeferencing statistical data
- Experimental statistics
- Remuneration of our respondents
- Fine tuning of the principle of professional independence
- Deletion of census provisions

Central Statistical
Bureau of Latvia

Other initiatives of the CSB

Data governance ecosystem

high maturity at the level of legal regulations regarding technological issues, less clarity about the vision of data governance and actors

Mobile phone location data

access to pseudonymized data and aggregated data laid down in law

The Ministry of Defence
