# TABLE OF CONTENTS

**01 Introduction** | Importance of performance indicators measurement

**02 Case Study** | Population Census  
Agricultural Census

**03 Benefits** | Power of performance measurement

**04 Challenges** | Privacy, Accuracy, Security

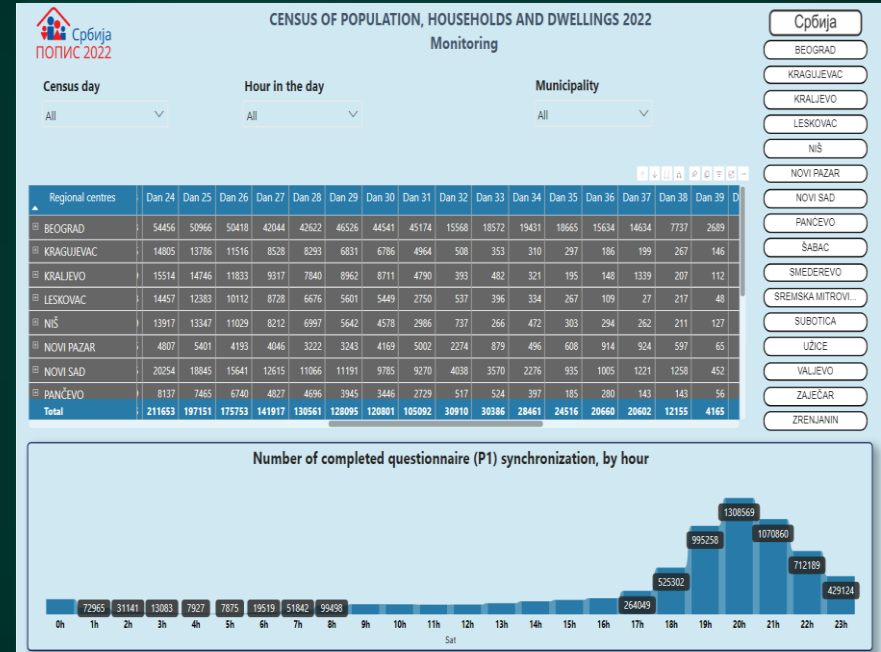

**05 Conclusions** | Lessons learned

- ▷ Crucial factor for efficient and accurate analyses
- ▷ Harnessing performance indicators
- ▷ Transformation of statistical methodologies
- ▷ Navigating complex data environments
- ▷ Unlocking new insights and opportunities

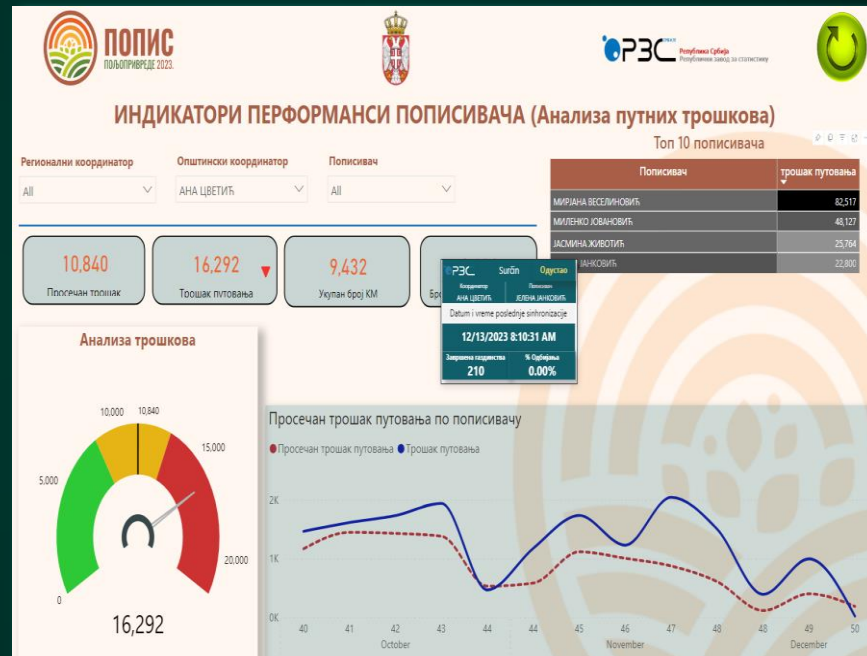

## 02 Case Study | Population Census

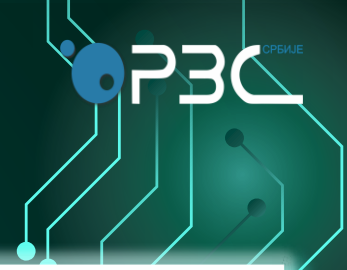

- ▶ Monitoring of over 15,000 enumerators to track the dynamics of their activities
- ▶ Application developed on Power BI platform
- ▶ Real-time monitoring of enumerator activities
- ▶ Detailed data analysis and reports for informed decision-making

## 02 Case Study | Agricultural Census

- ▷ Application developed on PowerApps platform
- ▷ Specific method for tracking performance and outcomes
- ▷ Interactive dashboards and reports for informed decision-making
- ▷ Application for enumerator travel orders
- ▷ Special attention focused on analyzing enumerator performance

- ▷ Identification of efficient practices and areas for improvement
- ▷ Optimal results in survey implementation
- ▷ Addressing respondent concerns and needs
- ▷ Precise tracking and evaluation of performance
- ▷ Identification of areas for improvement through performance analysis
- ▷ Optimization of work processes for better survey implementation results

# 04 Challenges

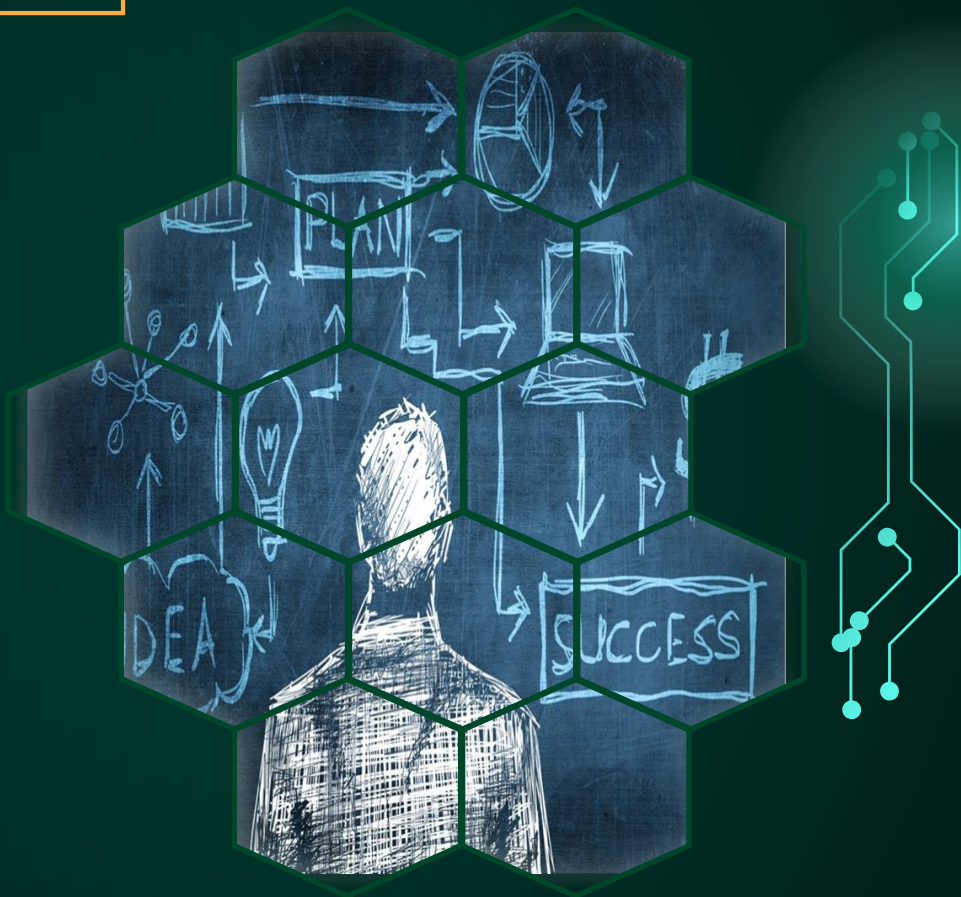

Privacy, Accuracy, Security

- ▷ Accuracy and reliability challenges in metrics
- ▷ Determining appropriate indicators
- ▷ Data protection and security
- ▷ Interpreting complex performance data
- ▷ Subjective assessments

- ▷ Significance of performance indicators in statistical practices
- ▷ Positive outcomes in Population and Agricultural censuses
- ▷ SORS' commitment to performance management and analytics
- ▷ Diverse benefits of performance measurement
- ▷ Addressing challenges for effective implementation

Statistical Office of the Republic of Serbia

Imagine the full potential of performance  
measurement indicator:

**What is your approach to use it?**
