The Committee heard the views of the communicant on the preliminary admissibility of the communication in open session. A representative of the Party concerned also participated in the open session and indicated that the Party concerned had no comments at that point. 67. Communication ACCC/C/2023/202 (Italy) had been submitted on 3 July 2023 by Mr. Giuseppe Dini, a member of the public. The communication alleged non-compliance with articles 6 (2) and (6)–(8) and 8 of the Convention in connection with a proposed photovoltaic plant in the municipality of Sant'Angelo in Vado. The Committee heard the views of the communicant and the Party concerned on the preliminary admissibility of the communication in open session. After considering in closed session the information received, the Committee considered that the proposed activity was not an activity listed in paragraphs 1–19 of annex I to the Convention, nor was it required to undergo an environmental impact assessment procedure under national legislation, in accordance with paragraph 20 of annex I. For that reason, the Committee determined that the communication was inadmissible in accordance with paragraph 20 (d) of the annex to decision I/7 of the Meeting of the Parties to the Convention for being incompatible with the Convention, on the ground that the activity did not fall within the scope of articles 6 or 8 thereof.

68. Communication ACCC/C/2023/203 (Germany) had been submitted on 10 July 2023 by the NGO Deutsche Umwelthilfe e.V.. The communication alleged non-compliance with article 8 of the Convention in connection with a draft amendment to the Climate Protection Act. The Committee heard the views of the communicant and the Party concerned on the preliminary admissibility of the communication in open session. After considering in closed session the information received, the Committee determined that the communication was admissible on a preliminary basis and requested the secretariat to forward the communication to the Party concerned for its response.

69. Communication ACCC/C/2023/204 (Ireland) had been submitted on 1 August 2023 by the organization Right to Know CLG. The communication alleged non-compliance with articles 3 (1) and 4 (1), as well as 9 (1) and (4) of the Convention in connection with requests for environmental information. The Committee heard the views of the communicant and the Party concerned on the preliminary admissibility of the communication in open session. After considering in closed session the information received, the Committee determined that the communication was admissible on a preliminary basis and requested the secretariat to forward the communication to the Party concerned for its response.

70. Communication ACCC/C/2023/205 (Italy) had been submitted on 5 August 2023 by the NGO A Sud Ecologia e Cooperazione Odv ETS. The communication alleged non-compliance with articles 3 (1), 5 (2) (b) (i), (3) (c) and (5) (a), 6 (3)–(4) and (8) and 7 of the Convention in connection with the draft updated national energy and climate plan of the Party concerned. The Committee heard the views of the communicant and the Party concerned on the preliminary admissibility of the communication in open session. After considering in closed session the information received, the Committee noted that the updated national energy and climate plan was currently still in draft form and was yet to undergo a strategic environmental assessment procedure, including public participation, prior to the submission

of the final updated plan to the European Commission in June 2024. For that reason, the Committee determined that the communication was inadmissible in accordance with paragraph 20 (d) of the annex to decision I/7 of the Meeting of the Parties to the Convention for being incompatible with the provisions of decision I/7, since the preparation of the plan had not yet been completed.

71. Communication ACCC/C/2023/206 (Spain) had been submitted on 7 August 2023 by the association “Salvar La Tejita”. The communication alleged non-compliance with articles 4 (1), 5 (1) (a), 6 (1) (a) and (2)–(8) and 7–8 in connection with the proposed Tenerife motor circuit. The Committee heard the views of the communicant and the Party concerned on the preliminary admissibility of the communication in open session. After considering in closed session the information received, the Committee determined that the communication was inadmissible under paragraphs 20 (d) and 21 of the annex to decision I/7 of the Meeting of the Parties to the Convention, for failure to demonstrate that the available domestic remedies had been used and completed. Specifically, with respect to the allegations within the scope of the communicant’s complaint to the Ombudsman, the Committee considered those allegations to be inadmissible due to the Ombudsman’s procedure still being ongoing. Regarding any allegations outside the scope of the complaint to the Ombudsman, the Committee considered that the communicant had not shown that any available remedies had been used and completed.

VII. Follow-up on specific cases of non-compliance

72. The Committee reported that, on 1 September 2023, the secretariat had written at the Committee’s request to the Parties subject to decisions VII/8a, VII/8b, VII/8d, VII/8f, VII/8g, VII/8i–VII/8l, VII/8n–VII/8s of the Meeting of the Parties to remind them of the deadline of 1 October 2023 to submit their first progress report on the measures that they had taken by that date, and the results achieved, to implement the recommendations set out in the respective decision concerning their compliance.

75. Regarding decision VII/8a (Armenia), the Committee continued its deliberations on its draft advice on paragraph 2 (a)–(b) of the decision at the current meeting and agreed to continue those deliberations through its electronic decision-making procedure, with a view to completing its draft advice as soon as possible.

76. With respect to decision VII/8e (Czechia), the Committee had continued its deliberations on its draft advice on paragraph 2 (b) (i)–(ii) of the decision at its virtual meetings on 26 July and 25 August 2023. At the current meeting, the Committee agreed to continue its deliberations through its electronic decision-making procedure, with a view to completing its draft advice as soon as possible.

77. Concerning decision VII/8h (Hungary), on 18 September 2023, the Committee had written to the Party concerned to inform it that, at its seventy-eighth meeting, the Committee had considered the detailed explanation provided by the Party concerned on 21 December 2022 and had concluded that the information it had provided did not address the content of its findings on communication ACCC/C/2014/105 (Hungary) or that of its recommendation contained in paragraph 2 of decision VII/8h. In its letter, the Committee had also reminded the Party concerned of the upcoming deadline of 1 October 2023 to submit its first progress report on the implementation of decision VII/8h.

78. Regarding decision VII/8m (Netherlands), at its virtual meeting on 25 August 2023 the Committee had continued its deliberations on its advice on paragraph 3 (a) of the decision, taking into account the comments on its draft advice received from the Party concerned, other

Parties and observers. The Committee continued its deliberations on its advice at the current meeting and agreed to continue those deliberations through its electronic decision-making procedure, with a view to finalizing and adopting its advice as soon as possible.

79. With respect to findings of non-compliance adopted by the Committee since the seventh session of the Meeting of the Parties (Geneva, 18–20 October 2021), and regarding which the Party concerned had agreed that the Committee would take the measures requested in paragraph 36 (b) of the annex to decision I/7,⁶ the Committee noted that it looked forward to receiving updates on the progress made by the Party concerned in implementing the Committee's findings and recommendations on communication ACCC/C/2014/119 (Poland).⁷ In that regard, the Committee invited the Party concerned to submit a progress report to the Committee by 1 October 2023, in line with the deadline for all progress reports concerning the Committee's follow-up on the implementation of decisions and requests of the Meeting of the Parties adopted at its seventh session.

VIII. Programme of work and calendar of meetings

80. The Committee noted that it had agreed, subject to the availability of conference services, to hold its eighty-first meeting from 12 to 15 December 2023.

IX. Other business

A. Reporting requirements

81. The Committee noted that the Meeting of the Parties, at its seventh session, had urged Parties that had not yet submitted their national implementation reports – i.e. Azerbaijan, Malta, the Netherlands, the Republic of Moldova and Tajikistan – to do so by 1 December 2021 at the latest, and in the required format.⁸ The secretariat informed the Committee that three of those five Parties had subsequently submitted their reports (i.e.: Azerbaijan, on 19 October 2021; Malta, on 11 November 2021; and Republic of Moldova, on 2 December 2021). At the time of the meeting, only the Netherlands and Tajikistan had failed to submit their national implementation reports for the 2021 reporting cycle.

B. Resourcing of the Committee

82. The Chair noted that the Committee had a very significant number of communications pending before it and that, in addition to its work on those communications, it was also engaged in the follow-up on 20 decisions and requests of the Meeting of the Parties on compliance and one finding of non-compliance. The Committee was also working to complete one request received from Parties for advice and assistance outside its follow-up procedure and three requests received from Parties for advice within the context of its follow-up on decisions of the Meeting of the Parties. It stressed that it currently had very limited resources to support that important area of work. The Chair emphasized that, notwithstanding its very limited resources, the Committee was doing its best to carry out its work. The Chair acknowledged the current lengthy time frame for the Committee to complete its findings on pending communications but noted that, without significant additional resources, the current delays would increase. The Chair urged all Parties to reflect on the current situation of the Committee and provide further resources as a matter of urgency to support its important work.
