# Outline

- **Market Surveillance In Türkiye**
  - Legal Framework
  - Organisational Infrastructure
- **Role of Ministry of Trade**
  - Technical Regulations
  - Inspection Activities

# Background

## Product Safety and Market Surveillance System In Türkiye

- *Legal Basis*

After the adoption of Customs Union Agreement in 1995, Türkiye has committed to harmonise its legislation with the EU aquis regarding product safety and comformity assessment.

In 1997 with the Decree of the Council, public authorities have been designated to harmonise product safety regulations and enforcement.

# Organisational structure

MSAs	Products
Ministry of Trade	<b>Toys, child care articles, textile, footwear, detergents, accessories, stationery, food imitation, window blinds, toothbrush, baby diapers, etc.</b>
Ministry of Industry and Technology	ATEX products, pressure and electrical equipment, energy efficiency, machinery, motor vehicles, measuring instruments, pyrotechnics etc.
Ministry of Health	Cosmetics, medical devices...
Ministry of Agriculture and Forestry	Foodstuffs, food contact materials, plant protection products, medical products for veterinary use, tobacco products and ethyl alcohol
Ministry of Environment, Urbanization and Climate Change	Construction products, solid fuels
Information and Communication Technologies Authority	Radio and telecommunication terminal equipment.
Ministry of Labour and Social Security	Personal protective equipment
Ministry of Transport and Infrastructure	Recreational crafts, marine equipment, transportable pressure equipment
Energy Market Regulatory Authority	Fuels

# Product Safety Legal Framework

## Horizontal legislation- Outlines the general framework for product safety

- Law No. 7223 on Product Safety and Technical Regulations
- Framework Regulation on Market Surveillance and Inspection of Products
- The Regulation on General Product Safety
  - Descriptions of public authorities' power and responsibilities, economic operators, conformity assessment bodies and notified bodies obligations,
  - Traceability,
  - Product liability, if a product causes damage to a person or a property, the producer or importer of this product is obliged to repair the damage. If more than one producer or importer is responsible for the damage caused by the product, they are jointly and severally liable.
  - Market surveillance of the products sold online,
  - Penalties and measures
  - CE marking.

## Vertical legislation- Technical regulations- Authorities

## MARKET SURVEILLANCE AND INSPECTION

IMPORT
