CYBERSECURITY in LR- SPAIN case study

I-LR digitalization- Spain state of play

II-Regulatory framework

III-Cybersecurity in LR - Spain

I-LR DIGITALIZATION - SPAIN STATE OF PLAY

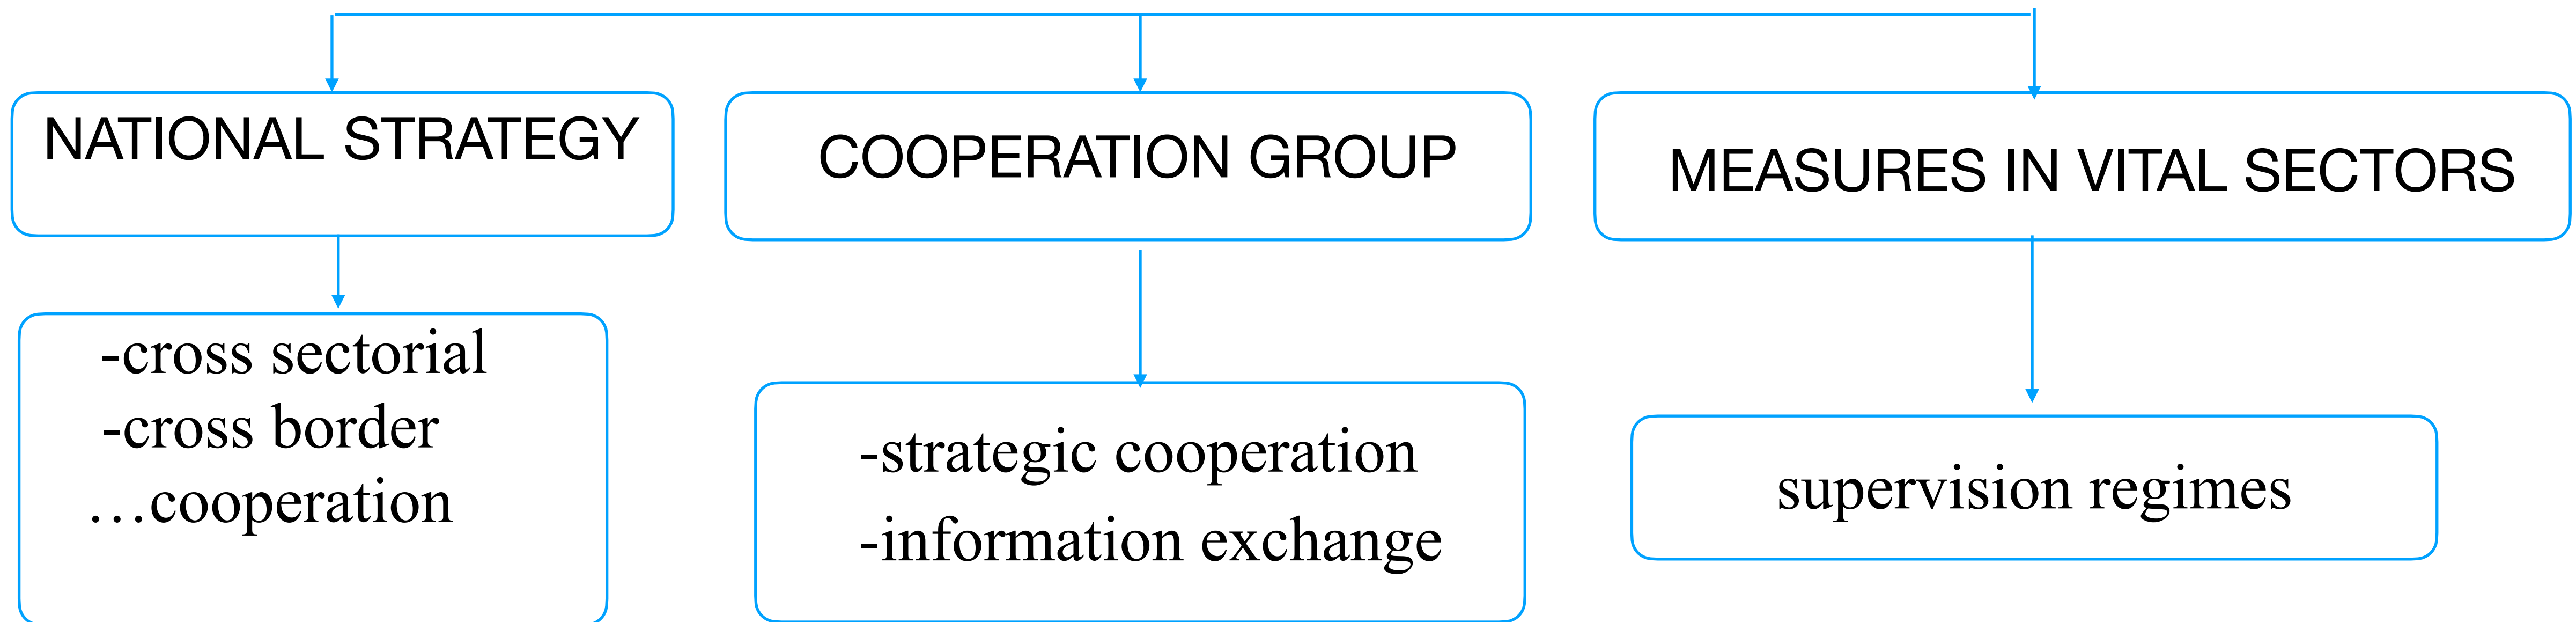

Tenure rights' information digitally available since 2001
Fully digital procedure available since 2006

II-REGULATORY FRAMEWORK

EU (Parliament and Council) **Directive** 14th Dec 2022:
measures for a high common level of cybersecurity across the Union

<https://eur-lex.europa.eu/eli/dir/2022/2555>

II-REGULATORY FRAMEWORK

EU (Parliament and Council) **Directive** 14th Dec 2022:

NATIONAL STRATEGY

- national computer security incident response team **_CSIRT_**
- national authority on ciber security
- national single contact point **_SPOC_**

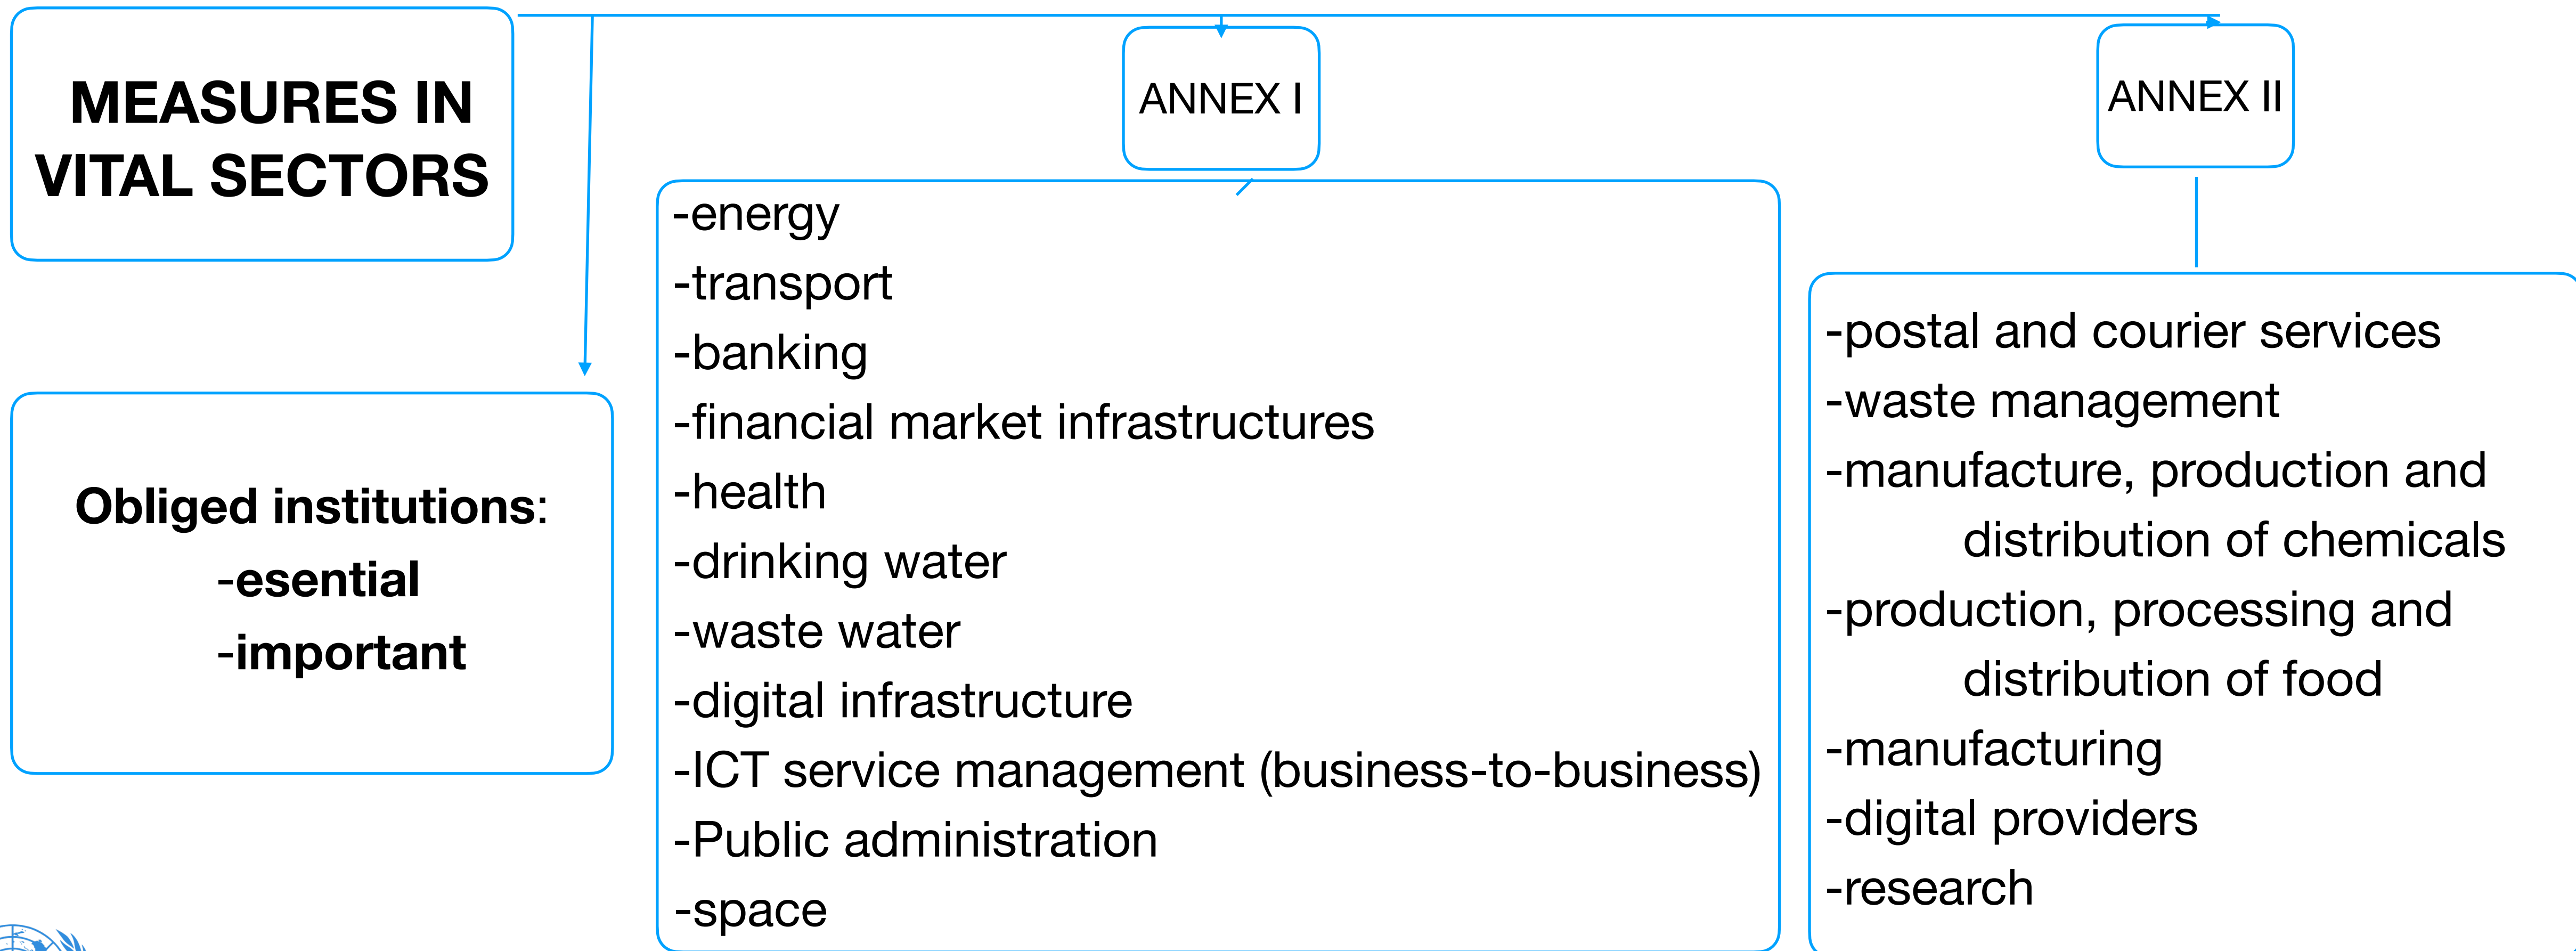

COOPERATION GROUP
& CSIRTs network

Information
exchange To

- prevent + detect + respond to
 - recover from
 - mitigate their impact
 - enhance level of cybersecurity—raising awareness
 - impede the threats to spread and
 - support defensive capabilities.
- incidents

II-REGULATORY FRAMEWORK

EU (Parliament and Council) **Directive** 14th Dec 2022

II-REGULATORY FRAMEWORK

EU (Parliament and Council) Directive 14th Dec 2022

AIMS

- to solve the shortcomings/deficiencies of the previous regulation
- to adapt it to current needs and
- to prepare it for the future

MEANS

- coordinating security frameworks
- cooperating at union & international level
- cybersecurity risk-management measures & reporting obligations
- jurisdiction criteria based on territory (*exceptions)
- registration of entities in a Register created and managed by ENISA
- information sharing
- supervision and enforcement
- the power to adopt delegated acts is conferred on the Commission

II-REGULATORY FRAMEWORK

EU (Parliament and Council) Directive 14th Dec 2022

coordinating security frameworks

- national strategies
- national competent authorities:
 - national single point of contact (SPOC)
 - computer security incident response team/-s (CSIRTs)
- European Union Agency for Cybersecurity (ENISA)
- Coordinated vulnerability disclosure (by ENISA)
- European vulnerability database

cooperating at union & international level

- Cooperation Group
- CSIRTs network
- international cooperation through international agreements
- European cyber crisis liaison organisation network (EU-CyCLONe)
- building knowledge:
 - Report on the state of cybersecurity in the Union
 - peer reviews

CYBERSECURITY in LR- SPAIN case study

II-REGULATORY FRAMEWORK

EU (Parliament and Council) Directive 14th Dec 2022

**cybersecurity risk-management
measures & reporting obligations**

- ensure **essential & important entities** take **appropriate and proportionate measures**
- Union level coordinated security **risk assessments of critical supply chains**
- reporting obligations
- use of **European cybersecurity certification scheme**
- without imposing or discriminating in favor of the use of a particular type of technology
- encourage use of **European and international standards & technical specifications**

II-REGULATORY FRAMEWORK

EU (Parliament and Council) Directive 14th Dec 2022

To highlight:

key elements to be implemented

- incidents management
- security of supply chains
- management &
- difusion of vulnerabilities
- cryptography
- when appropriate, coding

information flow of significant incident

- initial notification or early warning
- intermediate notification
- final report

list of minimum measures

- warnings
- binding instructions
- order to cease conducts/inform /implement recommendations
- administrative fines

II-REGULATORY FRAMEWORK

EU (Parliament and Council) Directive 14th Dec 2022

NIS2 Directive linked & coordinated with other EU initiatives:

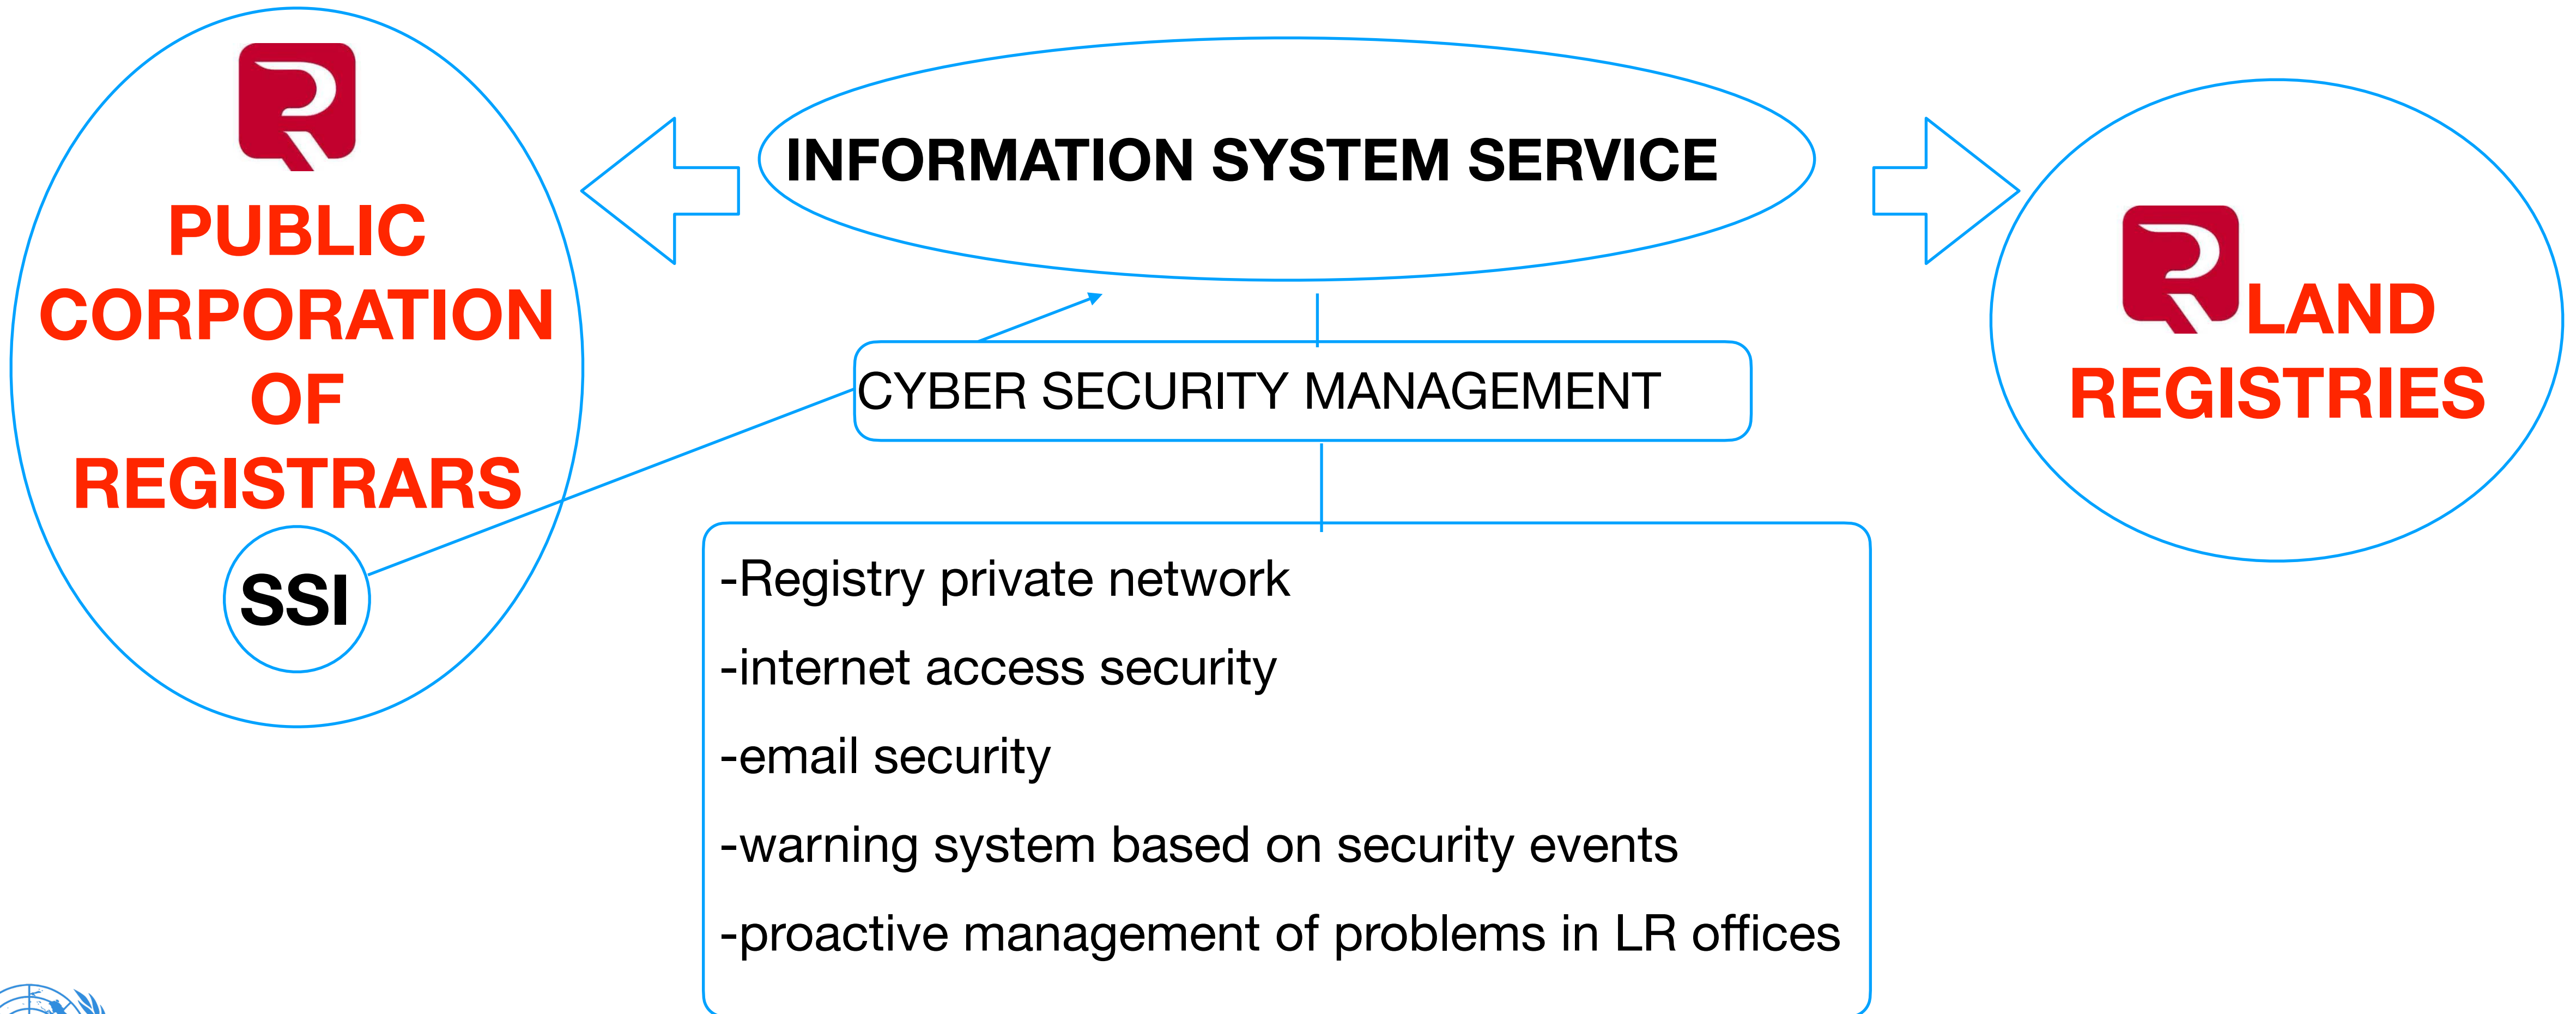

- Regulation (EU) 2022/2554 of the European Parliament and the Council of 14 December 2022 on digital operational resilience for the financial sector
- Directive 2022/2557, 14 December 2022, on the resilience of critical entities
- ...

Cyber security as an ongoing project

by 17 October 2027 and every 36 months thereafter...

17 October 2024: Member States shall adopt and publish the measures

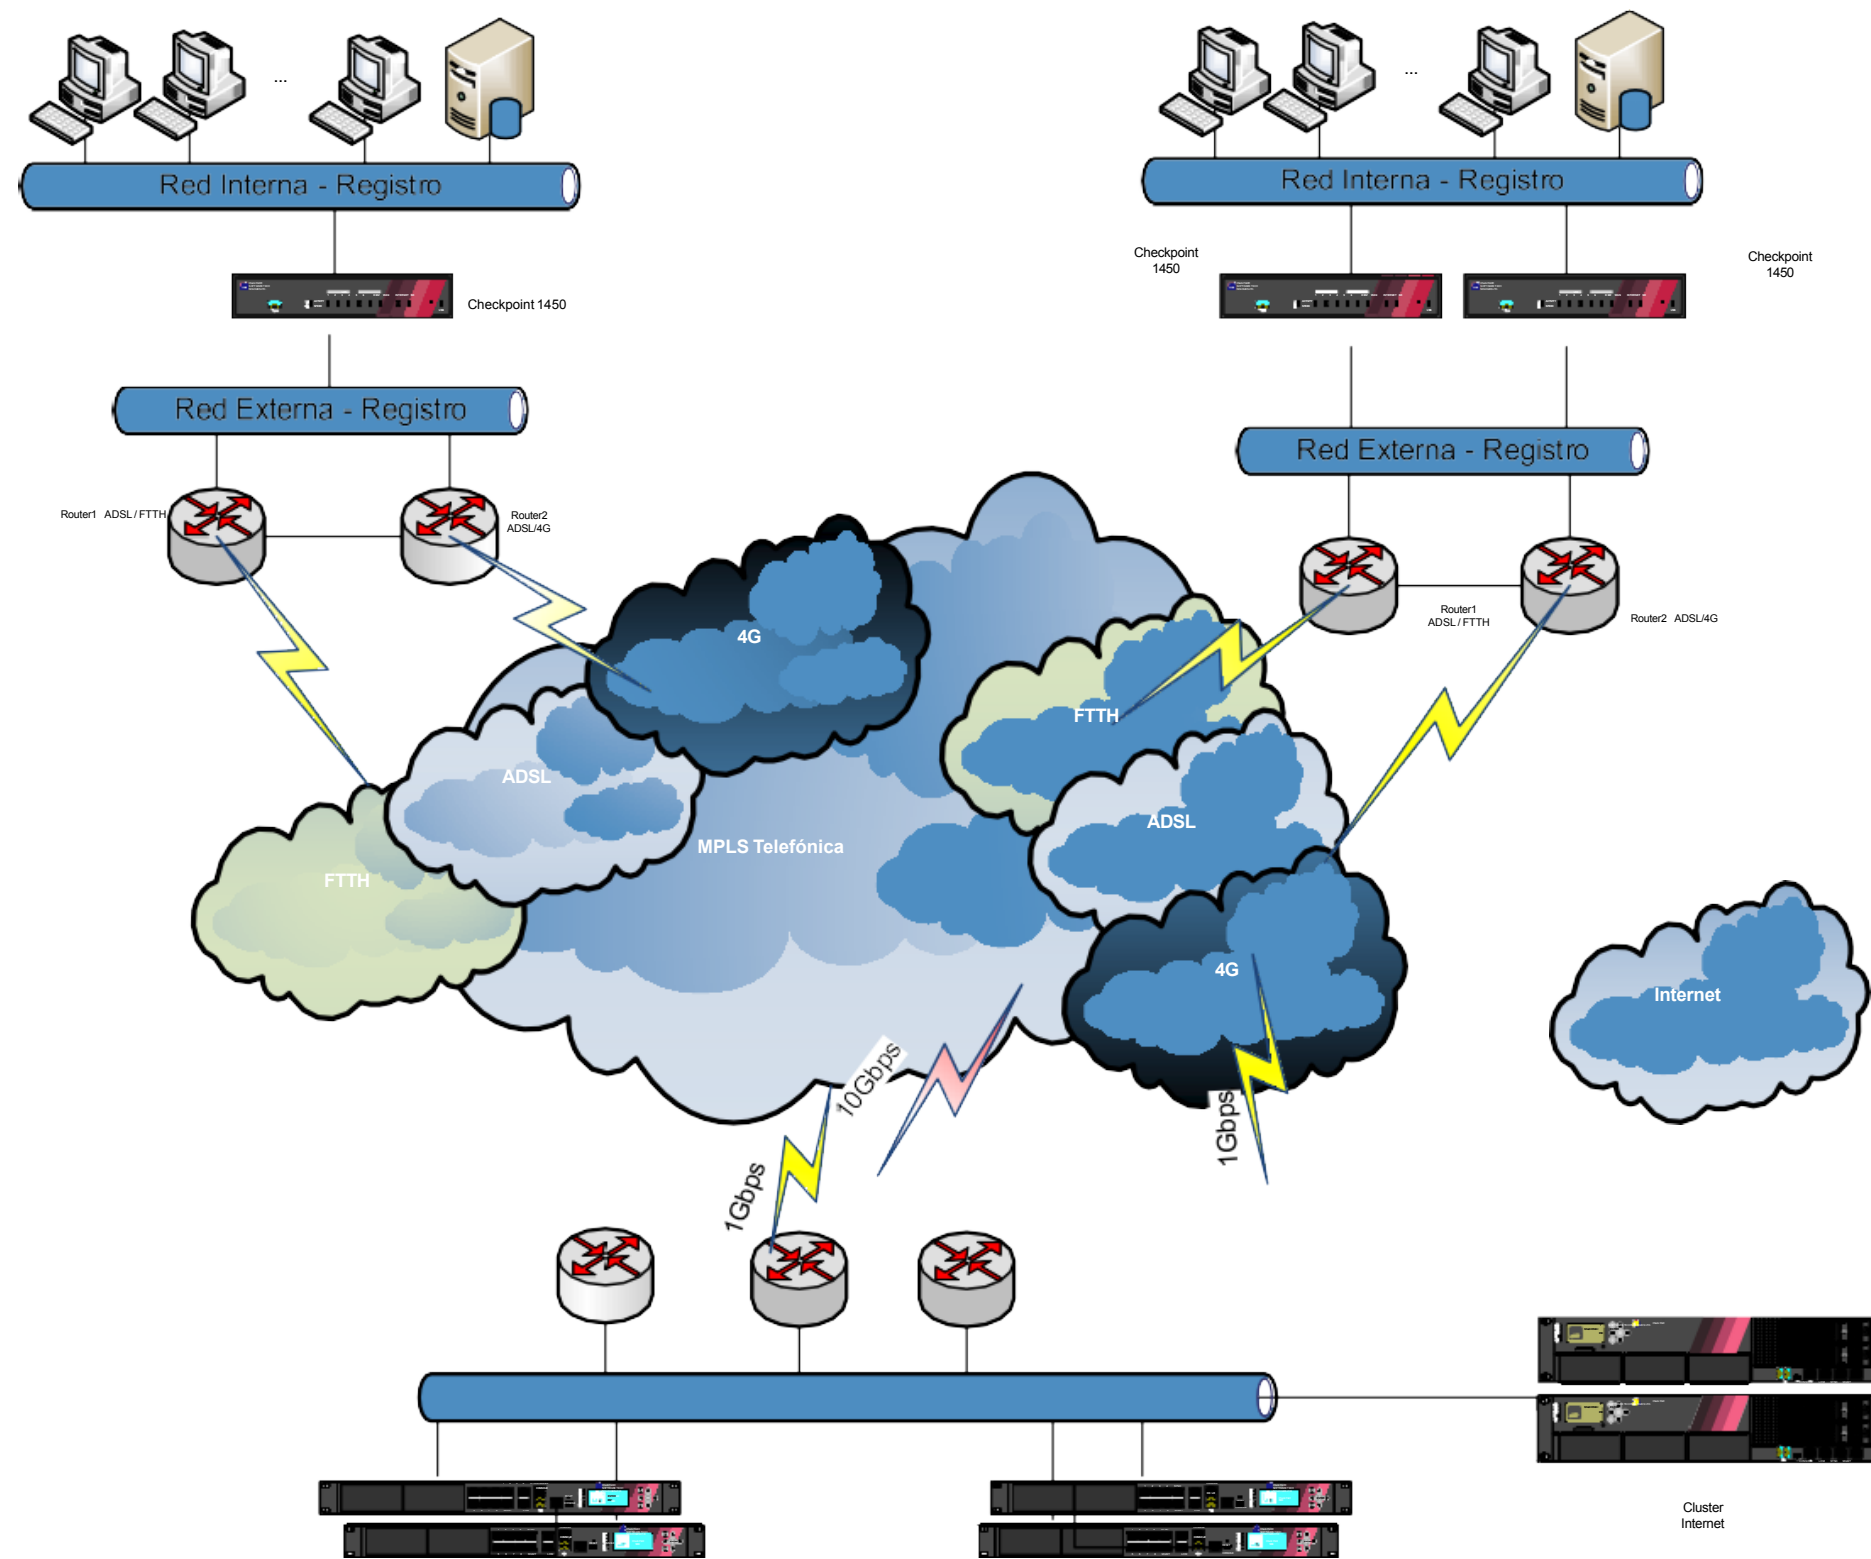

III-CYBERSECURITY in LR- SPAIN

III-CYBERSECURITY in LR- SPAIN

REGISTRY PRIVATE NETWORK

III-CYBERSECURITY in LR- SPAIN

INTERNET ACCESS SECURITY

-network traffic filtering

-categorisation and filtering of URLs

-categorisation and filtering of applications by risk levels

-advanced threat protection

III-CYBERSECURITY in LR- SPAIN

EMAIL SECURITY

- perimeter firewalls
- Cisco system

- Message delivery control – global IP reputation database
- Own and dedicated Antivirus & AntiSpam
- Suspicious behavior detection module
- Custom filters
- Analysis and rewriting of the links

III-CYBERSECURITY in LR- SPAIN

WARNING SYSTEM BASED ON SECURITY EVENTS

III-CYBERSECURITY in LR- SPAIN

PROACTIVE MANAGEMENT OF PROBLEMS IN LR OFFICES

- incident management console in the registries' hardware
- monitoring availability of necessary services
- management of updates
- local office network, servers & personal equipment measures:

- secure local network & controlled physical access to network devices
- updated operating systems
- updated antivirus/antimalware software
- next-generation security applications to detect and prevent attacks, including “zero-day”
- backups, local and outsourced
- self awareness
- SSI advise
