

Incorporating ethics in statistical organizations through GSBPM and GAMS0

InKyung Choi

United Nations Economic Commission for Europe (UNECE)

GSBPM and GAMSO

Generic Statistical Business Process Model (GSBPM)

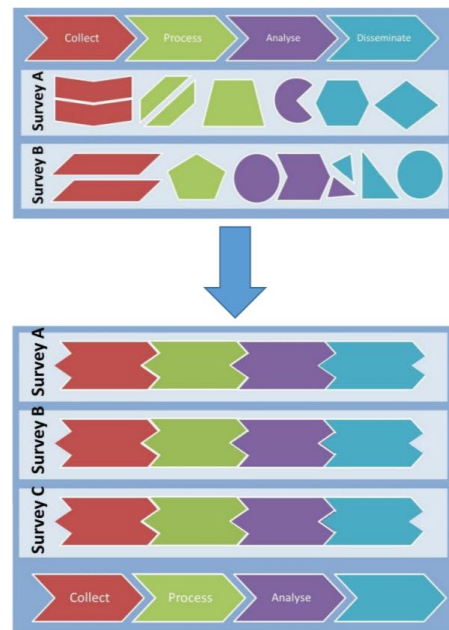

- Describe activities related to statistical production
- Generic and flexible

GSBPM and GAMSO

Generic Statistical Business Process Model (GSBPM)

Stovepipe vs. process oriented organization

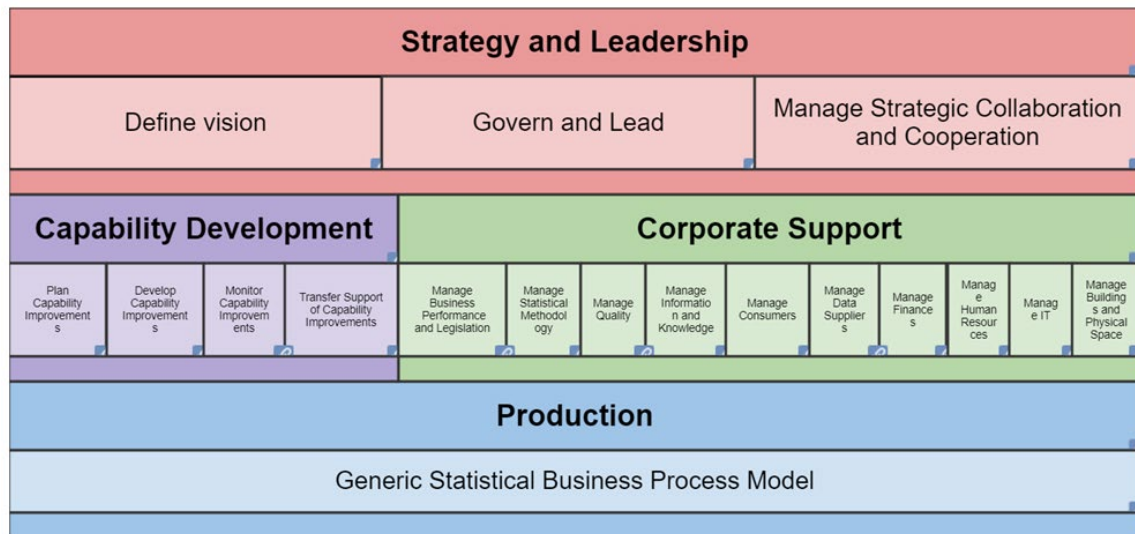

www.stat.gov.rs / stat@stat.gov.rs

- Describe activities related to statistical production
- Generic and flexible
- Enhance communication

GSBPM and GAMSO

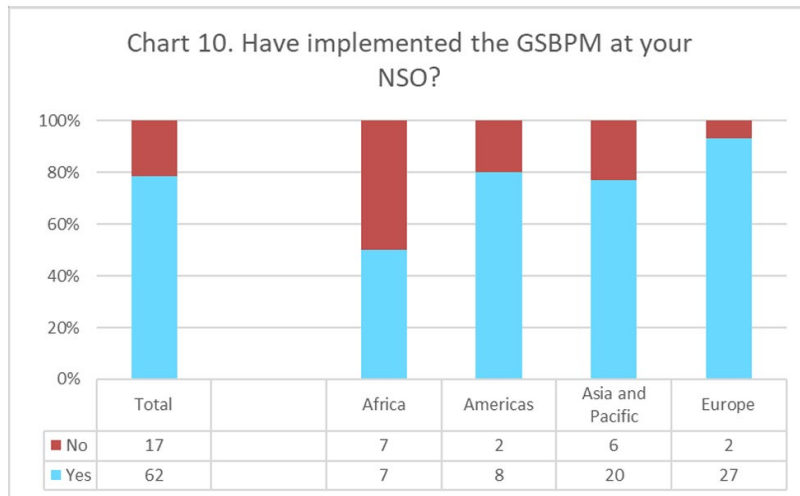

Generic Activity Model for Statistical Organisations (GAMSO)

- Activities in statistical organisations including HR, legal affairs
- Reference points for re-organization/structuring

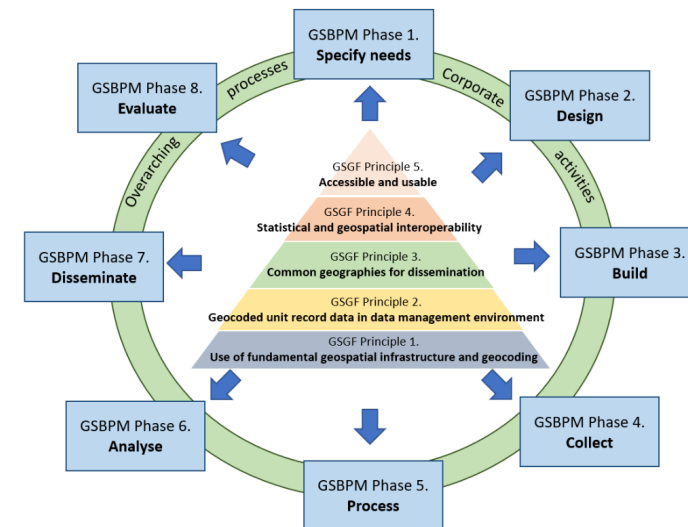

Why GSBPM and GAMSO for ethics?

- Global standards
- Enables standardized & systematic approach for ethics

GSBPM has been implemented by 78% countries

GeoGSBPM (2021) = GSBPM + Geospatial data

How to incorporate ethics in GSBPM/GAMSO

ModernStats Revision: model are revised every 5 years. GSBPM and GAMSO are under revision for 2023-24 under HLG-MOS Supporting Standards Group

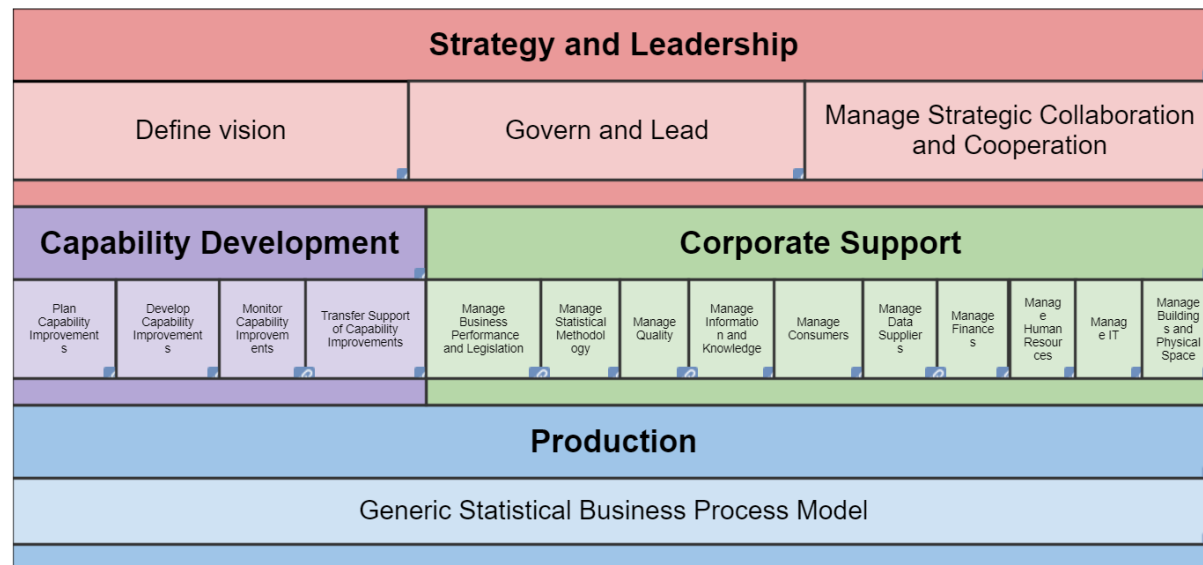

Feedback about ethics for GAMSO

- “...some possible aspects to include... data Stewardship, incl. **ethics**, Algorithm Charter”
- “On Corporate Support, it is helpful that it takes a cross-cutting perspective of systems and processes.... ‘**manage ethics**’ or something similar should be included as it is increasingly relevant to data sharing and linkage”
- “Some elements that emerged since the last preparation of version 1.2 need to have a place in the revised version, such as **manage ethics** and manage professional cooperations”

Proposal from HLG-MOS Ethics team for GAMSO

Option 1. Add texts around ethics in Strategy Leadership (define vision; govern and lead) and Corporate Support (manage business and performance; manage consumers)

Option 2. Create a new activity area “manage ethics” under Corporate Support

Feedback about ethics for GSBPM

No specific feedback for GSBPM
