NESREEN AL-KHAMMASH
DIGITAL LEARNING TEAM LEADER
INTERNATIONAL ORGANIZATION FOR STANDARDIZATION (ISO)

SPEAKER BIOGRAPHY

Nesreen Al-Khammash is the Digital Learning Team Leader at the International Organization for Standardization (ISO), based in Geneva, Switzerland. She holds a Bachelor of Science degree in Chemical Engineering from the Jordan University of Science and Technology (JUST).

With extensive experience in international development, Nesreen has a solid background in providing technical assistance and training services related to standardization infrastructure in more than 30 countries. She is currently responsible for the implementation of ISO’s Digital Learning Solutions strategy to enhance the digital learning and development capabilities of ISO members, as well as the development of the ISO Digital Capability Maturity Assessment Model.

She has strong management and leadership skills with a proven track record of working in multicultural environments at national and international levels.
