### Distribution prices for guarantees issued under the eTIR procedure in 2024

Dear Mr Alexopoulos,

IRU would like to inform the TIR Secretariat that a distribution price of the guarantees issued under the eTIR procedure in 2024 will be CHF 22.19, which is to be considered as a temporary promotional distribution price.

A longer-term pricing mechanism will be set based on the scale of eTIR operationalisation, that is on how many countries will make eTIR operational and on the transit corridors these countries constitute, as this will define the value of TIR for transport operators as well as the operational costs to maintain both electronic and paper procedures.

The distribution price does not include the individual amount to be invoiced for the financing of the TIRExB and TIR Secretariat.

IRU will keep UNECE duly informed of any changes to the distribution prices.

Yours sincerely,
