THE PEP WORKSHOP ON Safe and Healthy Walking and Cycling in Urban Areas

24-25 September 2009, Pruhonice-Prague, Czech Republic

The Workshop is organized in the framework of the
Transport, Health and Environment Pan-European Programme (THE PEP)

in cooperation with the Czech Republic
**Ministry of the Environment, Ministry of Transport,
Ministry of Regional Development, Ministry of Health,
City of Prague
and Non-Governmental Organizations**

The Workshop aims to encourage transport, health and environment policymakers to develop strategies and measures to support pedestrian and cycle-friendly cities. Participants will work together to identify challenges and needs to promote innovative policies to support walking and cycling as viable and attractive modes of urban mobility. The focus of the Workshop will be on cooperation between national and local authorities, industry and civil society in planning, building infrastructure and financing safe and healthy walking and cycling. It will offer an opportunity for exchange of good practices and to build capacity for sustainable urban transport in the countries of Eastern Europe, Caucasus, Central Asia (EECCA) and South East Europe (SEE).

The Workshop will kick-off THE PEP staffete (relay race), one of the mechanisms adopted by the Third High-level Meeting on Transport, Health and Environment to implement the goals of the Amsterdam Declaration and to share good experience from the Netherlands and other successful countries in non-motorized transport.
