

# eTIR International System Interconnection projects

TIR Technical implementation Body (TIB)  
seventh session, 4 June 2024  
TIR secretariat – Geneva

# Interconnection projects

## Interconnection projects

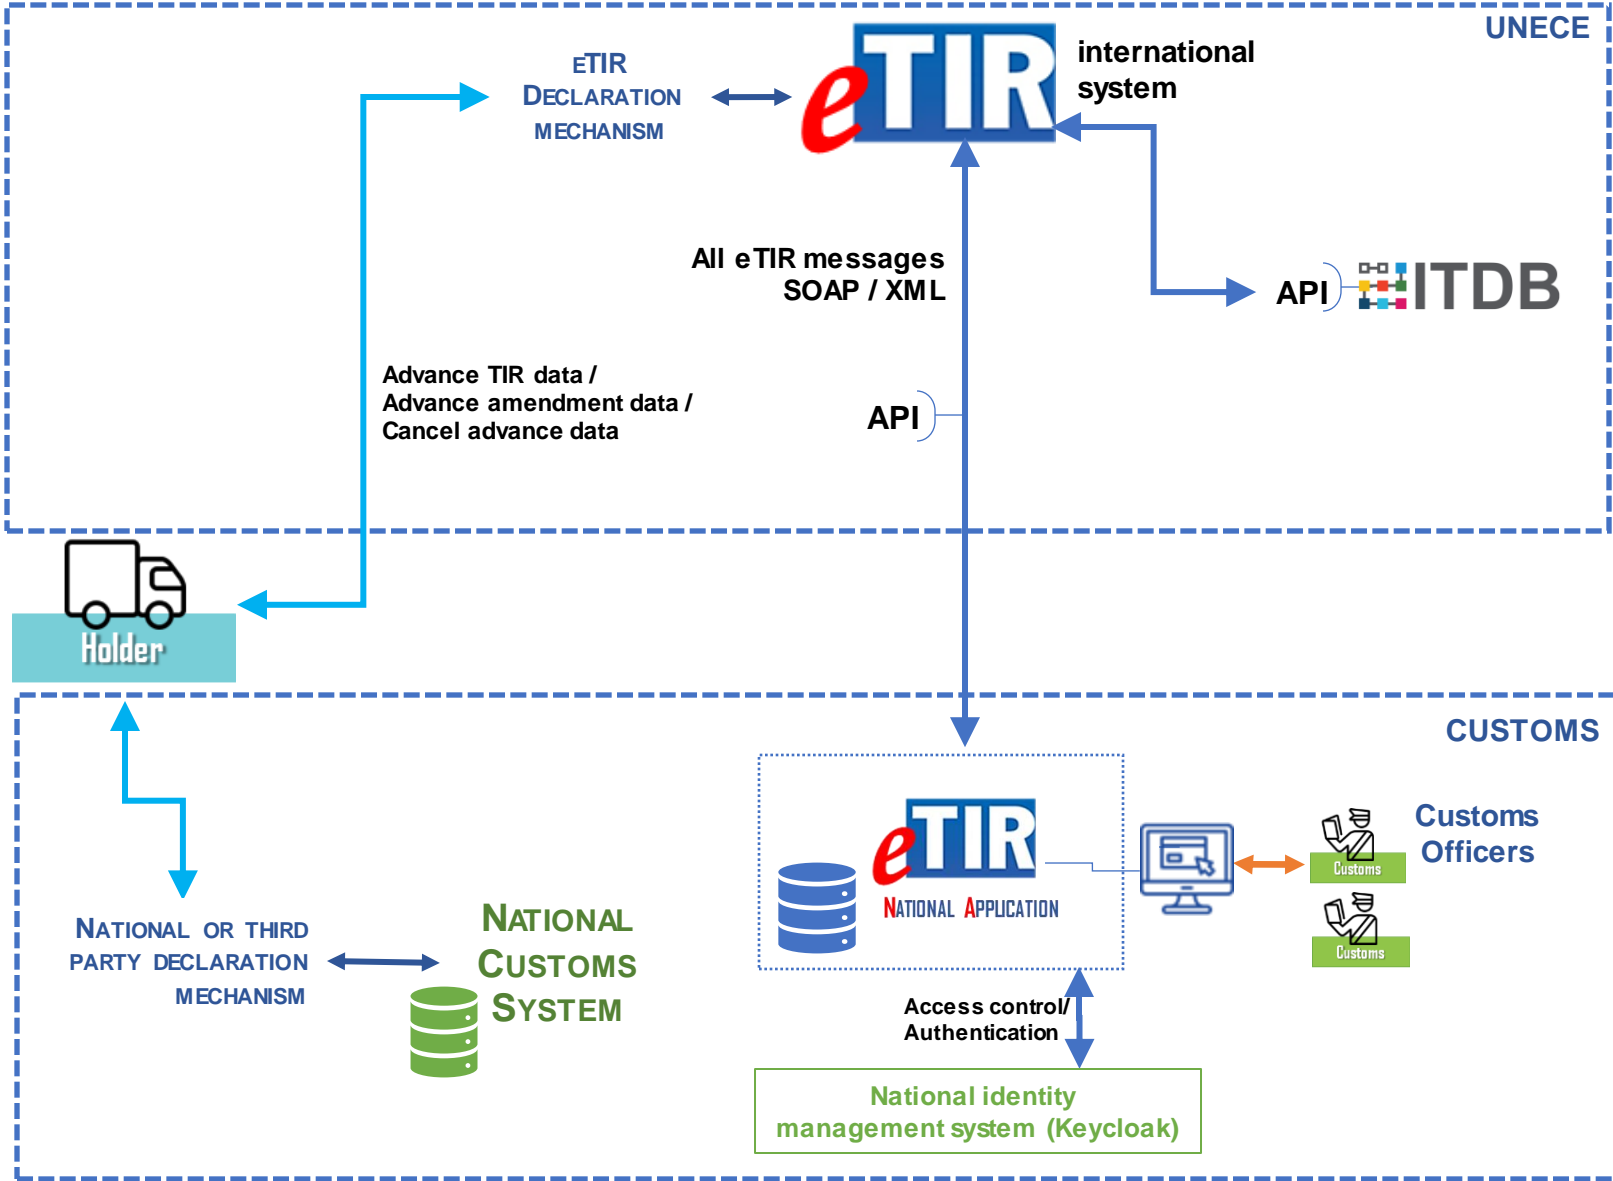

- Received draft reports on the gap analysis of Customs Systems and eTIR International System from experts from Kazakhstan and Kyrgyzstan. A draft report from Tajikistan is pending:
  - Consultations were held between the experts and the TIR Secretariat where potential solutions were identified.
  - The experts are now in the process of finalizing the reports for their respective countries.
- India expressed their interest to start using the eTIR national application.
- Iran has become the 6th country to accede to the eTIR connected group (Azerbaijan, Georgia, Pakistan and Uzbekistan):
  - During our recent visit to the Iranian Customs Service (IRICA), TIR secretariat installed the eTIR National Application (eTIR NA) on premises as a standalone application and provided a 3-day training course for Iranian customs officers and IT specialists.
  - This application provides free of charge all the necessary means for Customs authorities to connect their national system to eTIR.

# Standalone application

## Standalone application:

- eTIR NA installed on Customs servers as a standalone application.
- Customs officers will use the eTIR NA user interface in order to implement the eTIR procedure.
- There will be no connection with your national customs system.

- **Terms of reference**

- The secretariat is presently working, in collaboration with the UN administration and the legal office on the legal framework with respect to the provision, at no-cost, of the eTIR National Application.

- **Security assessment**

- Currently working on the security assessment exercise with our colleagues from UN OICT Valencia. This work should be finalized shortly.

- **eTIR NA status**

- eTIR National Application Rest API completion progress 100%.
