Submitted by the chairs of the expert groups on regulatory fitness for Automated Driving Systems

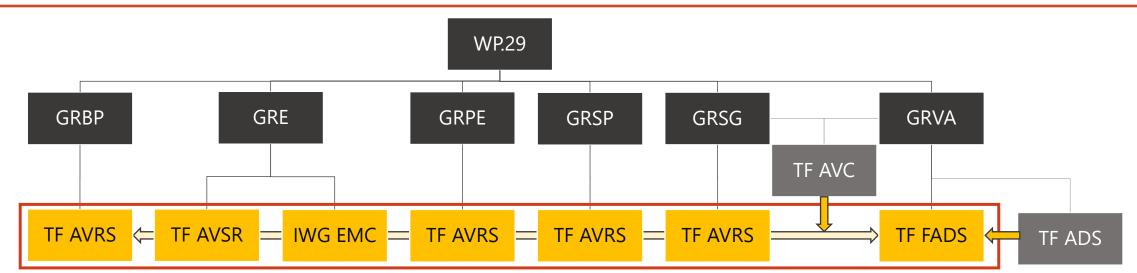

Informal document **WP.29-192-17** 192nd WP.29, 5 to 8 March 2024 Agenda item 2.3

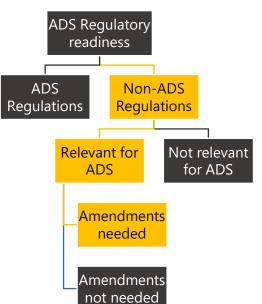

Regulatory fitness for Automated Driving Systems

Status report

GRBP TF AVRS — GRE TF AVSR — GRE IWG EMC — GRPE TF AVRS — GRSG TF AVRS — GRSP TF AVRS — GRVA TF FADS

Context and purpose (1/2)

- Expert groups on regulatory fitness for ADS
 - Contracting Parties and the industry need a regulatory environment for automated vehicles, including non-ADS Regulations
 - Which existing Regulations are relevant for automated vehicles? Which ones need to be amended before being applicable to ADS vehicles?
 - The WP.29 expert groups on regulatory fitness for ADS are screening and amending these relevant UN Regulations and GTRs 2

Context and purpose (2/2)

Report to WP.29 (WP29/2023/86):

- Contains global results, summary sheets for each screened Regulations
- Adopted by WP.29 (and GRVA/2023/18 endorsed by GRVA)
- Has been updated and submitted as an informal document to the 192nd session of WP.29

Guidance received from WP.29 in June 2023

- All groups may start drafting amendments to proposed "priority Regulations"
- The groups shall propose a timeline for amending relevant regulations at WP.29 in March 2024
- **Coordination** between groups shall continue for common definitions, translations and solutions to cross-GR issues

Individually

- GRBP TF AVRS started its detailed analysis of changes required in priority Regulations
- GRE IWG EMC and GRE TF AVSR submitted working documents (R10 and R48) to the 89th and 90th sessions of GRE
- GRPE TF AVRS completed the screening of most Regulations under its purview
- GRSG TF AVRS started the process of identifying amendments for R107
- GRSP TF AVRS started the classification of required changes and the identification of stakeholders to consult (WP.1, WP.15)
- GRVA TF FADS submitted working documents (R13, R13-H and R79) at the 18th session of GRVA (adopted)

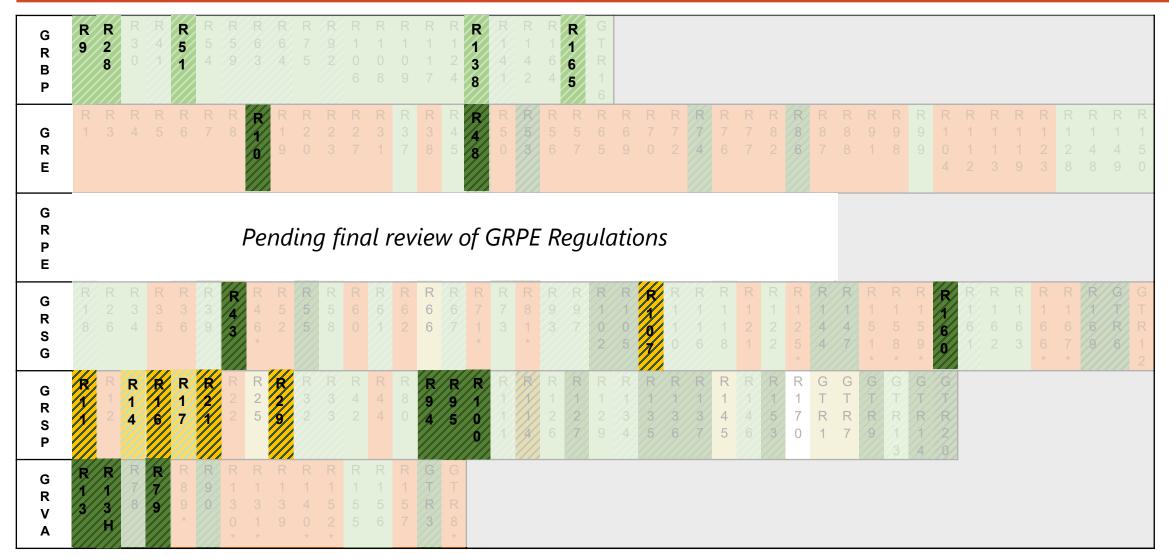

Collectively

- Re-submission of the original report WP29/2023/86 with translation as GRVA/2023/18
- Joint meeting to discuss common topics in Paris, France on 16–17 October 2023
- Active support to the GRSG/GRVA joint task force on automated vehicle categories

Reminder on screened Regulations – Updated screening results

Reminder on screened Regulations – Priority Regulations

Internal factors

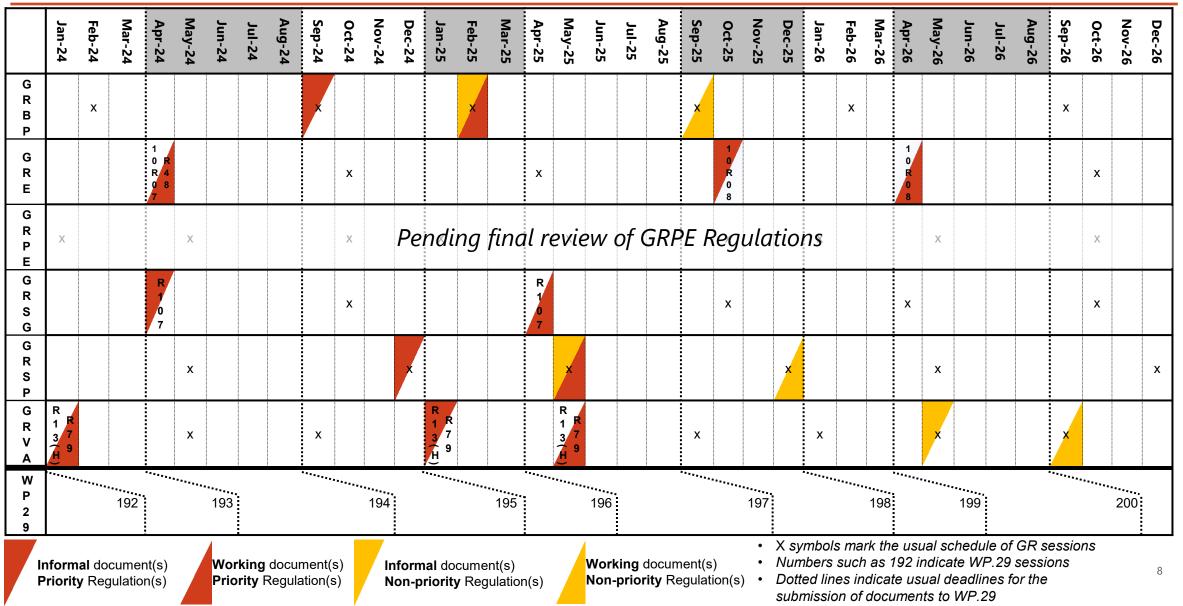

- The availability of experts on each relevant Regulation and on ADS technology is limited
- Some Regulations require interactions between the GR expert group and the IWG/TF on that specific Regulation
- Multiple testing protocols must be reworked
- Common tools (such as technical translations) can now be built based on the first amendment proposals, such as those adopted at the 18th GRVA session in January 2024.

External factors

- Work of GRSG/GRVA joint task force on **automated vehicle categories** started in 2024
- UN Regulation and GTR on ADS expected in 2026

Proposed timeline — 2024 to 2026

(below is a tentative timeline; the schedule of meetings, and adoption of working documents, is the prerogative of WP.29 and its subsidiary Working Parties)

Planned joint activities

- Increased frequency of **online joint meetings** to:
 - Share progress
 - Check amendment proposals
 - Consolidate technical translation guidelines
- At least one **in-person joint meeting** in 2024 for coordination of work, discussion on open issues and preparation of deliverables
- Proposed date of next update to WP.29: **194th session in November 2024**
 - Main deliverable: guidelines on technical translations
