

UNECE

Workshop "Ensuring tenure security after natural and man-made disasters" (Madrid, 2-3 November 2023)

Workshop "Ensuring tenure security after natural and man-made disasters" (2-3 November 2023)

OBJECTIVES

- Share experiences and good practices in Reconstruction from countries of the UNECE region and beyond
- Debate the main legal problems related to Reconstruction
- Explore how to secure land and housing tenure, especially on the legal, geospatial, and economic aspects.
- Discuss best ways to link geospatial and legal information on the land

PARTICIPANTS

- UNECE
- Spanish Land and Business Registrars Association (CORPME)
- EU: ELRA, EU Commission
- WORLD BANK
- UN4UkrainianCities Project
- NATO
- Norman Foster Foundation
- CINDER, IBEROREG
- National and Local Representatives

Workshop "Ensuring tenure security after natural and man-made disasters" (2-3 November 2023)

Legal aspects of Tenure Security

Geospatial information and Tenure Security

The impact of natural disasters on Tenure Security

UNECE

Workshop "Ensuring tenure security after natural and man-made disasters" (2-3 November 2023)

Impact of Natural and Man-made disasters

Reconstruction in Ukraine

Multidisciplinary aspects of Reconstruction

Institutional Framework for reconstruction

Workshop "Ensuring tenure security after natural and man-made disasters" (2-3 November 2023)

- CONCLUSIONS:

- Identification of effective regulations and mechanisms to **carry out Reconstruction in a resilient, legal, digital, geospatial way**, which ensures the protection of Tenure Security.
- Concluded that having **strong legal systems that can provide tenure security**, with institutions such as the Land Registry that provides reliable information about property, and having good Geospatial Portals/Cadastrals that help locating the territory, were presented as necessary keystones for reconstruction.
- Summed up in a chapter on Tenure Security of **the study on "Ecosystems and Security in Land Administration"** of the WPLA, which will be useful for any country facing similar situations.

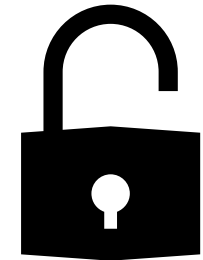

UNECE

WEBINARS

[Webinar: Cyber Security - How are land authorities responding to evolving threats to maintain system security? | UNECE \(22 February\)](#)

Focused on system security, addressing vulnerabilities in the information systems of land administration authorities, encompassing both design and user-related aspects

Case studies: Cyprus and Spain

WEBINARS

-Webinar on Cyber Security. Challenges of Cyber Security in Digital Land Administration: Digital security in the area of data, AI and sustainable cities | UNECE (25 April)

Addressed threats related to cyber security regarding data privacy, social and economic stability, and sustainable development, and proposed measures to minimize the risk and strengthen security

UNECE

WORLD BANK LAND CONFERENCE

- 12th -17th May 2024
- Round table together with the African Land Policy Centre and the Arab Land Initiative
- Identification of trends in Land Administration
