

Fraguva Energy (SME)

UNRMS Case Study

RESOURCE MANAGEMENT WEEK
2024

UNECE

Fraguva Energy

Company based in Mexico, founded on February 15th, 2020.

Mission

We provide strategic, regulatory and technical support in the planning and identification of opportunities in the oil and gas industry and sustainable management of energy resources.

Vision

To be a leading firm known for its ability to create business opportunities and maximize value to contribute to sustainable growth and improvement in the oil and gas industry.

On the road to sustainability

In search of aligning with best sustainable practices, established by UN under the UNRMS methodology, to achieve sustainability within our company and to transmit sustainable management of energy resources.

First Steps Towards Sustainability

First alliance with ICE-SRM

Based on the implementation of tools such as the United Nations Framework Classification for Resources (UNFC) methodology and the United Nations Resource Management System (UNRMS).

17 PARTNERSHIPS FOR THE GOALS

Internships program at UNAM

For Engineering students or graduates.

Other alliances

With V&P-GEO to attend hydrocarbon reserves matters and with UVX for issues related to Hydrocarbon Measurement Management Systems.

17 PARTNERSHIPS FOR THE GOALS

Glossary of terms

Contractual, regulatory, technical and geological aspects of the oil industry, as well as terms related to sustainability and business management, aiming to contributing to and disseminating knowledge to all those interested in the oil sector.

Cleaner work alternatives

By working remotely, GHG emissions associated with the transportation of team members are reduced.

13 CLIMATE ACTION

Gender balance

Equal treatment and access of team members to opportunities is promoted through our "Code of ethics".

DPI's conversion tool

Useful for oil operators during the elaboration of their programs or plans.

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

Decent work

Providing employment opportunities for young people, aligned with their profession.

Work tools

Creation of more than 67 useful tools for information analysis, systematization and automation of processes and decision making.

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

Decent work

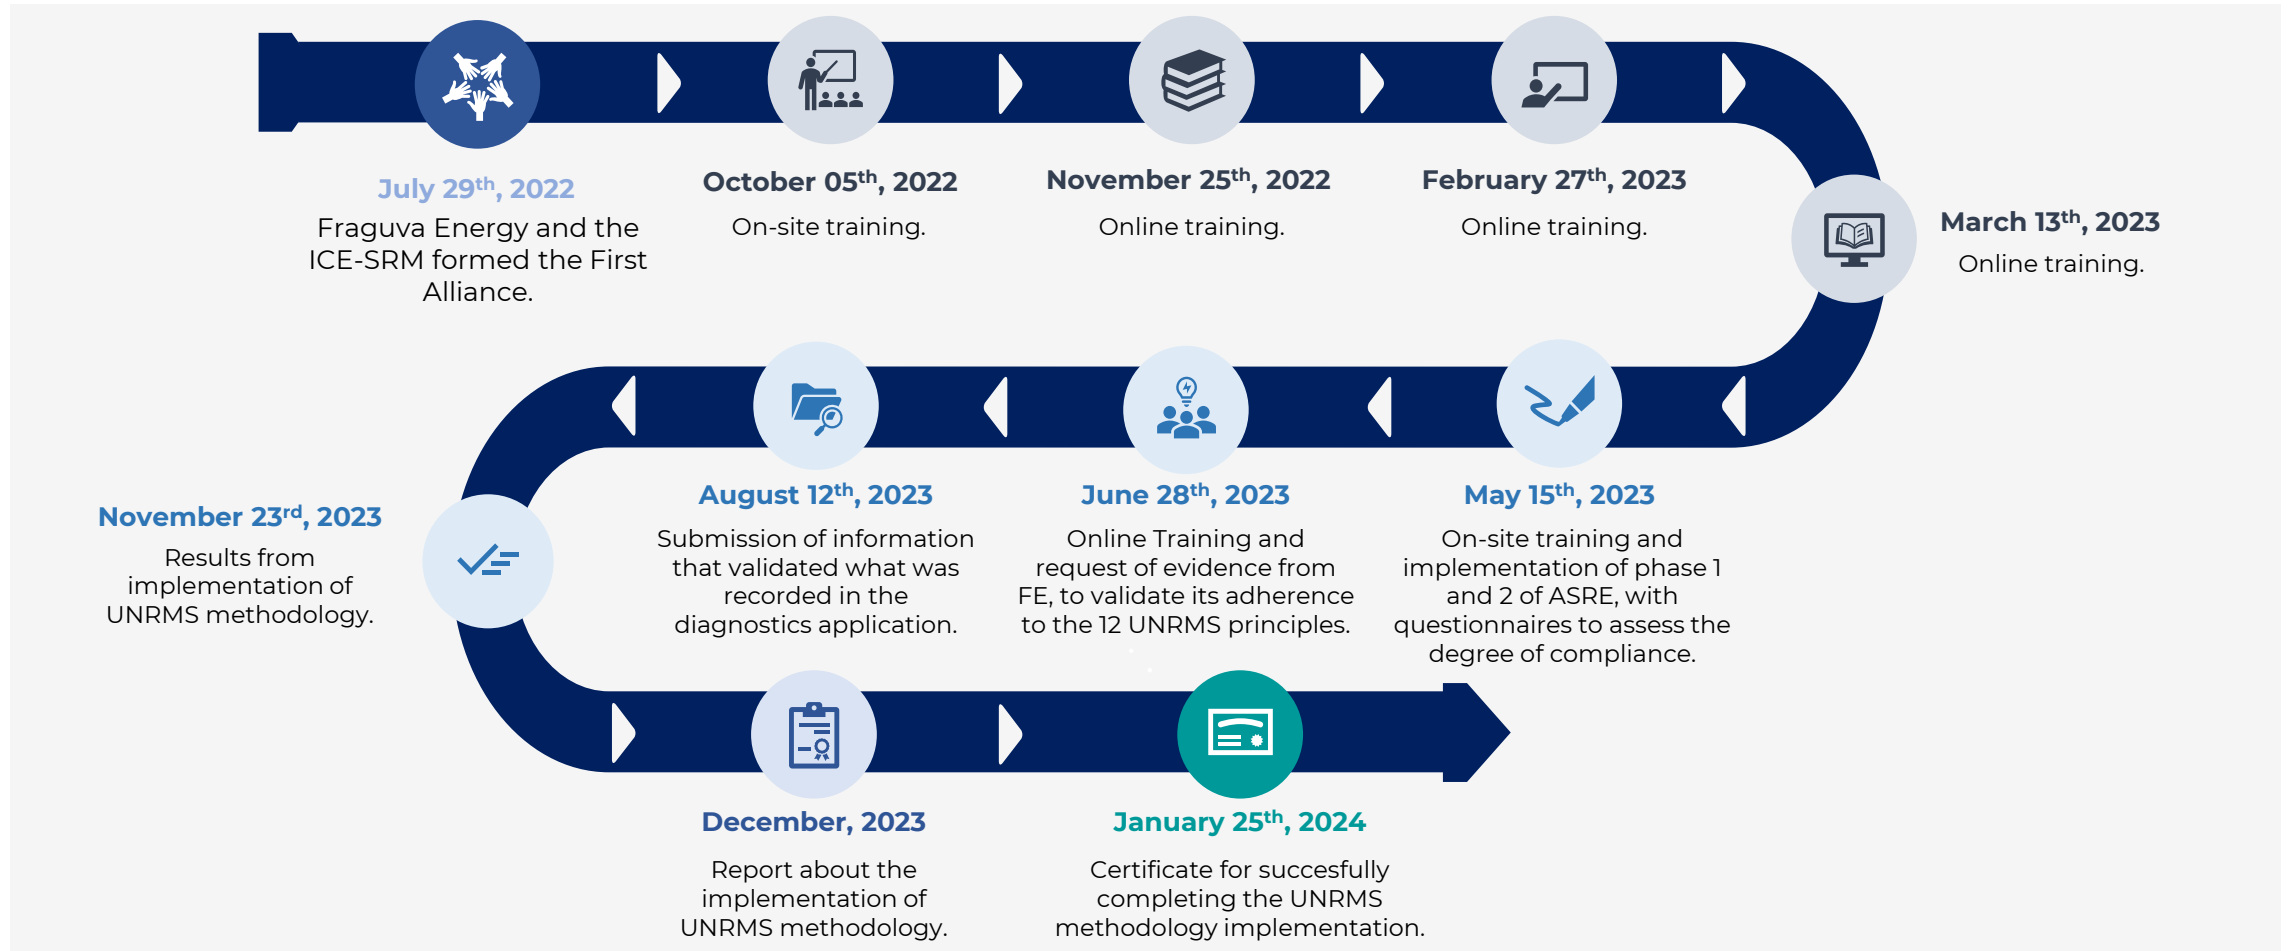

Providing employment opportunities for young people, aligned with their profession.

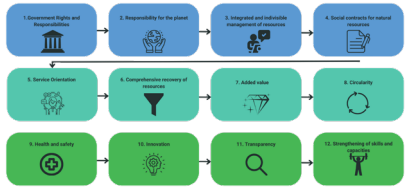

SUSTAINABLE DEVELOPMENT GOALS

Partnership: ICE-SRM & Fraguva Energy

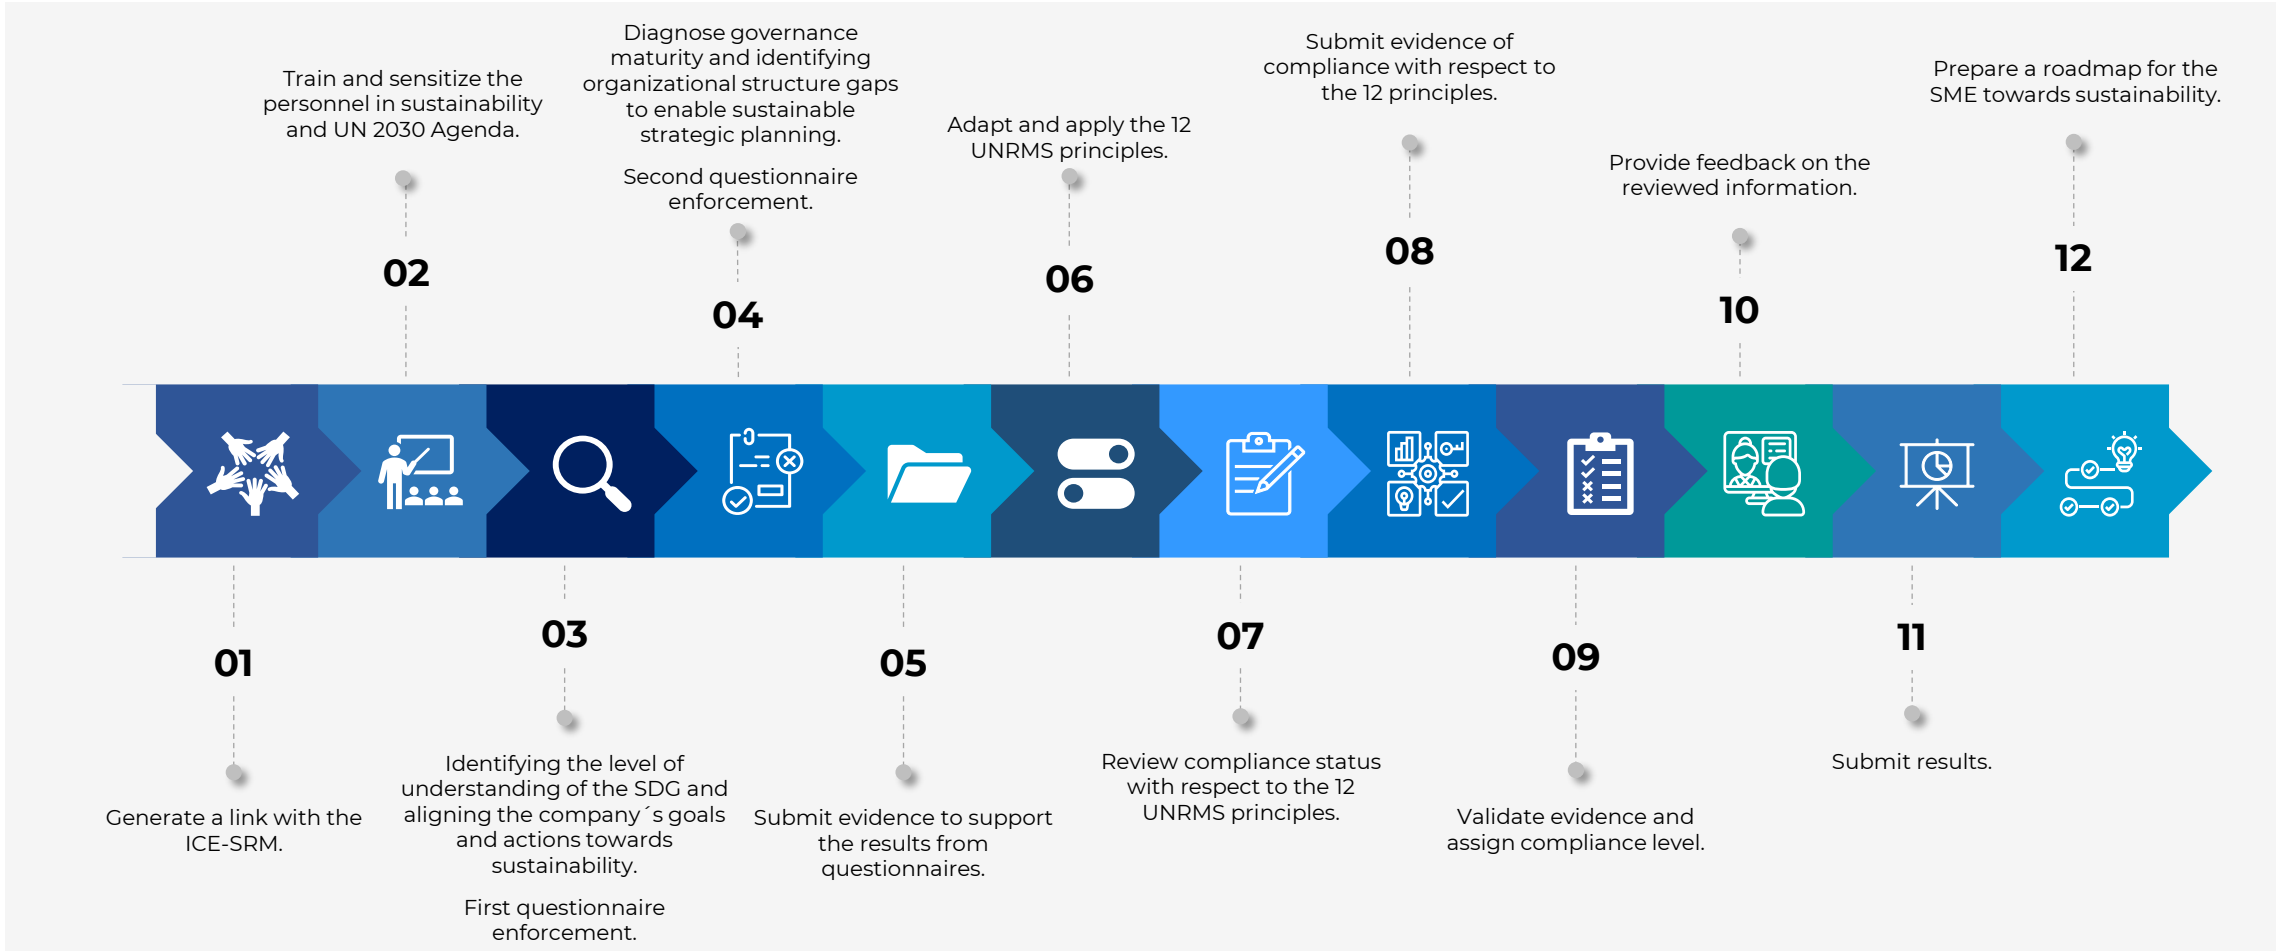

Activities implemented

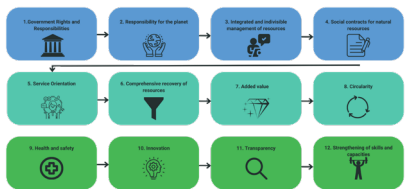

Implementation of UNRMS Methodology

Steps

Implementation of UNRMS Methodology
