

## **Proposal for the 04 Series of Amendments to Regulation No. 100 (Electric power trained vehicles)**

The text reproduced below was prepared by the expert from the Japan, to modified the document ECE/TRANS/WP.29/GRSP/2023/10 and GRSP73-17.

*Insert a new paragraph 5.5.1.1., to read:*

**"5.5.1.1 The requirement of paragraph 5.5.1. shall be considered to be satisfied in the case that the requirement of the paragraph 7.1.7. of UN Regulation 134 is satisfied."**

## **II. Justification**

The label required in paragraph 7.1.7. of UN Regulation 134 includes information about electric safety, so vehicles satisfied above requirement do not need the label required by ECE/TRANS/WP.29/GRSP/2023/10 and GRSP73-17.
