# CLEPA/OICA position on the introduction of Virtual Testing in UN R152

Refers to document GRVA-15-16 (France)

# General Industry Position

- Support in principle to introduce the opportunity to use simulation as a replacement of physical testing for homologation in UN R152.
- Keen to harmonizing the process of validation of simulation; possibly based on VMAD outcomes (i.e. without specifying number of repetitions ...) adapted to AEBS.
- New proposal should be developed (preferably jointly) based on VMAD results (cfr. document GRVA-14-16).
