# EU Just Transition Fund

## About the Fund [\(hyperlink\)](#)

The fund is 1 pillar of the Just Transition Mechanism.

The Commission provides support to Member States having identified the territories expected to be the most negatively impacted by the transition towards climate-neutrality.

The Just Transition Fund supports the economic diversification and reconversion of the territories concerned. This means

- up- and reskilling of workers
- investments in Small and Medium-sized Enterprises
- creation of new firms
- research and innovation
- environmental rehabilitation
- clean energy
- job-search assistance
- transformation of existing carbon-intensive installations

The Fund is governed by the [Just Transition Fund regulation](#) and [Common Provisions Regulation](#).
