

HIGH-LEVEL POLITICAL FORUM ON SUSTAINABLE DEVELOPMENT

Side Event

The Water-Food-Energy-Ecosystems Nexus amid Climate Change in the UNECE Region – Regional Strategies for a Sustainable Future

13 July 2023, 13:15-14:30 (EDT), Venue: Conference Room 3, UN Headquarters, New York

Organizer: United Nations Economic Commission for Europe

The region faces intensifying climate change impacts, necessitating strategic foresight and resilient policymaking. In alignment with the Paris Agreement and the 2050 net-zero horizon, it is crucial to anticipate future climate conditions, enhance resource management, and foster technological solutions. An integrated and holistic action is needed by all actors through the Water-Food-Energy-Ecosystems (WFEE) nexus approach, limiting trade-offs, and supporting governments in transforming the effects of climate change in opportunities for sustainable development.

The side event underscores efforts in the UNECE region to localize SDGs, accelerate COVID-19 recovery, and devise cohesive policies across the Water-Food-Energy-Ecosystems (WFEE) nexus.
