

18th session of the SPECA Working Group on Trade

Sue Probert
UN/CEFACT Chair

**Global Supply Chain Data Exchange
Standards for harmonised digitalisation of
trade and transport data flows.**

Objectives

- Simple, transparent and effective processes for global business
- Efficient and automated exchange of information
- Targeted support to SDGs 8, 12, and 17

Key tools

- 50 global trade facilitation recommendations
- 950 e-Business standards and guidelines

Means

- Public-Private Partnership
- Over 1600 volunteer experts working on 30 active projects
- Bi-annual Forums and annual Plenary sessions
- Regular Bureau calls

Global Supply Chain Holistic Multimodal links

- Most dematerialization projects are only looking at one sectoral view
 - The international supply chain is very complex
 - Almost all sectoral views are just one part of a global supply chain
- A holistic view and approach are needed
 - Information will not be related purely to goods or purely to transport or purely to regulatory
 - There are clear links between the information in each part of the global supply chain
- UN/CEFACT deliverables all take this holistic approach
 - Cross Industry
 - MultiModal
 - Cross-border Agencies

UN/CEFACT Global Supply Chain eBusiness Standards

- Based on UN/CEFACT international supply chain reference data model
- Cross-industry and Multi Modal/Intermodal
- Result of contributions from 100s of supply chain experts over more than 20 years
- Business Process Analyses and Data Exchange Message structures - latest published versions May 2023
- Publication formats to support the development of globally harmonised data exchange scenarios with particular focus on cross-modal transport corridors
- Aligned to international regulations and conventions where applicable e.g WCO Data Model (EUCDM) and IMO FAL Reference Model
- Supports EU eFTI and EMSWe regulations

UNTTTC

Transport & Trade Connectivity in the age of pandemics

- UN New York launched **COVID-19 initiative to encourage exchange of digitised electronic data** rather than paper documents in transport contract related data exchanges
- **UNECE and UN/CEFACT joint contribution:**
 - UN/CEFACT Cross-modal project to develop modal data exchange guides as subsets of the UN/CEFACT MMT Reference Data Model to support digitised data exchanges between transport modes
 - **7 Heads of Delegation** supported the Project (Germany, Spain, Greece, Russia, Italy, US and Ukraine)
 - Project completed all ODP steps successfully and published on UN/CEFACT website plus links to UNTTTC website

Modal Specific but Aligned UNTTC MMT-based Customisations

✓ Maritime

✓ Road

✓ Air

✓ Rail

✓ Inland Waterway

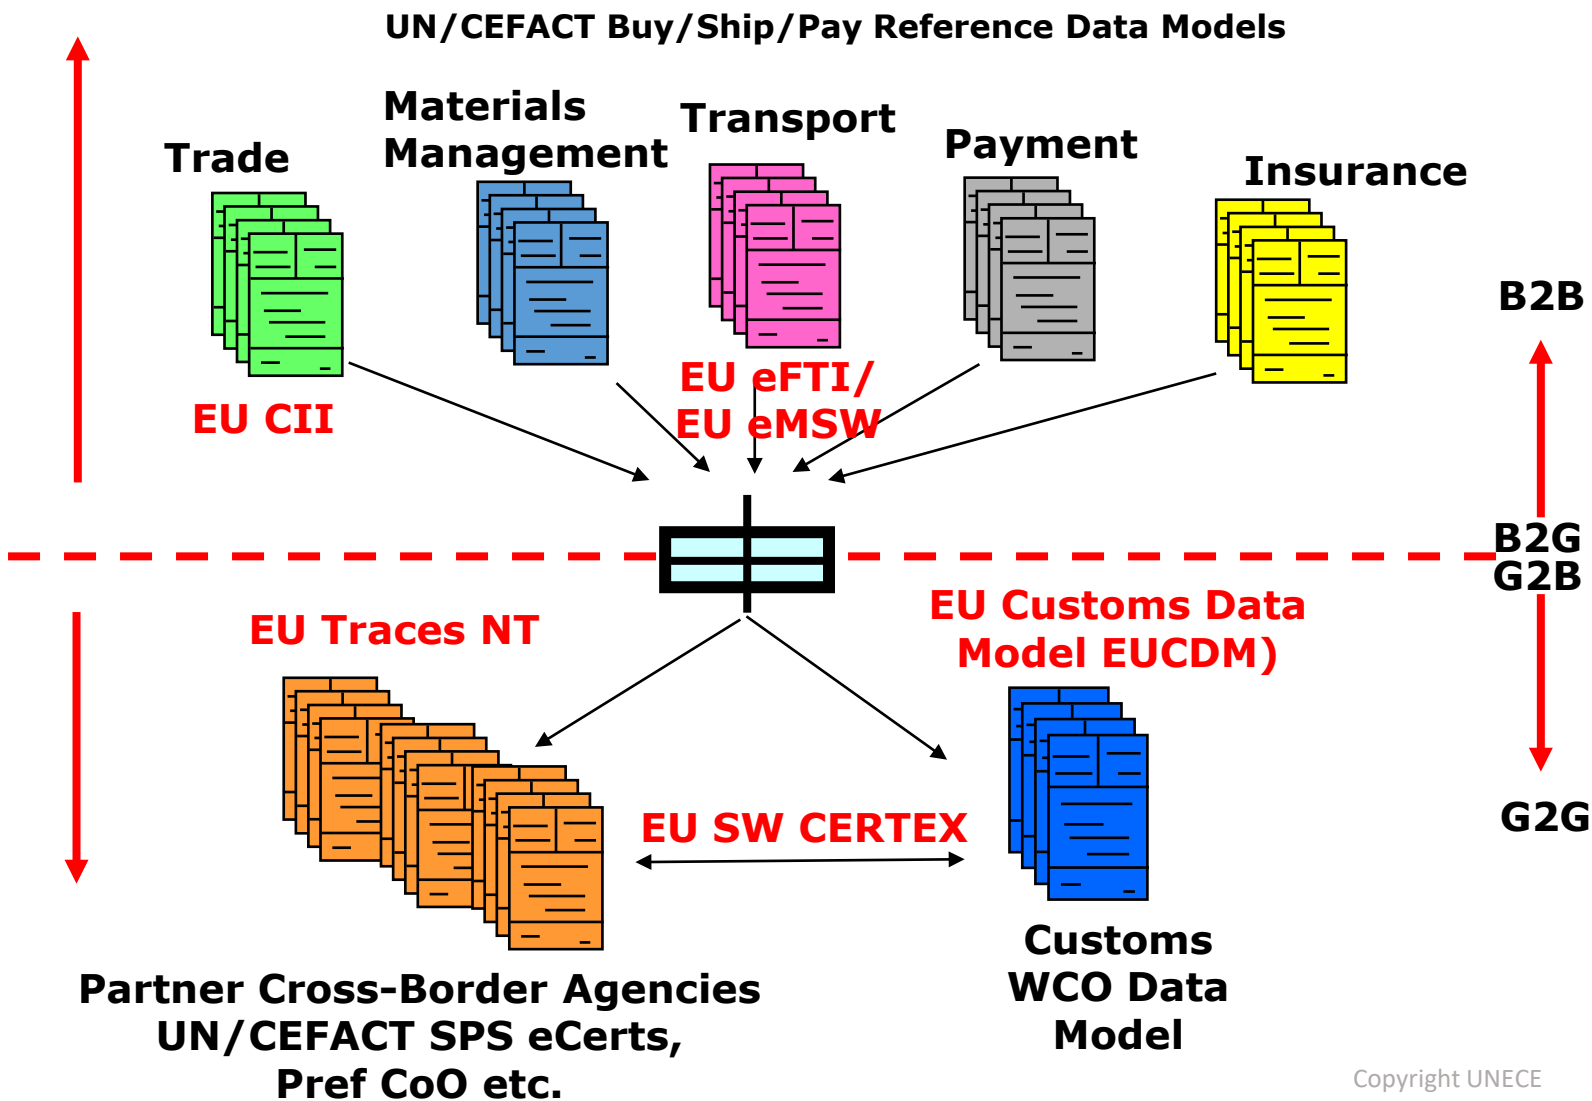

Inter Modal Matrix with MMT as Reference Model (Auto-generated)

Benefits of mapping mode specific data exchange structures to MMT

- MMT is a neutral free-for-use UN global standard developed over more than 20 years by 1000s of cross-domain volunteer experts
- Non-competitive semantic harmonisation to streamline intermodal operations
- Alignment with the WCO data model which shares a multimodal approach to streamline digital cross-border procedures and which is conceptually aligned with the UN/CEFACT global supply chain reference data model
- Alignment with EU eFTI and EU EMSWe regulations whose legal basis is being built on a foundation based on MMT
- Alignment with DCSA and FIATA negotiable maritime eB/Ls which are aligned to MMT
- Alignment with MMT-based eCMR consignment note
- Underpinning semantic interoperability whilst recognising the importance of the relevant governmental and modal regulations/conventions

Single Windows Document Families – European Union Perspective

Key Single Window Semantic Aspects

Recognition that:

- Public side and Government side speak different languages or, at least, different dialects
 - Affects names and definitions
 - Affects data quality
- Partnership approach using harmonised names and definitions will offer increased quality and mutually beneficial facilitation
- Pipeline provision of data in trusted trader programs offers to transform trade facilitation
- Primary and Secondary data views are different

For further Information

- All UNECE and UN/CEFACT Recommendations, codes, standards and publications are available for free on our website at:
