UNFC in Critical Raw Material (CRM) Act

CRM Act, UNFC and Secondary Raw Materials

**Primary and Secondary
Raw Materials**

**Article
6**
(Strategic
projects)

**Article
26**
(Recovery of
CRMs from
extractive
waste)

**UNFC in
CRM Act
proposal**

**Article
18**
(Exploration)

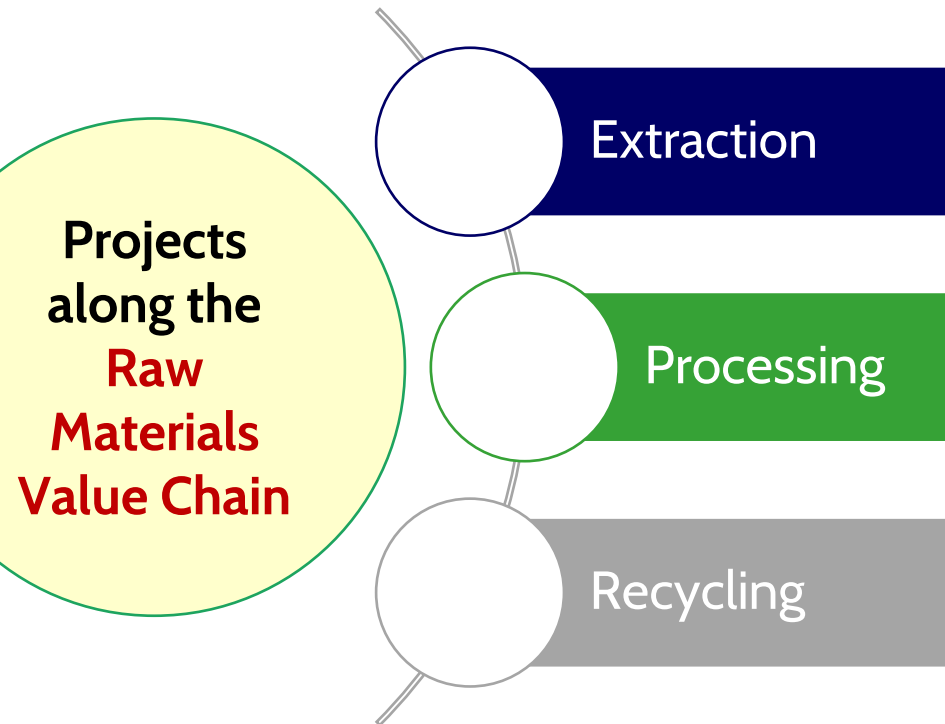

**Primary Raw
Materials**

**Article
20**
(Risk
monitoring &
mitigation)

**Primary and Secondary
Raw Materials**

**Secondary Raw Materials
(Extractive/mining waste)**

Raw material projects in CRM Act (including Strategic projects)

All physical, chemical and biological processes involved in the transformation of a raw material from ores, minerals, plant products or **waste** into pure metals, alloys or other economically usable forms
(CRM Act. Article 2)

'Recycling' means any recovery operation by which **waste materials** are reprocessed into products, materials or substances whether for the original or other purposes.
(CRM Act. Article 2)

Raw material (RM) value chain

Recycled materials

Primary RM value chain

Extraction

Production

Use

Secondary RM value chain

Waste collection

Treatment & recycling

Final disposal

Extraction and production waste

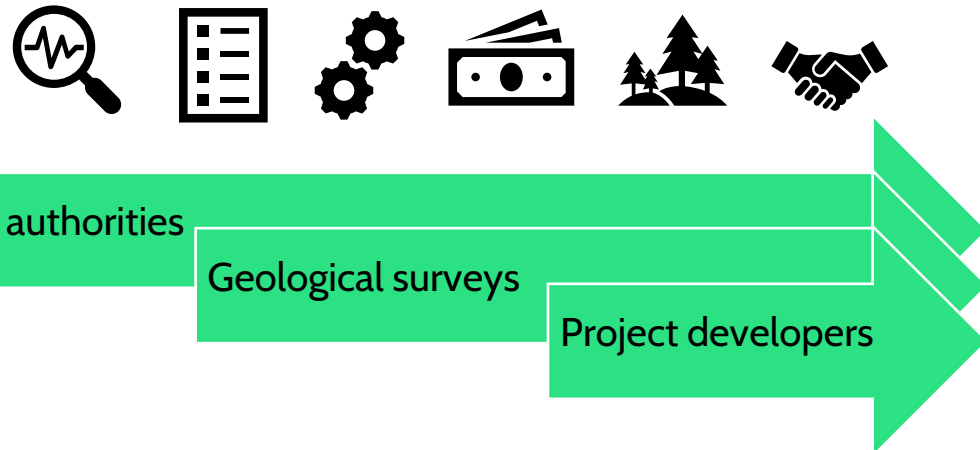

02.

UNFC stakeholders

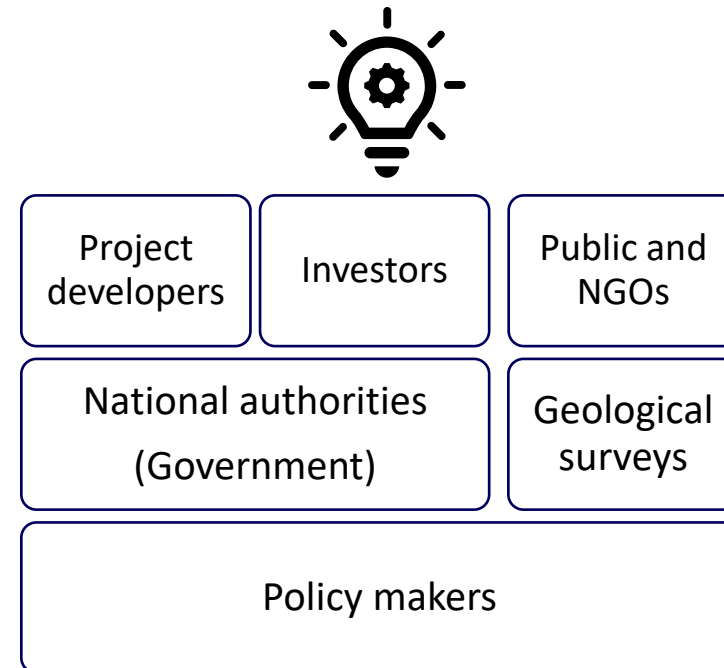

UNFC stakeholders

Users of UNFC (Project Classifiers)

End users of UNFC results (Beneficiaries)

03.

Systematic procedure to apply UNFC on site-specific projects

Procedure for UNFC implementation (7 stages) for individual projects

1 Project profile - main information

2 Project definition and settings

3 Controlling factors for project classification

4 Project assessment and used methodology

5 Result categorization

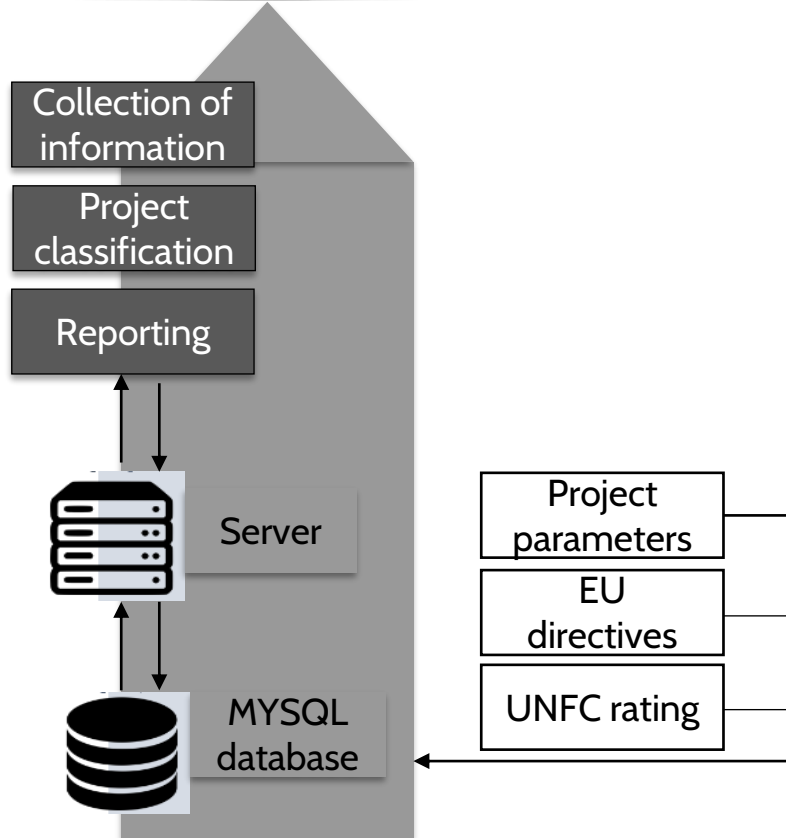

6 UNFC Classification

7 UNFC Reporting

Web tool as a UNFC use facilitator

Web-based interface

- **User-friendly procedure**
 - A step-by-step and easy-to-follow procedure
 - Facilitate the assessment of multiple factors
- **Efficiency and accuracy**
 - Reducing errors and saving time
 - Ensures ease of use for a wide range of professionals
- **Real-time updates**
 - The web tool can be updated with the latest UNFC guidelines and data
 - Ensures ongoing relevance and compliance

04.

UNFC and raw materials management

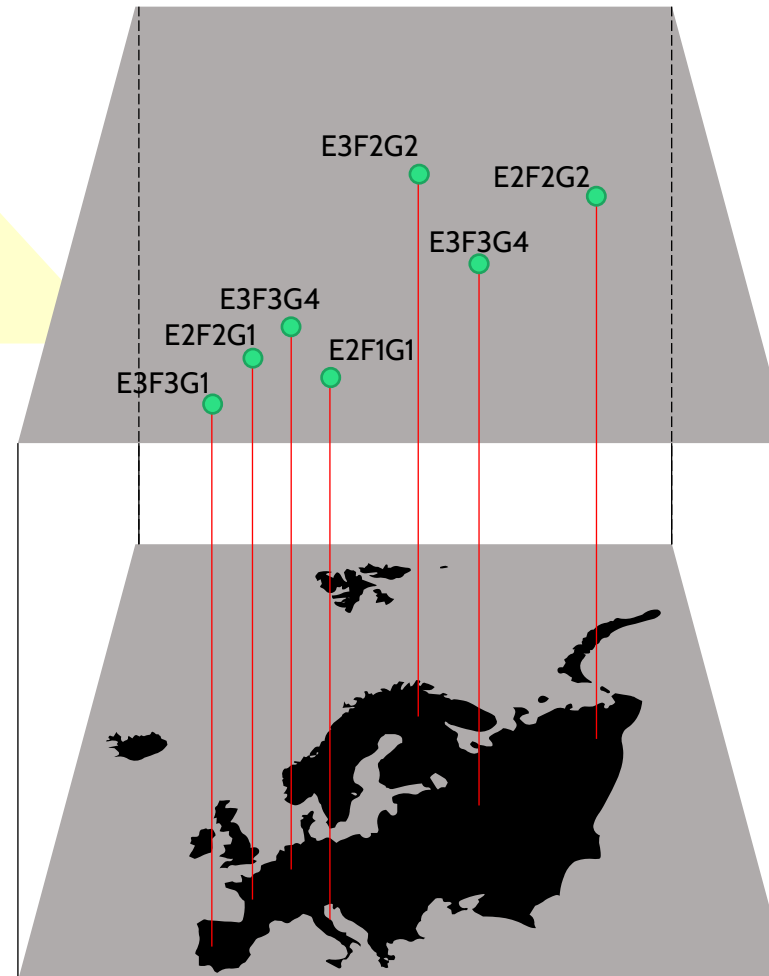

UNFC and resource management on the EU level

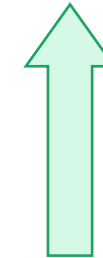

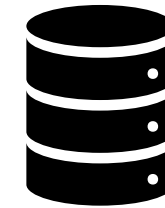

Bottom-up approach

Mapping all raw material projects classified by UNFC

Classification of individual raw material projects by UNFC all over the EU

Meta database

Local database
