SPEAKER BIOGRAPHY

Daniela Leveratto is a senior expert in global regulations & policies of the technology sector.

After 15 years of advocacy in one of the world's most regulated sectors, automotive industry and mobility in general, Daniela Leveratto, who consolidated extensive expertise in the field of legislative affairs at the international level, has been elected 2023 as the President of the GlobalAI Association in the wake of the significant convergence of technology and automotive manufacturing of these recent years.

Graduated in engineering in Italy with the highest honors, and former researcher at TU-Munich in the field of alternative propulsions, after significant experiences at AUDI Project Management Sport Cars in Ingolstadt and at the European Commission in Brussels as a national expert seconded by Germany, Daniela Leveratto has been the Vice Chair and then Technical Director of the top NGOs representing vehicle manufacturers in international institutions: firstly, OICA in Paris (the International Organization for Vehicle Manufacturers), then IMMA in Geneva (the International Manufactures Motorcycles Association). She is currently the Technical Director of CONEBI in Brussels (the Confederation of the European Bicycle Industry) and WBIA (the World Bike Industry Association) in Switzerland.

Business fluent in English, French, Italian and German, she serves pro bono as the President of the GlobalAI Association, along with being a member of the Italian Order of Engineers and the European League for
