

A planet free of harm from chemicals and waste

Outcomes of the 5th session of the
International Conference on Chemicals
Management

Working Group of the Parties to the Protocol on
PRTRs

Geneva, 27-28 November 2023

Global Framework on Chemicals

For a Planet Free of Harm
From Chemicals and Waste

The Bonn Declaration

A Global Framework on Chemicals Fund

5 Strategic Objectives

28
Targets

Multisectoral and multistakeholder

We the ministers, heads of delegation, and stakeholder leaders, having gathered in Bonn, Germany, at the fifth session of the International Conference on Chemicals Management (ICCM5) to strengthen action to tackle the crisis of pollution from chemicals and waste

A UNEP-administered Global Framework on Chemicals Fund time-limited, that allow multilateral, bilateral and private sector sources was established

The Framework covers the life cycle of chemicals, including in products and waste.

It promotes initiatives to enhance the sound management of chemicals and waste, takes due account of other chemicals and waste instruments that have been developed to date, and is flexible enough to take account of new instruments.

5 strategic objectives

- **Legal frameworks, institutional mechanisms and capacities** are in place
- Comprehensive and sufficient knowledge, **data and information** are generated, available and accessible
- **Issues of concern** are identified, prioritized and addressed.
- **Safer alternatives and innovative and sustainable solutions** in product value chains are in place
- **Enhanced implementation** occurs through increased and **effective resource mobilization, partnerships, cooperation, capacity-building**

28 Targets

Target A1 - By 2030, Governments have adopted, and are implementing, and enforcing legal frameworks; and have established appropriate institutional capacity to prevent or where prevention is not feasible, minimize adverse effects from chemicals and waste as appropriate for their national circumstances.

Target A2 - By 2030, intergovernmental stakeholders develop guidelines to support the needs of interested governments as well as relevant stakeholders to implement effective chemicals and waste management strategies building inter alia on updates of the IOMC Toolbox.

Target B3 – By 2035, stakeholders generate data on the production of chemicals, including the use of chemicals in materials and products in addition to data on emissions and releases of chemicals and waste to the environment, making these available and publicly accessible.

Target B4 – By 2035, stakeholders apply appropriate guidelines, best available practices and standardized tools for hazard and risk assessment and chemical and waste management.

Target D1 – By 2030, companies consistently invest in and achieve innovations towards advancing sustainable chemistry and resource efficiency throughout the life cycle of chemicals.

The text above of the targets is an unedited version.

5 Strategic Objectives

28 Targets

Multisectoral and Multistakeholder

The Framework confirms an integrated approach to financing: mainstreaming, private sector financing, and dedicated external financing.

ICCM5 resolution on international cooperation and coordination:

- **Brought** the Global Framework on Chemicals – For a Planet Free of Harm from Chemicals and Waste to the attention of the governing bodies of relevant intergovernmental organizations and multilateral agreements and **invited** them to endorse or otherwise appropriately acknowledge and support this Framework.
- **Encouraged** all relevant international organizations to continue promoting the broad engagement of stakeholders and sectors in efforts related to chemicals and waste

ICCM5 resolution on programme of work and budget:

- **Invited** the secretariat of the Framework to further increase cooperation and coordination with relevant stakeholders.

Thank you!
