

UNECE

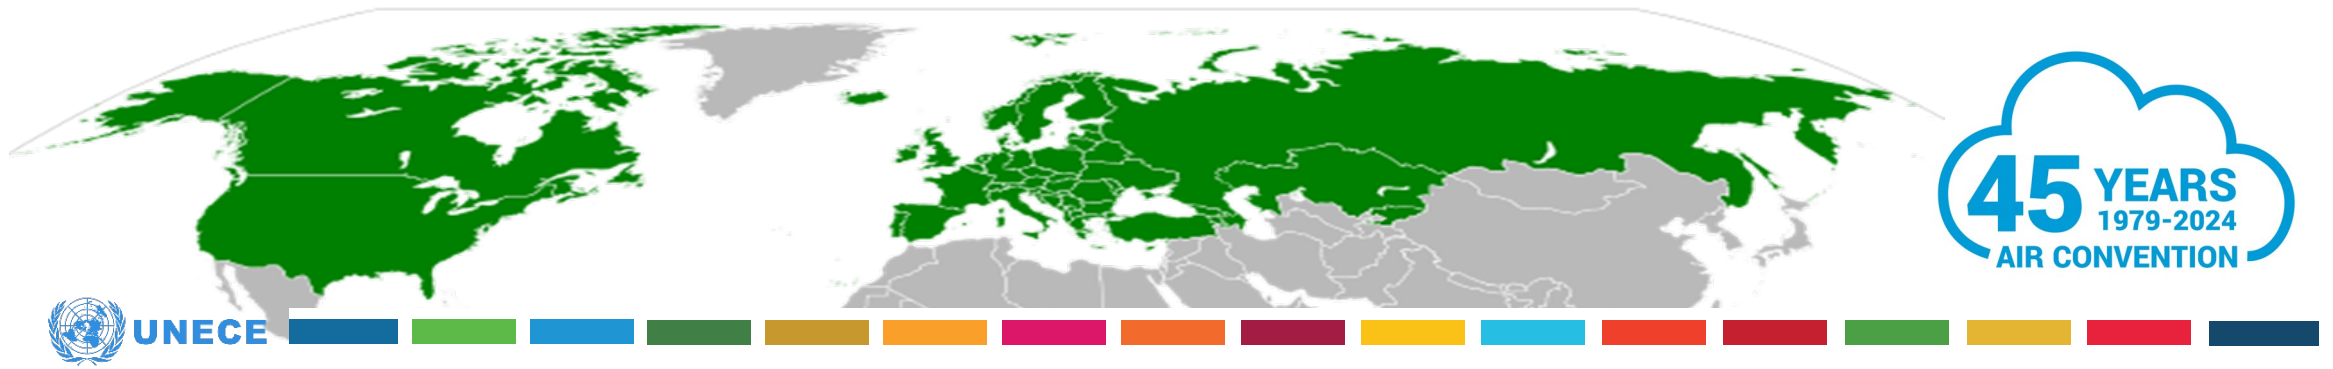

Emission reporting under the UNECE Convention on Long- Range Transboundary Air Pollution

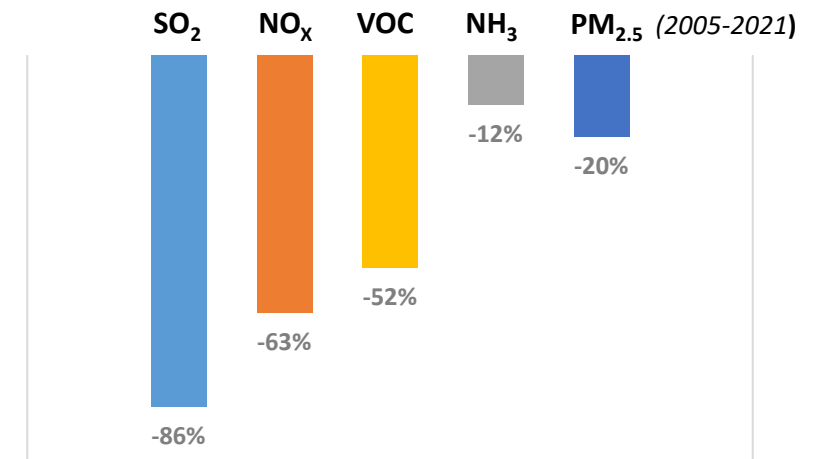

- Air Convention
- Role of emission inventories in AQM
- Emission reporting obligations
- Reporting by Armenia
- eLearning course
- Quiz questions

- Signed in 1979, entry into force in 1983
- First international treaty to deal with air pollution on a broad regional basis
- 51 Parties in the UNECE region
- Setting emission reduction targets through its protocols
- Science-policy interface: monitoring, modeling and effect-oriented programmes
- Monitoring compliance of Parties
- Capacity-building and awareness-raising

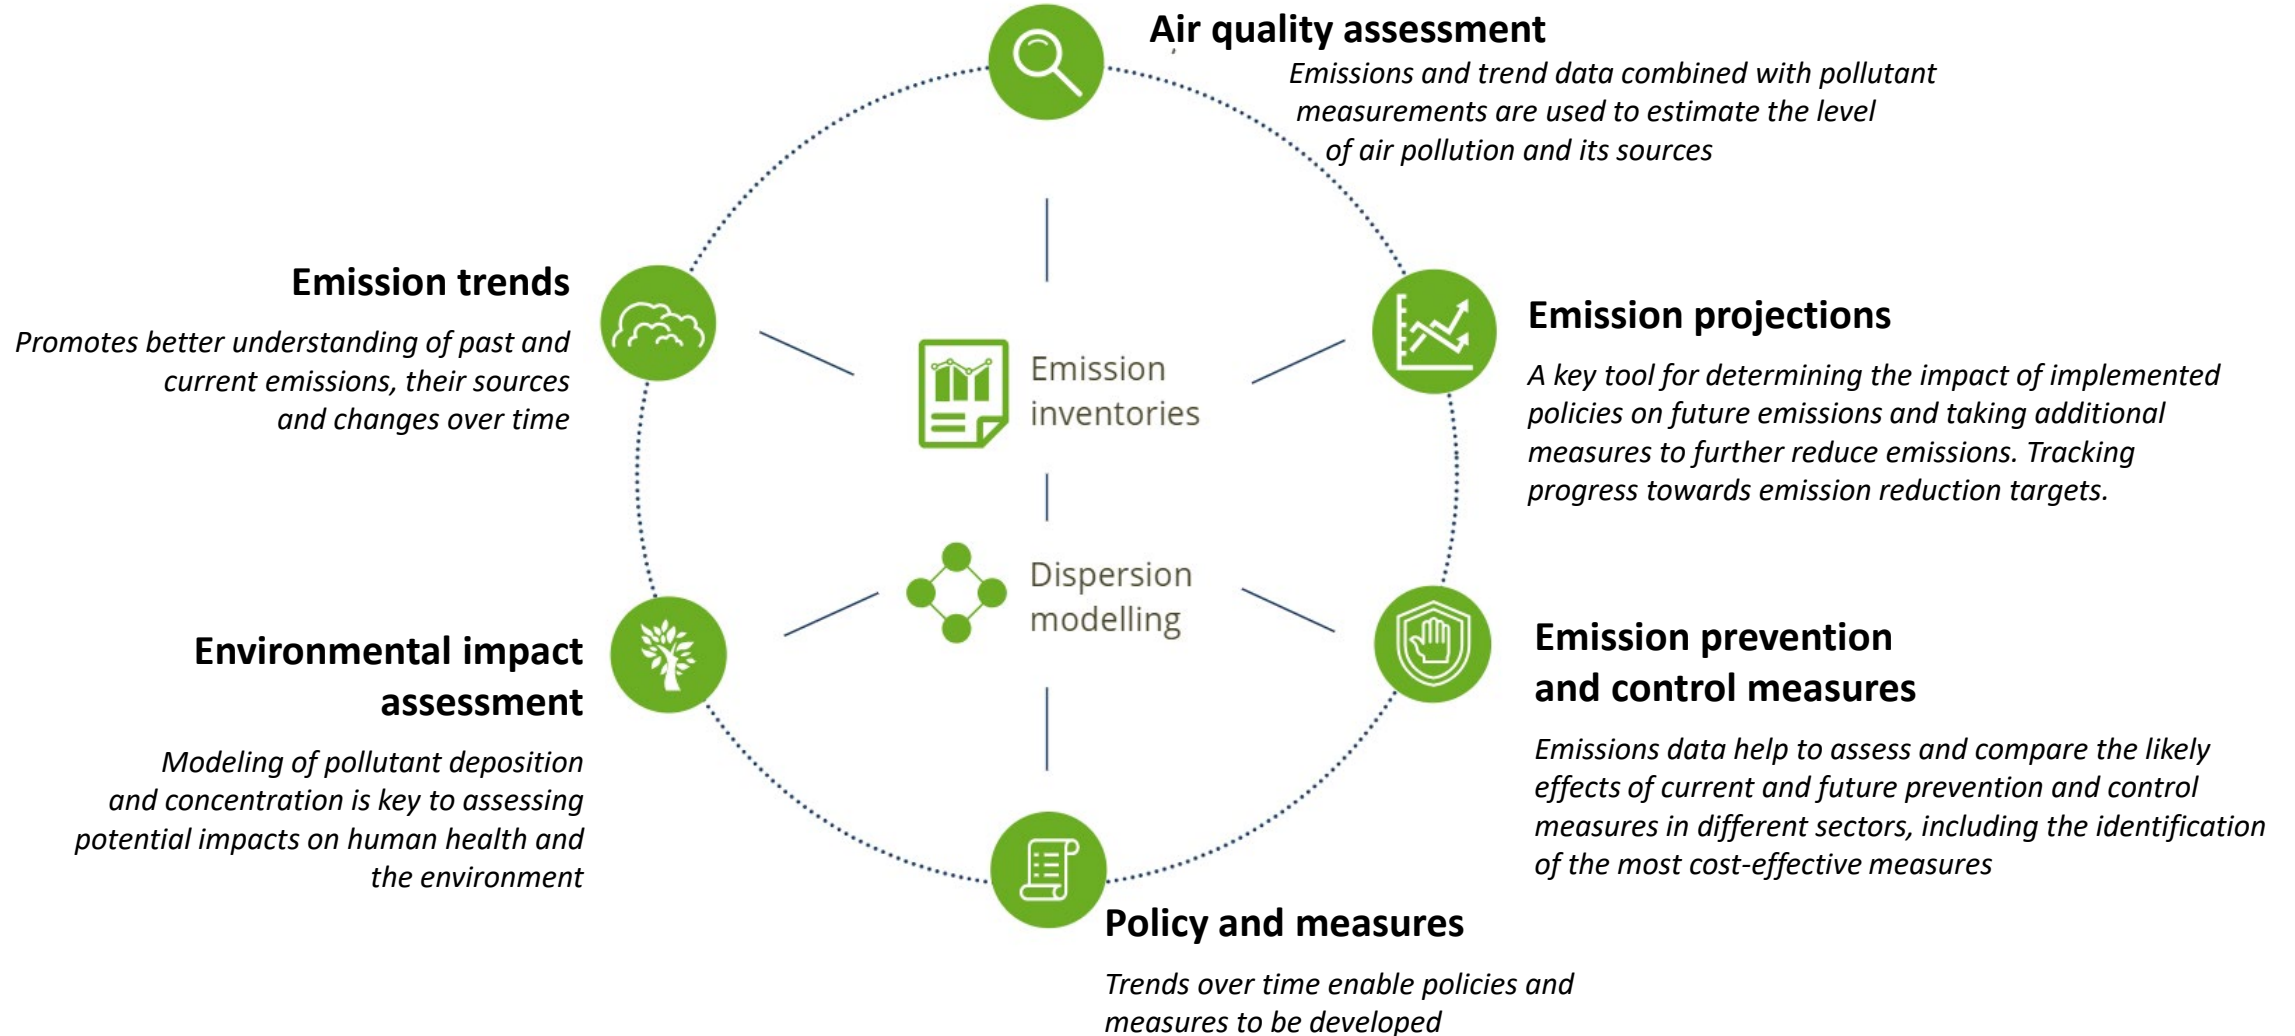

EMISSIONS REDUCTION IN ECE REGION (1990-2021)

UNECE

Emission inventory's role in AQM

Emission reporting, templates and periods

	Reporting type	Deadline	Description	Annex
Annual reporting	Nomenclature for Reporting (NFR)	15 Feb	National totals, NFR sector emissions and activity data	Annex I
	Informative Inventory Report (IIR)	15 March	Description of the data sources and methodologies applied	Annex II
	Notification form	15 Feb	To inform the UNECE Secretariat of the contents of the data submission	Annex III
Four-yearly reporting	Gridded Nomenclature for Reporting (GNFR)	from 2017 by 1 May	Gridded aggregated NFR sector emissions data	Annex V
	Large Point Sources (LPS)	from 2017 by 1 May	Large point sources data for each relevant aggregated NFR sector	Annex VI
	Projections	from 2015 by 15 March	Projected national sectoral, total emissions and activity parameters	Annex IV

Submission of emission data by Armenia

Workshops organized in Armenia

E-learning course on how to report emissions under the Air Convention

Module 1: Purpose and scope of emission inventories

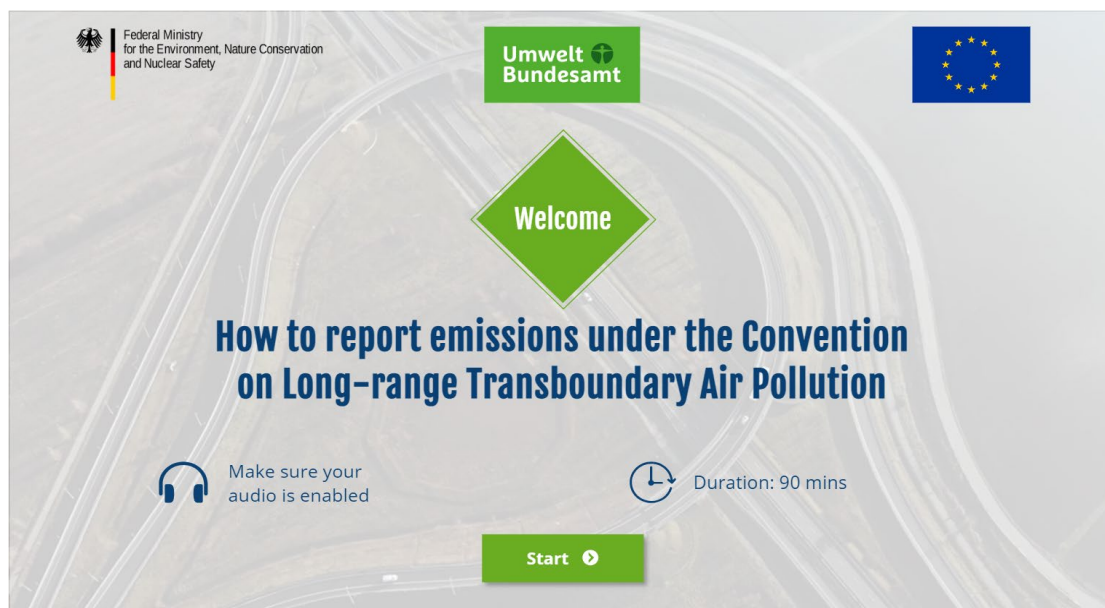

Module 2: Reporting process and templates

Module 3: Emission estimation methods

 Self-paced course

 1.5 hours

 [English](#) and [Russian](#)

Aim of the course

- Assist countries in addressing air pollution and develop emission inventories
- Explain the importance of emission inventories for clean air policy development
- Explain the reporting process and requirements
- Explain methods for emission estimation

E-learning course on the Air Convention and its protocols

Module 1: The Air Convention

Module 2: The Gothenburg Protocol

Module 3: The Protocol on Heavy Metals

Module 4: The Protocol on POPs

 Self-paced course

 3.5 hours

 [English](#) and [Russian](#)

Aim of the course

- Assist countries in addressing air pollution
- Improve air quality management
- Raise awareness on air pollution and its effects
- Improve learners' understanding of ways to prevent and reduce harmful emissions
- Promote Convention and its protocols as an international framework for cooperation on cleaner air

The UNECE Convention on Long-Range Transboundary Air Pollution is a ...

Global
Convention

Regional
agreement

Bilateral
agreement

Emission inventories are key in developing clean air policies at national and international levels

True

False

What is submission frequency for data on gridded emissions and large point source ?

every 4
years

every 2
years

every year

UNECE

Thank you!
