Scenarios Workshop

**Submitted by the expert from the United Kingdom
of Great Britain and Northern Ireland**

Douglas Hannah

2ⁿᵈ Scenarios workshop

1ˢᵗ – 3ʳᵈ July in London

Discussions covered;

- Differing understandings of terminology around scenario catalogues and scenario databases
- Needs and use cases for scenarios by UNECE contracting parties
  - Sharing scenarios between contracting parties
  - In Service Monitoring and Reporting
  - Traceability of scenarios used in testing
  - Assessing coverage of manufacturer's scenario selection
  - Testing as part of ADS Regulation
  - Interoperability between different scenario catalogues
- The requirements to fulfil these use cases
- Detailed summary of the meeting in GRVA-20-05

Questions for GRVA/ADS IWG

- How will ISMR scenarios be produced?
- How will ISMR scenarios be shared?
- Will there be mandatory scenarios in the ADS Reg/GTR?
- Can GRVA adopt any standards to aid interoperability?
- How will coverage of the manufacturer's scenario selection be assessed?
- What timescales should these questions be answered on?
