

TREES IN DRY CITIES COALITION

A transformative journey toward sustainable urban development

Facilitated by the United Nations Economic Commission for Europe (UNECE), the Trees in Dry Cities Coalition is an unprecedented initiative in collaboration with Leading Sustainability Partners, drawing from the successful experiences of the Trees in Cities Challenge and the Tree Policy Action Lab (Tree-PAL)

PROMOTING URBAN TREES AS A NATURE-BASED SOLUTION IN DRY CLIMATE

PILLARS OF COOPERATION

- **POLICY:** Linking local and national policy for more systemic and efficient approaches
- **ACTION:** Technical assistance, tools and fundraising
- **COMMUNITY OF PRACTICE:** Research, peer exchange, coordination and outreach

SUPPORTING CITY PILOTS

- Back city-level projects that inform national policy and drive sustainable urban tree management
- Contribute to peer exchange, coordination, and outreach through national and international events

WORKING MECHANISMS

- Informal trees in dry cities working group
- Trees in dry cities events
- National policy support and city pilots

WHY JOIN?

- **GLOBAL IMPACT:** Be part of a global movement that addresses climate resilience, biodiversity, and sustainable cities
- **COLLABORATIVE NETWORK:** Access a collaborative network, engaging major partners and diverse stakeholders
- **INNOVATION HUB:** Gain insights into cutting-edge policies, tools, and technical assistance
- **POLICY INFLUENCE:** Influence local and national policies
