**compliance by Italy with provisions of the Convention related to the cost of judicial procedures**

WWF Italy, having read the report sent on 7 December 2023, notes that the information contained therein, due to its vagueness, does not allow any opinion to be expressed at present.

It notes the delay with which the Italian State is proceeding and the failure to indicate a date on which it undertakes to produce a proposal for a legislative amendment in compliance with the Committee's decision.

With best regards.
