

Status report from the IWG on ITS and its TF on VC

Meetings overview

Since the June 2024 session of WP.29:

- IWG on ITS has met twice – on 5 Sept. and 7 Nov. 2024
- The TF on VC has held 4 meetings to complete its document on vehicular communications

Progress of TF VC

The TF on VC held 4 sessions and organized small drafting group sessions to complete the document titled:

“Vehicular Communications Definition, Types, Value, Uses, and Considerations”

The document was submitted to the IWG on ITS at its 10th session on 7 November 2024.

Progress of the IWG on ITS

The IWG on ITS has met twice:

- Endorsed the document submitted by the TF on VC and submitted it to WP.29 (see WP.29-194-23)
- Exchanged views on Artificial Intelligence in the context of WP.29 activities
- Initiated initial discussions on future activities on vehicular communications
- Agreed to discuss at its next session, before March 2025, the extension of its mandate (expiring in March 2025)

At next session, IWG expects to receive information from several stakeholders, such as current status and future plan regarding introducing into market of each VC use cases.
