

Thematic SDG products

Experimental SDG statistics website
and SDG Reports

Aleksandra Kubecka
Statistics Poland

Thematic SDG products – why do we need them?

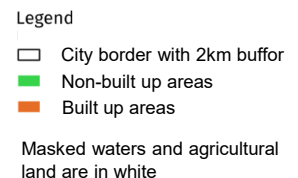

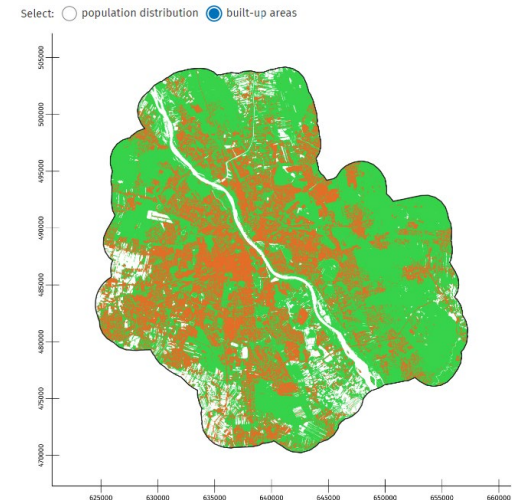

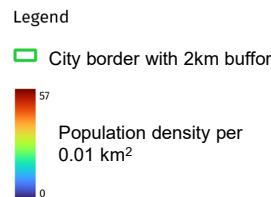

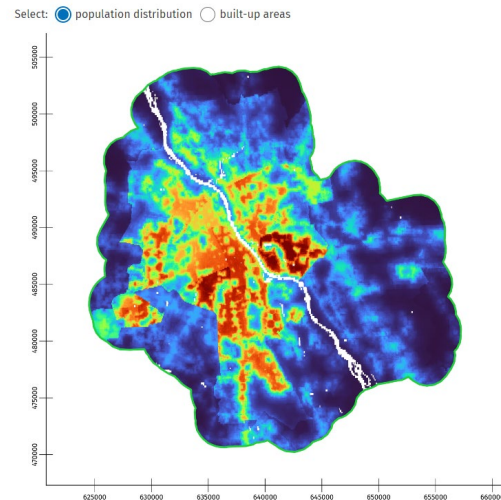

- **Catering for the needs of different users**
 - Some users interested in data -> SDG NRP
 - Some in analytical commentary on data -> **Annual SDG Reports**
 - Some in more advanced options and specific data -> **Experimental SDG statistics website**

Statistics for the SDGs – global indicators

Experimental SDG statistics – how did we start?

- 9.1.1 Proportion of the rural population who live within 2 km of an all-season road
- 11.3.1 Ratio of land consumption rate to population growth rate
- 11.7.1 Average share of built-up area of cities that is open space for public use for all

Experimental SDG statistics

Welcome to the experimental SDG statistics website

Here you can find indicators that we calculate using innovative methods and integrated data sources. They do not constitute official data but supplement the results of statistical research. Experimental indicators allow us to obtain a fuller picture of the implementation of sustainable development in Poland.

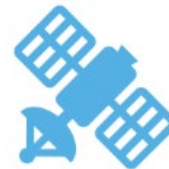

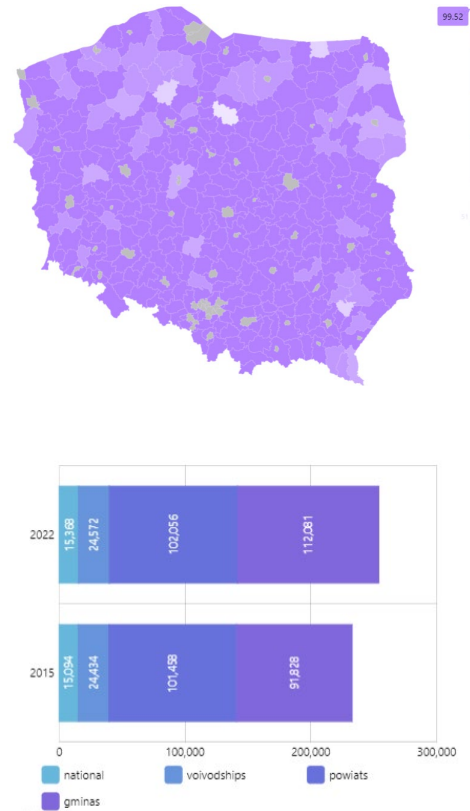

Follow our website – we will soon be adding further results of the experimental work for other SDG indicators.

Click Goal to continue:

What can you expect?

- Maps
- Interpretation
- Context indicators
- How we calculated them
- Data sources
- Meaning for sustainable development

What's next?

- Further website development
 - City comparisons
- New topics and indicators
 - Soon – indicator 11.2.1 on public transport
 - More granular data for 9.1.1
 - Then – working on indicators for Goal 15 on biodiversity
