Status of Implementation of Article 23 of the Cartagena Protocol on Biosafety

From national reports and a survey

Ms. Ulrika Nilsson, Associate Information Officer

And

Ms. Inonge Mweene

Biosafety Unit and Communication Unit

Secretariat of the Convention on Biological Diversity

Overview of Article 23 under the Protocol

- 1. The Parties shall:
 - (a) Promote and facilitate public awareness, education and participation concerning the safe transfer, handling and use of living modified organisms in relation to the conservation and sustainable use of biological diversity, taking also into account risks to human health. In doing so, the Parties shall cooperate, as appropriate, with other States and international bodies;
 - (b) Endeavour to ensure that public awareness and education encompass ***access to information on living modified organisms identified in accordance with this Protocol that may be imported.***
- 2 The Parties shall, in accordance with their respective laws and regulations, consult the public in the decision-making process regarding living modified organisms and shall make the results of such decisions available to the public, while respecting confidential information in accordance with Article 21.
- 3 Each Party shall endeavour to inform its public about the means of public access to the Biosafety Clearing-House.

Background

National reports

- Parties to the Cartagena Protocol were to submit their 4th national report 12 months prior to the 10th meeting of the Parties to the Protocol (COP-MOP 10), including information on Article 23
- The SCBD prepared the analysis of information for the assessment and review of the effectiveness of the Cartagena on Biosafety in 2022, including information on Article 23 based on the 4th national reports
- The assessment and review of the Cartagena Protocol was combined with the final evaluation of the Strategic Plan for the Protocol (2011-2020)
- 171 Parties submitted a 4th national report
- 137 Parties completed their submission on the Biosafety Clearing-House

Poll on Article 23

- 23 respondents participated in the poll
- The poll included questions on Article 23 that were not in the national reports or other questionnaires

Part 2: Status of Implementation from national reports

Public awareness and education

Main progress (% of Parties)

Does your country have in place a national communication strategy on biosafety?

Does your country have any awareness and outreach programmes on biosafety?

Part 2: Status of Implementation from national reports

Public awareness and education

Main progress (% of Parties)

How many academic institutions in your country are offering biosafety education and training courses and programmes?

How many educational materials and/or online modules on biosafety are available and accessible to the public in your country?

Part 2: Status of Implementation from assessment and review

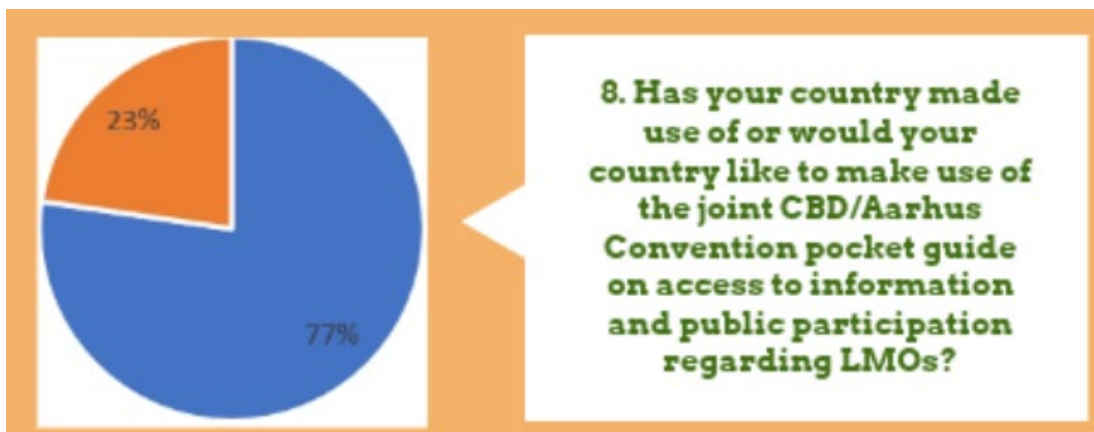

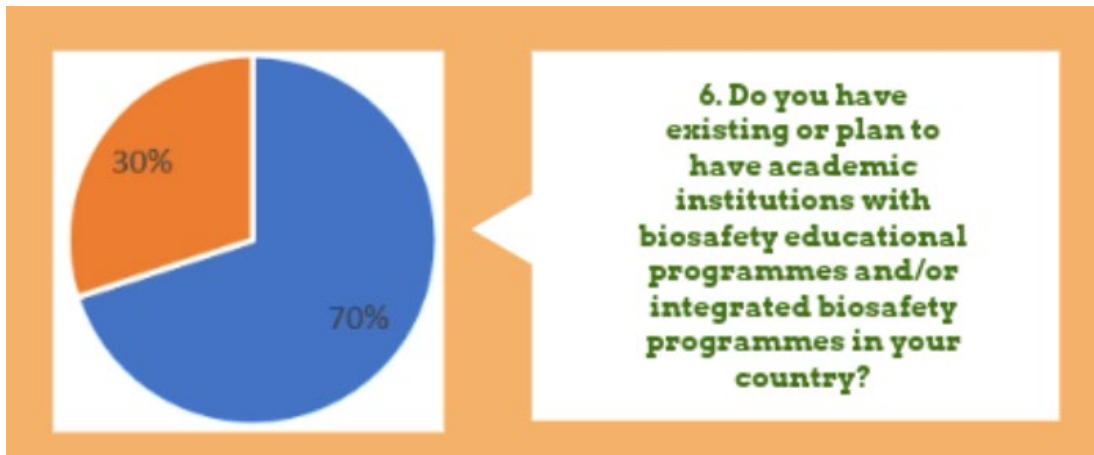

-Main successes or challenges in Public awareness and education

- The number of academic institutions by region offering biosafety education and training courses and programmes are high
- The number of biosafety training materials and online modules available also has significant progress
- Parties having organized at least one biosafety-related event, such as seminars, workshops, press conferences, educational events are high

Part 2: Status of Implementation from a poll

Public awareness and education

Thank you
