**Psychoneurological Nursing  
Homes – 147**

**(19 in the occupied zone)**

**Geriatric Nursing homes – 79**

**(10 in the occupied zone)**

**The Law of Ukraine “On association of territorial communities” (2015)**

**The villages established small nursing homes - Stationary Wards - financed by the communities.**

**Before 2022 – 125 Stationary Wards functioned in the eastern regions of Ukraine.**

**Now - 70 remained, the residents of the other 45 were evacuated to the western regions.**

# How to evacuate?

- **Transport**
- **Accompanying staff**
- **1047 residents of the Stationary wards arrived to stationary wards, nursing homes and hospitals in the western part of Ukraine**
- **261 died on their way (25%)**

# **Where to accommodate?**

- No buildings meet the needs of so many people with special needs, equipped with all the necessary office and utility rooms.**

**E.g.: Atine Nursing Home is moved to the school building.**

- Each institution has its own medical services (dental offices, treatment rooms, etc.), farms (cows, poultry, vegetable gardens, orchards)**

**E.g.: Swessa Nursing Home is moved to a place at a distance of 40 km from the farm, from the warehouse, and medical equipment.**

# Who can host?

- **Berdichiv NH: 209 residents + 145 IDPs**
- **Vinnitsa NH: 160 + 90**
- **Kriviy Rig NH: 300 + 121**
- **Solotvine hospital: 7 beds + 25**
- **Tismenitsa: 90 ліжок + 34**

# **And what about the staff?**

**1. *Evacuate older people along with the staff.***

**What about families? housing? property?**

**2. Personnel are not evacuated.**

**This means they lose their jobs and livelihoods.**

**To find staff in a new location? In the right quantity? With the right qualifications?**

# **IDPs in new environment?**

- Different context: language, religion, cuisine, landscape**
- A feeling of detachment from the roots and the usual way of life.**
- Consequences of years of Russian propaganda: residents of the East are afraid of residents of the West because they fiercely resisted the Soviet system**
