26. [Jelena Tadic](#)
27. [Ayse Taspinar](#)
28. [Maryia Usik](#)
29. [Julija Vasiljevaska](#)
30. [Doreen Wong](#)

¹ The people in this list received training by the UNECE secretariat in the use of the PIERS methodology. Please note that being included in the roster is not a guarantee of work. The UNECE secretariat will contract individuals from the roster to carry out project evaluations and peer reviews based on several factors, including the availability of funding, the need for service, the availability of the practitioner, the practitioner's past performance (relevant for practitioners who may receive more than one contract), geographic location, and factors of diversity such as gender. UNECE is under no obligation to contract work to all individuals on the roster or to spread work evenly amongst those on the roster.
