

XVI Session UNECE-Standing Working Group on Ageing

Spain participation in InCARE project

- Manuel Montero Rey
- Head of International Unit-IMSERSO

- Geneva, 20th November 2023

InCARE  InCARE

3 countries

(Austria, North Macedonia and Spain)

Coordination: European Centre Vienna

Spanish pilot: psychological support to family caregivers of people with dementia

Province of Guipúzcoa

Existing data show the preference of majority for community care rather than residential care

Theory of Change Workshops:

Guipúzcoa (pilot)

Soria (Reference National Center)

Participants: all stakeholders, including carers, most of them older people.

London School of Economics

Simulation model on forecast of LTC needs

Policy event: outcomes and scalability of the
Project.

Participation of older people

Key messages from the project

- Community care implies close collaboration between local and regional/national level
- Outcomes could help to scale up the project from local to national level
