Vice-President of the Statistical Committee

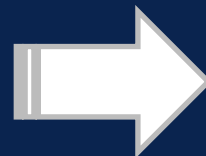

ggevorgyan@hotmail.com

CONTENTS

- 01** General policy and practice of dissemination and communication of statistical data: overview
- 02** Key means of disseminating statistical information
- 03** The 2020 population census round in the Republic of Armenia
- 04** 2022 population census method in Armenia
- 05** Communication and dissemination of the 2022 population census data in Armenia

GENERAL POLICY

DISSEMINATION AND COMMUNICATION OF STATISTICAL DATA

1

POLICY OF DISSEMINATION AND COMMUNICATION OF *statistical data*

In order to continuously improve the dissemination of statistical information, as well as to improve its quality and ease of use, it is necessary to have a clear dissemination and communication policy, a strategy for further development.

Statistical information dissemination and communication are regulated by:

The Law of the Republic of Armenia * "On official statistics" and other regulatory documents.

* RA = Republic of Armenia

2

POLICY OF DISSEMINATION AND COMMUNICATION of *statistical data*

For ARMSTAT and other providers of official statistics, the State Council on Statistics establishes a uniform policy for disseminating official statistics through transparent procedures and for using a common terminology.

ARMSTAT and other official statistics providers compile and publish preliminary Data Dissemination Calendars, which indicate the dates (yy/mm/dd) of releasing statistical indicators.

➤ The public is notified about any deviation from the original data dissemination schedule.

3

POLICY OF DISSEMINATION AND COMMUNICATION of *statistical data*

➤ Communication **STRATEGY** of the Statistical Committee of the Republic of Armenia (Armstat).

➤ **The POLICY** of disseminating and communicating statistical information of the Statistical Committee of the Republic of Armenia (Armenian, English).

➤ **The STRATEGY** of disseminating and communicating statistical information of the Statistical Committee of the Republic of Armenia (Armenian, English).

➤ How to draft a press release (Armenian, English).

➤ How to organize a press conference (Armenian, English).

WAYS TO DISSEMINATE STATISTICAL INFORMATION

Other web pages of ARMSTAT:

The screenshot displays the website of the Statistical Committee of the Republic of Armenia. The header includes the national coat of arms, the title "Статистический комитет Республики Армения", and a search bar. A navigation menu contains links for "Главная", "Статистика", "Публикации", "Для респондента", and "О нас". A sidebar on the left lists categories such as "Новости", "Пресс-релиз", "Инфографика", "Проект", "События", and "Видеогалерея". The main content area is titled "Новости" and features four large icons with labels: "Пресс-релизы" (with a person holding a document), "События" (with a calendar), "Инфографика" (with a bar chart and red arrow), and "Проект" (with a document and pencil). A "Видеогалерея" icon (clapperboard) is also visible at the bottom right.

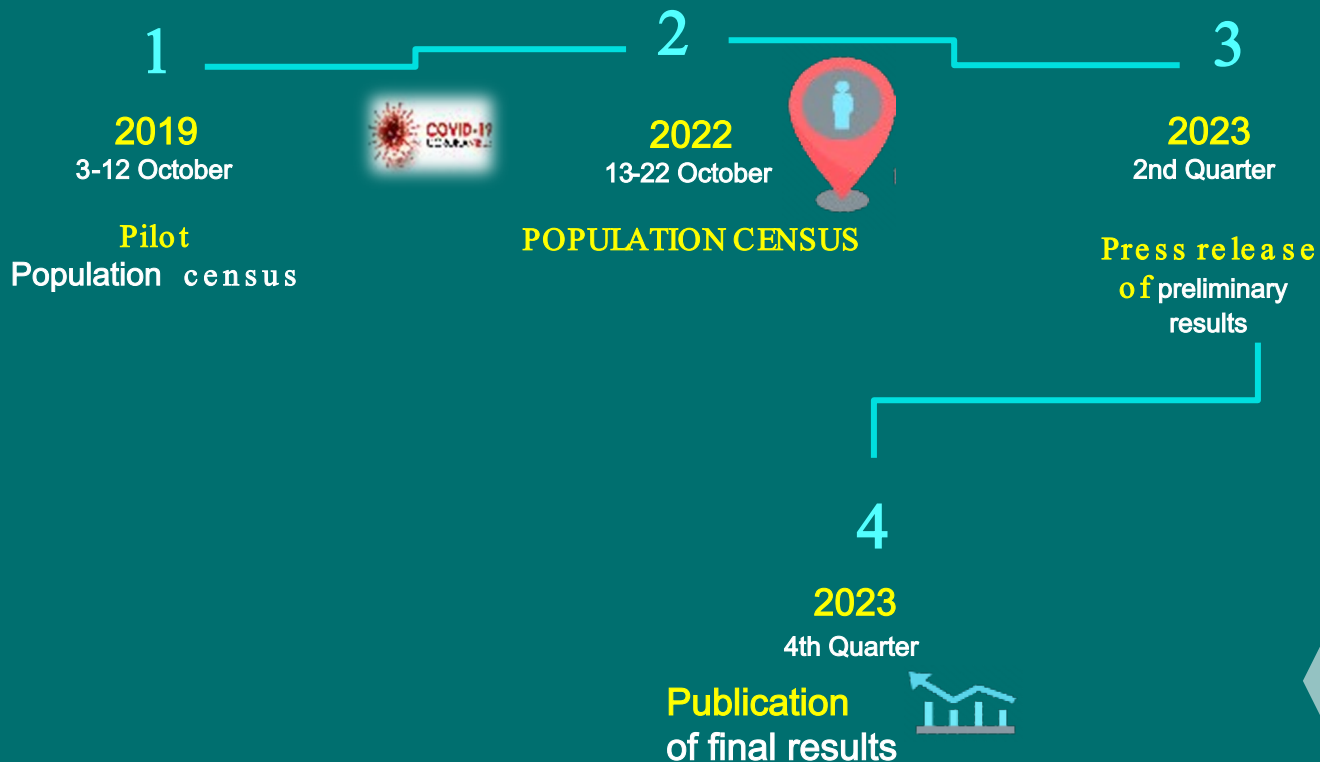

THE 2020 ROUND OF POPULATION CENSUS IN THE REPUBLIC OF ARMENIA

POPULATION CENSUS — ARMENIA, 2019-2023

Main stages of preparation, census implementation and data dissemination

POPULATION CENSUS — ARMENIA, 2022

➤ For the first time, the Population Census of Armenia was **conducted by a combined method**, based on:

- State Population Register of the Republic of Armenia **Demographic data**
- Information System of Electronic Border Administration of the Republic of Armenia.

+

➤ Other data established by the Census program are obtained from the results of the sample survey collected from private households.

SAMPLING METHOD AND DATA COLLECTION

POPULATION CENSUS — ARMENIA, 2022

- As a sample of private households, lists of addresses made of the database of the **State Population Register of the Republic of Armenia** were used.
- The sample covered 25% of all settlements in the country.
 - Field work was based on tablet PCs.

CSPro

COMMUNICATION **in preparation** for the population census

- Awareness raising activities and campaigns were implemented to raise public awareness of the goals and objectives of the census, the procedure and timing of data collection, and the contents of the census form (electronic questionnaire).

COMMUNICATION in preparation for the population census

Publication and distribution of posters, booklets

and calendars

In social media

and other population census materials

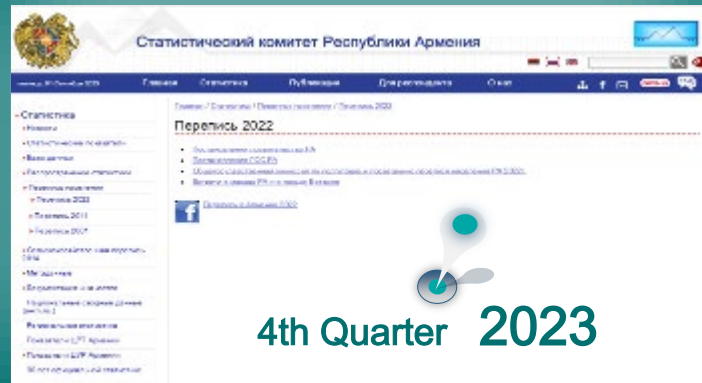

DISSEMINATION of final results

POPULATION CENSUS — ARMENIA, 2022

- Statistical bulletins and yearbooks will be posted in electronic format on the ARMSTAT web page: <https://www.armstat.am/ru/?nid=743>

“Armenian population census results”
national indicators, indicators of the city of Yerevan
and of the marzes.

Final results of the 2022 Census have not been published yet!
