Dear Fiona,

Following our call on Romania's first progress report on decision VII/80, please find attached a more detailed document containing further information on our first progress report.

Also, we attach the draft Governmental Decision on the amendment of Government Decision no. 878/2005 on public access to environmental information. The draft decision includes the updated version of the Guide to public authorities for public access to environmental information. The changes brought to the first version are written in blue.

Moreover, as a second annex to the document called "Further information on the first progress report of Romania", please find attached Romania's response to the survey launched by the Task Force on Access to Justice of the Aarhus Convention in July 2022.

Should you have any questions, please let us know.

Kind regards,

Sorina
