

# TOBIAS DIERGARDT

## PROJECT COORDINATOR

PHYSIKALISCH-TECHNISCHE BUNDESANSTALT (PTB)

### SPEAKER BIOGRAPHY

Tobias Diergardt studied human geography in Münster, Germany and Glasgow, Scotland and holds a masters degree in international humanitarian action.

He joined the German metrology institute (Physikalisch Technische Bundesanstalt, PTB) in 2008 as a project coordinator.

Besides managing the cooperation project with the African Union, he is responsible for a cross-sectional project that supports the German Ministry for Economic Cooperation and Development on all quality infrastructure issues including standards.
