

CREATION OF A COORDINATION MECHANISM FOR ITC MANAGEMENT

Anton Kozlov,

Head of Foreign Projects and International Cooperation Department
of JSC "Russian Railways"

HISTORY OF ITC DEVELOPMENT

INTERNATIONAL EXPERIENCE :

EXISTING COORDINATION MECHANISMS

European Commission (EC),
11 freight corridors TEN-T

EXECUTIVE BOARD

representatives of state bodies of EU
member states

GOVERNING BOARD

representatives of infrastructure managers

ADVISORY BODIES

representatives of infrastructure managers

BUREAUS ALONG EACH CORRIDOR
2-5 employees

UNECE
within the WP.5 Group

BEING WORKED OUT:

CORRIDOR COORDINATION MANAGEMENT MECHANISM

annually elected Corridor Coordinator +
top-level government representatives

MECHANISM FOR EVALUATING THE PERFORMANCE OF CORRIDORS

based on the monitoring methods and
tools agreed by WP.5

STATUS

intergovernmental international
organization

Permanent Secretariat,
Baku, Azerbaijan

HEADS

General
secretary

Permanent Representatives
in the member countries of the
IGC TRACECA

INTERNATIONAL ASSOCIATION "TITR"

CONSORTIUM OF TRANSPORT AND LOGISTICS COMPANIES

created by railway, freight
forwarding and marine
companies

Permanent Secretariat
located in Astana,
Kazakhstan

FACTORS FOR CREATION OF COORDINATION MECHANISM

For management of ITC within OSJD

Growing volumes of transcontinental traffic

Switching of cargo flows from west to east

Redistribution of cargo flows taking into account the “green” agenda

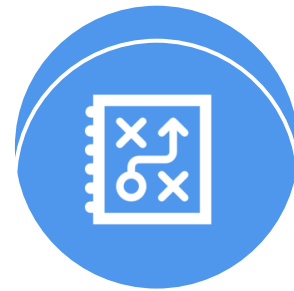

Competencies of OSJD on all aspects of organization of transportation

OSJD – international organization for the Development of Rail Transport in the Eurasian area

COMPETENCIES

ITC Development, facilitation
of border crossing procedures

Transport law, maintaining
SMGS, SMPS, CIM/SMGS

Organization of cargo
transportation,
management of PGW,
ETT, MTT, CT Agreement

Organization of passenger
transportation,
management of PPW, MPT

Infrastructure and
rolling stock
requirements

Digitalization of
transportation, electronic
document flow

Organization of mutual
settlements, settlement
of debts

The OSJD platform
has all
the possibilities
for creating
a coordination
mechanism
for ITC
management

PROPOSAL OF THE RUSSIAN FEDERATION

Creation of a coordination mechanism for the management of the OSJD Railway transport corridor No. 1

WORKING GROUP

coordination mechanism
for the management
of the OSJD Railway
transport corridor No. 1

Document: on the goals and objectives of the meetings of the coordinating body for the management of the OSJD Railway transport corridor No. 1

Unified form of providing materials on bottlenecks by the participants of the OSJD Railway transport corridor No. 1

Exchange of experience and best practices in all aspects of the functioning of the ITC

FUNCTIONS

OF COORDINATING BODY FOR THE MANAGEMENT OF THE TRANSPORT CORRIDOR

MARKETING
aimed at attracting
additional volumes
of traffic

MONITORING
of international
transport corridor
performance

SUBMISSION
of proposals for the development
of the corridor and improvement
of its functioning

IDENTIFICATION
of potential bottlenecks
of the transport
corridor

ASSESSMENT
of environmental
impacts of corridor
development

JUSTIFICATION
of the efficiency
of corridor infrastructure
development projects

ASSISTANCE
in the development
of an effective timetable
for international trains
within the corridors

PROMOTION
of unification of transport
documents, tariff decisions,
control procedures, EDI

ANALISYS
of tariff and price conditions
of transportation along
the corridor

COOPERATION IN THE DEVELOPMENT OF ITC

Memorandums
of understanding

Comprehensive corridor
development plans

Technical and operational
passports of corridors

Corridor coordination
management mechanism

Mechanism for evaluating
the results of the corridor

Platform for indicators
of sustainable connectivity
of inland transport infrastructure

Memorandum of Cooperation between OSJD and the UNECE ITC
on the development of the International Transport Corridors
