

TREES IN DRY CITIES COALITION

A transformative journey toward sustainable urban development

Facilitated by the United Nations Economic Commission for Europe (UNECE), the Trees in Dry Cities Coalition is an unprecedented initiative in collaboration with Leading Sustainability Partners, drawing from the successful experiences of the Trees in Cities Challenge and the Tree Policy Action Lab (Tree-PAL)

PROMOTING URBAN TREES AS A NATURE-BASED SOLUTION IN DRY CLIMATE

PILLARS OF COLLABORATION

JOINT OUTREACH AND MESSAGING

- Coordinated input to key events and international processes
- Outreach materials

ENHANCE KNOWLEDGE, AWARENESS AND CAPACITY

- Assessment
- Capacity Building
- Develop tools (e.g. to support implementation capacity)

DELIVERING TREES IN DRY CITIES

- Resource mobilization
- Identify opportunities for collaboration (e.g. national or city pilots/projects)
- Develop policy guidance and recommendations

WHY JOIN?

- **GLOBAL IMPACT:** Be part of a global movement that addresses climate resilience, biodiversity, and sustainable cities
- **COLLABORATIVE NETWORK:** Access a collaborative network, engaging major partners and diverse stakeholders
- **INNOVATION HUB:** Gain insights into cutting-edge policies, tools, and technical assistance
- **POLICY INFLUENCE:** Influence local and national policies
