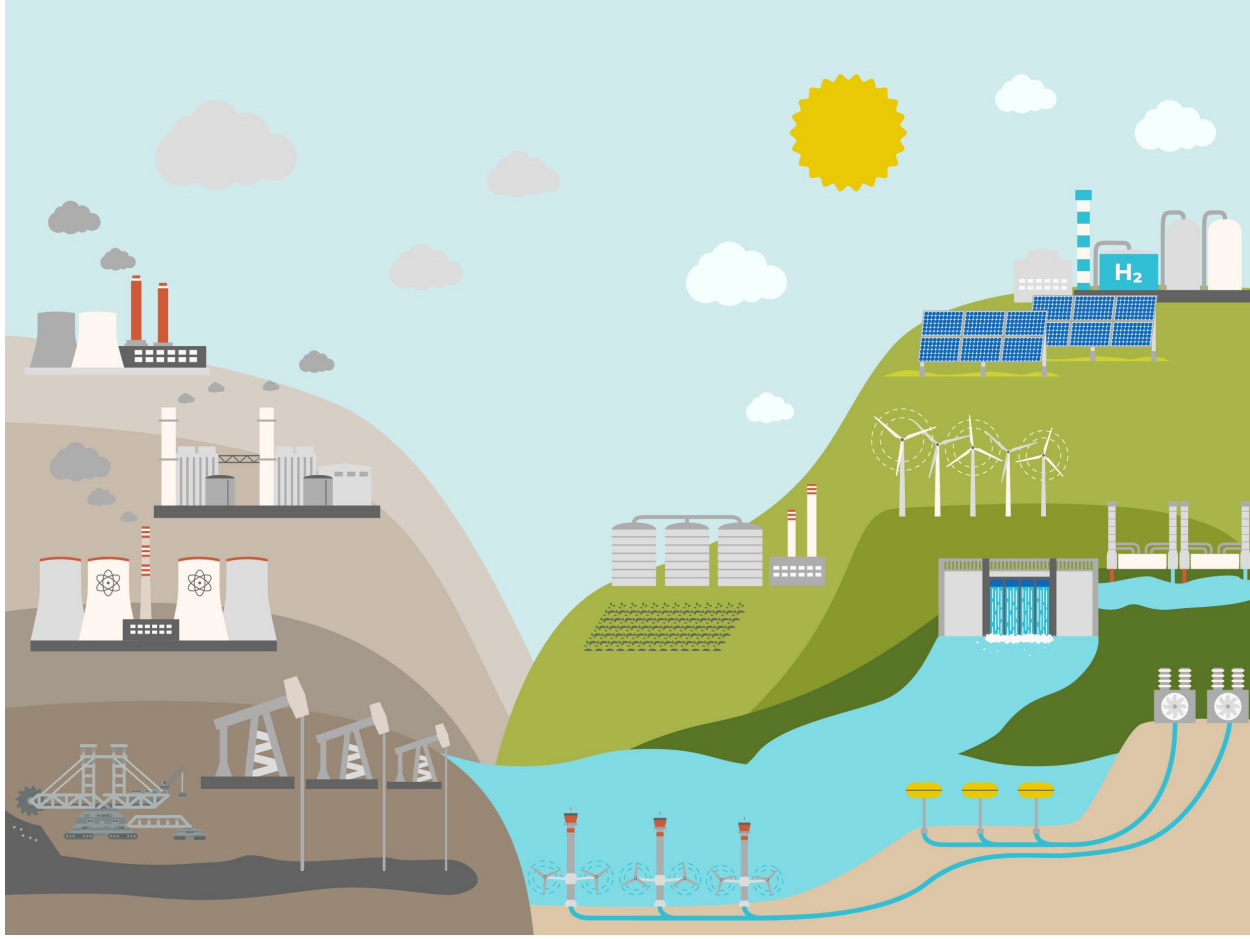
Panel 4:

Consistency and Quality Assurance in Classifying

Slavko Solar,
Economic Affairs Officer,
Sustainable Energy Division,
UNECE



RESOURCE MANAGEMENT WEEK
2024

UNECE

Panel 4:

Consistency and Quality Assurance in Classifying

Background:

- Rapid UNFC developments in Europe and beyond
- Scattered UNFC activities

Aim:

- To open topics of future

Expected outcome:

- Sharing future topics

Panel Topics:

Consistency and Quality Assurance in Classifying

- **Understanding Consistency** (Reliable data and decision making, comparison across projects, regions, and nations, lack of consistency leads to inaccuracies in resource classifications, inventories...)
- **Importance of Quality Assurance**
- **Challenges within use of UNFC** (User-oriented, Tailored based on Project, Resources, National specifications)
- **Training and Capacity building** (Standardization, starting at universities?)

Panelists:

Consistency and Quality Assurance in Classifying

- Consistency - **Meta Dobnikar,** *Head of Unit*, Geological Survey of Slovenia
- Quality Assurance – **Alistair Jones,** *Chair*, EGRM G axis Task Force
- UNFC in higher education - **Jari Joutsenvaara**, *Project Coordinator*, University of Oulu

Panel 4:
Consistency and Quality Assurance in Classifying
